

5C - Course Outcome #5 Competency:

c. Use high quality electronic sources of healthcare information.

Tool: Electronic Sources of Healthcare Information

Identify an area of nursing care you would like to investigate to learn more as you plan care for your patient today. Conduct an internet search and locate a site with the information you are searching. Complete the table.

Factors to Consider	Comments on that Factor	Will you use this information after considering each factor?	How will you use this information in planning your patient's care?
Source of the Website			
Currency of site			
Relevance of the site			
Site evaluation (explain if you find the site credible; why or why not)			
Purpose of the website			
Accuracy of content			
Completeness of content			

Grading Rubric for Electronic Sources of Healthcare Information

Performance Level	S	NI	U
Completes all sections of the tool.	Accurately completes all sections of the tool.	Able to complete some, but not all, all sections of the tool.	Unable to complete all sections of the tool.
Synthesis of information	Synthesizes the information to determine how to use the information to plan care.	Able to relate care planning to some of the information learned from the electronic sources.	Unable to synthesize the information to determine how to use the information to plan care.
