AGAB-02 Agricultural Accounting

3.0 units: 54.0 hours lec.

This course will focus on the principles of agricultural accounting systems, types of records, their use, and how to compute and use measures of earnings and costs of production to improve agribusiness efficiency.

Online

32002 Donaher, K Online

AGAB-03 Agricultural Marketing

3.0 units: 54.0 hours lec.

: This course includes a survey of the marketing aspects of the agriculture industry and an overview of the structure and institutional aspects of the marketing system. Emphasis will be on the marketing functions and how consumer trends affect agribusiness.

Online

32855 Baskins, S Online

Comments: This 8-week class is held 10/20/25 to 12/12/25.

AGAB-05 Agricultural Economics

3.0 units: 54.0 hours lec.

This course includes the analysis of the microeconomic principles of supply and demand and the affects on producers and consumers. This class will explore the contemporary and historical place of agriculture and farmers in our economic, social, and political systems and their relationship to the consuming public.

Online

32985 Baskins, S Online

39425 MTWTh 08:00a-09:25a Weepers, M IT-4B

MTWTh 09:25a-10:50a Weepers, M IT-5

Comments: This 8-week class is held 8/25/25 to 10/16/25. This class is a Learning Community and linked to AUTO-32-39137, AUTO-33-39426, AUTO-54-39425, and AUTO-57-39135. You must register for all sections.

39534 MTWTh 08:00a-09:25a Weepers, M IT-4B

MTWTh 09:25a-10:50a Weepers, M IT-5

Comments: This 8-week class is held 8/25/25 to 10/16/25.

AUTO-55 Automotive Emissions Level 1 and 2 Training

5.0 units: 81.0 hours lec,

Prerequisite: *Required* Previously taken AUTO-54 and AUTO-58 and passed with a minimum grade of C.

This course is designed to provide students with knowledge and skills necessary to perform Smog Check Inspections. Level 1 training is intended to provide students with fundamental knowledge of engine and emission control theory, design and operation. Level 2 training is intended to provide students the knowledge, skills, and abilities needed to perform Smog Check inspections. Students who successfully complete this training will have met the California Bureau of Automotive Repair requirements for Level 1 and 2 training to qualify to take the Smog Check Inspector state licensing examination.

Merced Campus

39306 MTWTh 08:00a-11:00a Gregory, A IT-4A

MTWTh 11:00a-12:00p Gregory, A IT-2

Comments: This 8-week class is held from 10/20/25 to 10/31/25 and 11/10/25 to 12/12/25. This is a Learning Community and linked to AUTO-44-39049, AUTO-59-39304, AUTO-55-39306, and AUTO-76-39302. You must be registered for all sections.

39307 MTWTh 08:00a-11:00a Gregory, A IT-4A

MTWTh 11:00a-12:00p Gregory, A IT-2

Comments: This 8-week class is held from 10/20/25 to 10/31/25 and 11/10/25 to 12/12/25.

AUTO-57 Automotive Electrical Systems

4.5 units: 67.5 hours lec,

Prerequisite: *Required* Concurrent enrollment in AUTO-54.

This course covers automotive electrical systems and includes a review of electron theory, magnetism, and semiconductors. The student will acquire technical and working knowledge of starting, charging and ignition systems and components. The student will acquire working and technical knowledge of electrical accessories and accessory circuits. The use of special service tools and electronic diagnostic equipment will be included.

 MTWTh 03:20p-04:35p Gregory, A IT-2
 Comments: This 8-week class is held from 10/20/25 to 10/31/25 and 11/10/25 to 12/12/25.

AUTO-58 Automotive Computerized Controls

4.5 units: 67.5 hours lec,

Prerequisite: *Required* Previously taken AUTO-42 and AUTO-54 and passed with a minimum grade of C.

This course provides an in-depth exploration of automotive computers and electronic systems, essential for modern vehicle diagnostics and repair. Students will gain a comprehensive understanding of the integration of computer technology in automotive systems including various sensors and actuators. Key topics include the fundamentals of automotive electronics, the architecture of automotive computer systems, communication protocols such as CAN bus, OBD-II diagnostics, and the role of software in vehicle performance and safety.

