The passage of propositions 30 and 39 has significantly improved the state's financial outlook. As a result, the Governor's proposed 2014-15 budget includes additional funding for community colleges as well as the elimination of all payment deferrals.

Additional funding and improved cash flow is welcome news for the community college system, including Merced College. However, this news is tempered by the reality that the District is still facing a structural budget gap. Through the budget development process, the District will continue to identify areas of potential revenue enhancements and budget savings to balance the District budget.
