Honors

Take the Honors Challenge!

Enrollees in the Honors Program are incoming high school graduates with a minimum high school GPA of 3.5 and continuing college students with a minimum college GPA of 3.25. Students may also be admitted into Honors classes by successfully completing the challenge process.

These classes are open to all students enrolled in the Honors Program. To enroll in the Honors Program, complete an enrollment form and have it signed by any counselor. Merced Campus counselors are located on the 2nd floor of the Leshler Student Services Center. Los Baños students please call (209) 381-6413 for information at the Los Baños Campus. (All counselors have forms.)

BIOL-04H HONORS PRINCIPLES OF BIOLOGY FOR SCIENCE

MAJORS

(CSU breadth area B2/B3) (IGETC area 5B)

4 units: 3 hours lecture, 3 hours lab.

Limitation on enrollment: Enrollment in the Honors Program. See the college catalog for a description of enrollment requirements. One-way corequisite: CHEM-04A. Advisories: BIOL-01; ENGL-A, ENGL-41.

Course emphases include cellular and molecular biology, biological membranes, bioenergetics, storage, processing, and expression of genetic information, classification and taxonomy, evolution, bio-diversity, and ecology. There will be an emphasis on collaborative learning, research, and scientific writing.

Learning Communities MDRC

Learning Communities are pairs or clusters of courses that revolve around a theme or major. If you are interested in one of these classes you must enroll in all of the classes in that group. You must enroll in person to determine if you are eligible and receive a counselor's signature.

Learning Communities #1 through #9 are part of a national study and must follow the random selection process for enrollment; interested students must consult with a counselor and an LC Clerk to enroll in these communities. Learning communities #10 through #12 are not part of a national study and follow the standard registration process for admission.

For more information about Learning Communities, contact Kay Lee at (209) 386-6754 or kay.lee@mccd.edu.

#1 ENGL-80-1194/ENGL-83-1298 THE POWER OF STORIES	
Outstanding stories are built through words, sentences, paragraphs, details and more. In this Learning Community, we will explore the idea that to write well requires us to read well. Reading and writing can move and delight us. Join this learning community to read interesting stories and about everyday people, and find your own powerful voice as a writer.	
ENGL-80 BASIC READING TACTICS I 3 units: 3 hours lecture. Prerequisite: ENGL-90 or ESL-91. Two-way corequisite: ENGL-80L. Advisories: Concurrent enrollment in ENGL-80, ENGL-80L; concurrent enrollment in ESL-85 is also recommended for non-native speakers. MERCED 1298 DAILY 09:00a-09:50a McBride J VOC-10

#2 ENGL-81-1295/ENGL-84-1308 BRIDGES TO SUCCESS BY BREAKING BARRIERS	
These classes will link reading and writing assignments to a common theme of personal success. Starting with how we see ourselves and how others might see us, we will move outward to larger issues of breaking down stereotypes, learning from history, tackling indifference, and exploring different points of view. Through engaging and collaborative lessons, both instructors will coordinate reading and writing assignments to provide students with the learning strategies necessary for identifying and breaking down barriers in order to build bridges to success both in and out of the classroom.	
ENGL-81 BASIC READING TACTICS II 3 units: 3 hours lecture. Prerequisite: ENGL-80, 80L. Two-way corequisite: ENGL-81L. Advisory: Concurrent enrollment in ENGL-84. This learning community will give students an opportunity to explore and write about topics central to their lives, including mental health, stress management, exercise, sexuality, nutrition, and aging. Students will work together to gain confidence in their writing and communication skills, and better understand themselves and their health. So, come join this unique learning community to become a better person – inside and out!

Learning Communities

FIRST YEAR EXPERIENCE

Freshmen Year Experience (FYE) is a broadly based group of activities designed to help first time college students be successful and excited about college. At many colleges, FYE includes mentoring, tutoring, orientation, and special classes called "learning communities". There are many types of learning communities. The ones listed below will help you do the following things:

1. How to be a better writer and thinker
2. How to choose your main area of study, and
3. How to be a successful student.

For more information, please contact the EOPS office in the Leshar Student Services building on the second floor or call (209) 381-6596.

Merced College – First Year Experience #10 ENGL-84-1309/MATH-80-1261/GUID-30-1662 START YOUR JOURNEY RIGHT				
Career, academic and life choices are bombarding you everyday. What should I major in? What career would be best for me? What is expected of me in college? How can I be successful? What does it mean to be a critical thinker, reader and writer? Join us and we will help you learn the skills you need to succeed in academics and ultimately answer these life changing questions.

