

3F & 3G - Course Outcome #3 Competencies:

- f. Identify gaps between local and best practice.
- g. Identify errors and ways to improve the healthcare system.

Tool: The Joint Commission's Roadmap for Hospitals

This assignment can be completed by 10 students working in groups of 2 for a day on the unit. There will be no traditional patient care assignment on that day.

Divide Chapter 6 in the Roadmap (obtained from the Joint Commission's website) with one group looking at:

1. Leadership
2. Data Collection and Use
3. Workforce
4. Provision of Care, Treatment, and Services
5. Patient, Family, and Community Engagement

The groups will analyze the unit and compare how it is run to the recommendations in the Roadmap.

Use the information in Chapter 6 as a guide for making your assessment.

Compare and contrast the recommendations to the unit's activities.

Provide own recommendations on how to correct deficiencies.

Report in post-conference.

Rubric for The Joint Commission's Roadmap for Hospitals

Performance Criteria	S	NI	U
Analysis of unit compared to recommendations in the Roadmap.	Clearly and accurately compares the working of the unit with that in the Roadmap.	Analysis of the working of the unit with that in the Roadmap is scant.	Unable to analyze the working of the unit with that in the Roadmap.
