Minutes reviewed and approved by consensus.

OLD BUSINESS

Discussion: Splitting Program review into Assessment Overview and Goal setting with Resource Allocation?

Edward asked the CATs if any of their cohorts had questions regarding the splitting of program review. One question was would the splitting occur in the Spring or Fall semester? Another concern was would the VTEA funding be affected? Edward shared that VPI Kelly is curious whether or not we could start splitting program review within the next calendar year. He also indicated that it could be beneficial to VTEA to do the resource allocation early in the Fall, but it is unknown at this time how VTEA would be affected. Edward suggested trying to align VTEA and Program Review to increase the chances of funding, even though they have different deadlines.

Course Assessment Updates

No update.

Updates to "Assessment Overview" web page and/or Canvas - New Guides, Rubric and Video for CAT/Dean reviews

Edward shared that there are videos and guiding documents posted on the web page for CAT reviewers. A rubric is also posted to help standardize the way each section is scored.

Edward noticed that as a CAT or a Dean you aren't able to see the full list of programs. The solution is to change your role to Area Coordinator. There is no work flow when a program has been published. The only sign a program has been published is a change in the floating menu icon. It is the duty of the CATs to notify their Dean that they have completed reviewing a program.

eLumen Questions and Updates?

In order for Faculty to run program mapping, their role must be changed to Area Coordinator.