 Comments: This 8-week class is held from 08/25/25 to 10/16/25. This class is a Learning Community and linked to AUTO-36-39403, AUTO-58-39186, AUTO-61-39405, and AUTO-64-39179. You must register for all sections.

39599 MTWTh 08:00a-10:00a Gregory, A IT-4A
 MTWTh 10:00a-11:05a Gregory, A IT-2
 Comments: This 8-week class is held from 08/25/25 to 10/16/25.

AUTO-59 Introduction to Electrified Vehicles

4.5 units: 67.5 hours lec,

Prerequisite: *Required* Previously taken AUTO-43 and AUTO-54 are required --- OR--- ASE A6 Industry Certificate.

Students must have basic understanding of automotive electrical systems and use of electrical test equipment. The course is designed for students without prior knowledge of Hybrid and Electric Vehicles. This course will cover the different types of electrified vehicles, safety, operation, and basic repair procedures related to electric motors, inverters, and high voltage batteries.

Merced Campus

 Comments: This 8-week class is held from 08/25/25 to 10/16/25.

AUTO-61 Automotive Engines

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Previously taken AUTO-54 and passed with a minimum grade of C.

This is a class in the principles and theory of engine repair and rebuilding including the disassembly and assembly of engines. There will be emphasis on inspection, measuring, and comparing worn and rebuilt parts. Testing equipment will be used during in-car engine condition diagnosis. Also included will be minor machining operations that are used in engine rebuilding and repairing.

 Comments: This 8-week class is held from 10/20/25 to 10/31/25 and 11/10/25 to 12/12/25. This class is a Learning Community and linked to AUTO-36-39403, AUTO-58-39186, AUTO-61-39405, and AUTO-64-39179. You must register for all sections.

39180 MTWTh 01:00p-03:00p Martinez, J IT-3
 MTWTh 03:00p-05:00p Martinez, J IT-1
 Comments: This 8-week class is held from 10/20/25 to 10/31/25 and 11/10/25 to 12/12/25.

AUTO-76 Advanced Automotive Service and Document

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Previously taken AUTO-36 AUTO-58 AUTO-61 and AUTO-64 is required.

This college-level course offers advanced training for aspiring automotive technicians, focusing on real-world applications in live vehicle work environments. Students will delve into the intricacies of automotive repair, with an emphasis on the flat rate payment system commonly utilized in the industry. Additionally, students will learn essential skills in documenting their work, ensuring accuracy, professionalism, and compliance with industry standards. Through a combination of hands-on experience and theoretical instruction, participants will develop the expertise needed to excel as proficient automotive technicians in today's dynamic automotive service industry.

BIOL-02 Human Biology

4.0 units: 54.0 hours lec,

Limitation on Enrollment: This course is not open to students having a C or better in BIOL-04A or BIOL-04AH. This course is recommended for Allied Health students. This course is an introduction to the principles of biology with an emphasis on humans. Topics covered include scientific method, cell structure and function, biochemistry, metabolism, cell division, heredity, biotechnology, evolution, anatomy and physiology of the human body, development and aging, disease, and ecology. This course is recommended for allied health students.

BIOL-04A Fundamentals of Biology: The Cell and Evolution

4.0 units: 54.0 hours lec,

Prerequisite: *Advised* Must have previously completed intermediate algebra or equivalent ----OR---- recommend taking this course concurrently with MATH-95S support.

Required Previously taken CHEM-04A is required.

Advised Previously taken ENGL-01A is advised.

This course is a study of the principles of biology. Areas of study will include aspects of the philosophy of science, the chemistry of life, the cell and cellular organization, biological membranes, energy transfer including photosynthesis and cellular metabolism, mitosis/meiosis, and molecular biology. Genetics will include Mendelian genetics, human genetics and Biotechnology. This course is intended for science majors for pre-medical, pre-veterinarian, pre-dental, pre-optometry, and pre-pharmacy majors.