Learning Communities PUENTE PROJECT

**#12: Puente Project Learning Community
ENGL-01A-1220/GUID-49M-1734/ENGL-41-1971**

The mission of the Puente Project is to increase the number of educationally under-served students who transfer to four-year colleges and universities, earn degrees, and return to the community as leaders and mentors to future generations. Puente is open to all interested students. Puente students take writing, reading, and guidance courses over two semesters. These classes provide a supportive and stimulating environment for Puente students with an emphasis on developing skills necessary to transfer through an exploration of the Mexican American/Latino experience. For more information, see www.mccd.edu/puente.

Supplemental Instruction

Want better grades in English or Math?

Sections of traditionally difficult courses are participating in a program called Supplemental Instruction (SI). In these sections, a trained SI leader will be present to offer assistance. The SI leader is a student who has recently taken the course from the same instructor and received a high final course grade.

Two to three hours of voluntary study sessions will be scheduled each week outside of the class time, allowing students to spend additional time working with the course material under the guidance of the SI leader. Enroll in these sections and attend the study sessions for the best chance of success in these courses. There is no additional cost to the student, and study sessions are always optional.

For more information contact Jennifer McBride at (209) 384-6376 or by e-mail at mcbride.j@mccd.edu.

For more information contact Marie Bruley at (209) 386-6674 or by e-mail at bruley.m@mccd.edu.

Online and Hybrid Instruction

ONLINE and HYBRID REQUIREMENTS AND EXPECTATIONS

- **Hybrid** courses have some combination of online and face-to-face instruction. Some courses may only require one face-to-face session, while others may require numerous in-class sessions.
- **Online** courses are 100% on line. Face-to-face interaction with the professor is not required.

Merced College Internet-based classes give students an opportunity to complete most of the course work outside the classroom at times they find most convenient.

Currently most of the Internet-based classes require some time on campus in face-to-face contact with the instructor. This requirement will vary from class to class, so read the schedule carefully.

Students must already possess the following technology skills:

- Use of e-mail
- Ability to create and e-mail documents as attachments (Word and RTF)
- Experience with uploading and downloading files
- Experience with posting to discussion boards, on-line chats, and electronic bulletin boards

Students must have reliable personal e-mail and an Internet web access account. Merced College has an open computer lab where students can access the Internet to take these classes, but it is not open around the clock, on holidays, or Sundays.

It is strongly recommended that students have easy and regular access (preferably from home) to the identified types of equipment and software.

You can access faculty web pages through <http://mccd.edu/faculty/>. They may contain valuable information relative to your online course:

All orientations and in-class sessions for Online Instruction take place on the Merced College Main Campus located at 3600 M Street in Merced. The following is a room key for those meetings:

COM-Communications Building

IAC-Interdisciplinary Academic Center

VOC-Vocational Building

Failure to attend a mandatory orientation or in-class session may result in your being dropped from the class by the instructor. Some of the instructors require that you e-mail them BEFORE THE CLASS BEGINS. It is highly recommended that you e-mail the instructor for instructions several weeks before the class begins.

ONLINE and HYBRID CLASSES WILL REQUIRE A PC WITH:

800 MHz processor (1.5 GHz or higher recommended)
 Super VGA (800 x 600) resolution video adapter and monitor (1024 x 768 or higher recommended)
 Windows XP or Vista operating system
 256 MB RAM (512 MB or greater recommended)

OR A MAC WITH:

600 MHz power PC G4 or better (1 GHz or higher recommended)
 800 x 600 resolution video adapter and monitor (1024 x 768 or higher recommended)
 OSX 10.3.9 or later
 128 MB RAM (512 MB or greater recommended)

ALL USERS REQUIRE INTERNET ACCESS WITH:

56k modem or faster connectivity (Broadband connection such as DSL or cable recommended)
 Macintosh users will need Safari 1.2 or higher
 PC users will need Internet Explorer 6.0 or higher

Portal and WebAdvisor (For logging in to Blackboard)

1. Go to the Merced College Portal homepage: <http://my.mccd.edu>.
2. Enter your username and password.
3. Click on WebAdvisor, then click on WebAdvisor for Students.

If you do not know your login information, click on the appropriate choice just below the login and password windows to obtain help.

Need Technical Assistance?

- For technical assistance obtaining your username and password for the Merced College Portal or
- For help with WebAdvisor, student e-mail and calendaring, using library databases, or other features in the Portal.

Call the Student Help Desk at 381-6565.

Student Help Desk Hours of Operation: 10:00am-7:00pm Monday-Thursday, and 8:00am-3:00pm Friday.
