

Dear Trustee and President/Superintendent Dr. Ben Duran

We the undersigned are petitioning your support for our desire to have access to a professionally staffed academic support center during all hours when classes are in session. Many students are in need of additionally assistance in subjects such as math, the sciences, and with the writing of essays, reports, and term papers. Presently, tutorial services are performed by different agencies (Supplemental Instruction, Study Central, The Writing Center, EOPS) in different locations, during restricted times, and often by untrained personnel. Students would be better served if our college provided a centralized and professionally managed Academic Support Center (ASC) during all operationally hours, and in one central location. Thank you for your thoughtful consideration of our petition.