BIOL-04B Diversity of Life: Morphology and Physiology

5.0 units: 54.0 hours lec,

Prerequisite: *Required* Take BIOL-04A; Minimum grade C,P;

This course is the second semester of a two-semester sequence of general biology for biology majors. This course will cover the origins of life, evolutionary history, biological diversity, plant form and function, animal form and function, and ecology. This course is intended for science majors and for pre-medical, pre-veterinarian, pre-dental, pre-optometry, and pre-pharmacy majors.

BIOL-06 Environmental Science

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This introductory course examines Earth as an ecosystem composed of biological, chemical and physical processes with emphasis on man's impact on the planet. Topics include the structure and function of ecosystems, biodiversity, the impact of industrialization and urbanization, energy, populations, resources, pollution, pesticides and risk/benefit assessment.

BIOL-16 General Human Anatomy

4.0 units: 36.0 hours lec,

Prerequisite: *Required* Complete one course from BIOL-01 or BIOL-02 or BIOL-04A and passed with a minimum grade of C or received an equivalent.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is an intensive study of the structure of the human body. Consideration is given to the skeletal, muscular, circulatory, respiratory, digestive, excretory, reproductive, and nervous systems. Special emphasis is placed on the needs of students majoring in biology, nursing, physical education, and medical sciences.

BIOL-20 Microbiology

4.0 units: 36.0 hours lec.

Prerequisite: *Required* Complete all groups: Group 1: Complete one course from BIOL-01 or BIOL-02 or BIOL-04A; and Group 2: Complete CHEM-02A;

Advised Previously taken ENGL-01A is advised.

This is an introductory course familiarizing students with basic laboratory techniques and fundamental topics of microbiology. Laboratory work includes aseptic techniques, staining procedures, biochemical characterization, serology, and DNA technology used in the identification of microorganisms. Lecture topics consist of a historical overview, genetics, metabolism, cell physiology, growth requirements, immunology, and host-parasite interactions between humans and bacteria, viruses, protozoa, and helminthes. The course is designed for students in any of the allied health professions.

Business (BUS)

BUS-10 Introduction to Business

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken AOM-30 and ENGL-C1000 (formerly ENGL-01A) is advised.

This survey course is an overview of all aspects involved in business. It

covers economic foundations, types of business organizations, marketing, money and banking, and finance. This information will be integrated and related to social, political, legal, and international matters affecting the United States.

BUS-18A Business Law

4.0 units: 72.0 hours lec.

Prerequisite: *Advised* Previously taken BUS-10 and ENGL-C1000 (formerly ENGL-01A) is advised.

This course is a study of legal principles that govern the conduct of business. Included are surveys of the essential elements of legal history and jurisprudence; judicial, administrative, and alternative dispute resolution; ethics; business crime; torts; contracts and the UCC; bankruptcy; agency relationships; property; administrative law; labor and employment law; international law. Introduction to legal research and brief-writing are also included.

Business - Non-Credit (BUSN)

BUSN-749 Applied Office Occupations

0.0 units: .

This entry-level course is designed for the adult student who desires vocational training in the field of Office Occupations. The course is project-based to develop student entry-level skill proficiency in using state of the art technology to solve problems. Various simulations reflective of real life experiences will be a major part of the instructional units. The course is 192 to 240 hours in duration and is open entry format.

Merced Campus

95925 MTWTh 08:00a-04:00p Vitato, J BRC-207
Comments: All prospective students are required to attend a mandatory orientation to participate in this tuition-free program. Please refer to this link to our website <https://www.mccd.edu/schools-programs/adult-education-non-credit/medical-assistant/> for orientation details (dates, times, modalities).

BUSN-752 Essential Computing and Digital Tech

0.0 units: .

This course introduces adult learners to modern computing, focusing on the Windows environment. Students will learn to navigate desktops, execute basic commands, browse the internet, use email and download files. Topics also include cloud storage, cybersecurity basics, online collaboration tools and use of apps for remote communication and productivity essential for today's technology-driven workplace. This course is 24 to 288 hours in duration.

CHEM-02B Introductory Chemistry: Introduction to Organic and Biochemistry

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Previously taken CHEM-02A is required.

Advised Previously taken ENGL-01A is advised.

This is a continuation of CHEM-02A with emphasis on organic and biochemistry. The structure, nomenclature, and properties of organic compounds such as alkanes, alkenes, arenes, alcohols, thiols, amines, aldehydes, ketones, carboxylic acids and their derivatives are covered. Structure, properties and reactions of biochemical compounds such as carbohydrates, proteins, and lipids are covered and followed through major and minor metabolic pathways. This course is intended for students in liberal studies, agriculture, and health-related fields. This course is not designed for chemistry or science majors.

CHEM-04A General Chemistry I

5.0 units: 54.0 hours lec,

Prerequisite: *Required* Take CHEM-02 is required.

Advised Must have previously completed intermediate algebra or equivalent ---OR--- recommend taking this course concurrently with MATH-95S support.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is designed to teach general principles of chemistry emphasizing nomenclature, chemical equations, stoichiometry, concentration, gas laws, atomic structure, bonding, intermolecular forces, and crystalline solids. It is designed for the student majoring in chemistry, physics, biology, engineering, pre-med, or related fields. A student who has not successfully completed the prerequisite of CHEM-02A but has completed a high school chemistry course with a grade of "B" or higher may consid-

er submitting a prerequisite challenge.

CHEM-04B General Chemistry II

5.0 units: 54.0 hours lec,

Prerequisite: *Required* Take CHEM-04A. Minimum grade C,P.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This is a continuation of the general principles of chemistry, with emphasis on kinetics, chemical equilibria, thermodynamics, electrochemistry, nuclear chemistry and transition metal complexes. An introduction to the principles of organic chemistry is included. The lab provides the student with experience in qualitative and quantitative analysis.

Merced Campus

CHEM-13A First Semester Organic Chemistry Lecture

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Previously taken CHEM-0B and passed with a minimum grade of C or received an equivalent.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is a study of the theory and practice of organic chemistry examining the bonding, structure, stereochemistry, nomenclature, properties, and reactions of hydrocarbons and organic halides. Addition, substitution, elimination, and rearrangement reactions are examined. Corresponding mechanisms and energy diagrams are included in the study. Nuclear magnetic resonance, infrared, ultra-violet and mass spectroscopy are introduced as structural elucidation techniques.

Merced Campus

10357 MW 09:30a-10:50a Fregene, P SCI-207
 Comments: Scientific calculator needed; see syllabus for specifics.

CHEM-13AL First Semester Organic Chemistry Lab

2.0 units:

Prerequisite: *Required* Previously taken CHEM-04B and passed with a minimum grade of C or received an equivalent.

Required Previously taken CHEM-13A and passed with a minimum grade of C ---OR--- Concurrently enrolled in CHEM-13A

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

A laboratory course that includes the study of organic laboratory techniques including the synthesis of organic compounds, separation, characterization, identification, purification, and the use of related instrumentation. This course is directed toward students in science and pre-professional preparation.

Merced Campus

10358 MW 11:00a-02:05p Fregene, P SCI-104

Prerequisite: *Advised* Must have previously completed intermediate algebra or equivalent ----OR---- recommend taking this course concurrently with MATH-95S support.

Advised Previously taken CPSC-01 and ENGL-C1000 (formerly ENGL-01A) is advised.

This course introduces the discipline of computer science using a high level language; provides an overview of computer organization and an introduction to software engineering. Topics include methodologies for program design, development, style, testing, and documentation; algorithms, control structures, methods, and elementary data structures. These skills will be used to solve a variety of application problems.

CPSC-07 Discrete Structures

3.0 units: 45.0 hours lec,

Prerequisite: *Required* Take CPSC-06 or CPSC-14 or ENGR-14; Take MATH-04A; Minimum Grade C, P;

This course is an introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics covered include: functions and recursion, relations and sets; basic logic; proof techniques; basics of counting; graphs and trees; and discrete probability.

Merced Campus

10107	MW	08:40a-09:50a	Hogan, G	B&E-202

CPSC-09 Foundations of Data Science Systems

4.0 units: 54.0 hours lec,

Foundations of Data Science introduces core concepts of inference and computational thinking through hands-on analysis of real-world data, including economic, geographic, and social network datasets. Students will gain practical skills in programming and statistical inference while exploring meaningful societal issues and ethical considerations in data analysis.

Merced Campus

12706	-	Saad, B

Comments: This course meets both in person and online.

CPSC-14 C++ Programming

3.0 units: 36.0 hours lec,

Prerequisite: *Advised* Must have previously completed intermediate algebra or equivalent ----OR---- recommend taking this course concurrently with MATH-95S support.

Advised Previously taken CPSC-01 is advised.

This is the entry-level comprehensive concepts course for computer science majors, and is recommended for science and math majors. Algorithm design, logic diagrams, problem-solving, coding, and debugging are emphasized using a structured language such as C++.

Merced Campus

CPSC-39 Programming Concepts and Methodology II

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Take CPSC-06 or ENGR-14 or MATH-14. Minimum grade C,P;

This course is a continuation course in Computer Science which introduces further aspects of software design and implementation. Abstract data types, fundamental data structures and associated algorithms: lists, stacks, queues and trees. Students will be expected to design, implement, test and analyze a number of programs.

Merced Campus

12705	-	Kanemoto, K

CPSC-42 Computer Architecture and Organization

3.0 units: 36.0 hours lec,

Prerequisite: *Required* Take CPSC-06 or ENGR-14 or MATH-14; Minimum Grade C, P;

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised,

The organization and behavior of real computer systems at the assembly-language level. The mapping of statements and constructs in a high-level language onto sequences of machine instructions is studied, as well as the internal representation of simple data types and structures. Numerical computation is examined, noting the various data representation errors and potential procedural errors.

Computer Tech and Info Systems (CTIS)**CTIS-03 Information and Communication Technology Essentials**

4.0 units: 36.0 hours lec, 108.0 hours lab.

This course provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level ICT professionals. The fundamentals of computer hardware and software as well as advanced concepts such as security, networking, and the responsibilities of an ICT professional will be introduced. Preparation for the CompTIA A+ certification exams.

CTIS-05 AI-Driven It Project Management

3.0 units: 27.0 hours lec,

In this course, students will learn essential project management concepts and skills, including project integration, scope, time, cost, quality, human resources, communications, risk, and procurement, with a specific focus on the information technology (IT) environment. The course will also introduce students to how artificial intelligence (AI) can enhance project management practices by automating routine tasks, providing predictive insights, and improving resource allocation. Students will explore AI-driven project management tools and techniques, gaining hands-on experience with technologies that support data-driven decision-making and workflow optimization. Additionally, this course prepares students for project management certification exams, such as CompTIA Project+ or Certified Associate in Project Management (CAPM), providing a solid foundation for those pursuing professional credentials in project management.

CTIS-15 Computer Network Fundamentals

3.0 units: 36.0 hours lec,

This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. Students achieve a basic understanding of how networks operate and how to build simple local area networks (LAN), perform basic configurations for routers and switches, implement Internet Protocol (IP) and enterprise technologies, including cloud and virtualization. Students will apply the knowledge and skills required to troubleshoot, configure, and manage common network devices; establish basic network connectivity; and implement network security, standards, and protocols. Preparation for the CompTIA Network+ certification exam.

CTIS-19 Cyber Ops

3.0 units: 27.0 hours lec,

Prerequisite: *Advised* Previously taken CTIS-15 and CTIS-20 is advised.

This course introduces the core security concepts and skills needed to monitor, detect, analyze, and respond to cybercrime, cyberespionage, insider threats, advanced persistent threats, regulatory requirements, and other cybersecurity issues facing organizations. It also covers how to monitor, detect, and respond to cybersecurity threats, as outlined in the National Institute of Standards and Technology (NIST) Cybersecurity Framework. You will learn security concepts, security monitoring, host-based analysis, network intrusion analysis, and security policies procedures. This course also aligns with the National Initiative for Cybersecurity Education (NICE) Cybersecurity Workforce Framework to support consistent communication language for cybersecurity education, training, and workforce development.

CTIS-23 Cyber Network Defense

3.0 units: 27.0 hours lec,

Prerequisite: *Advised* Previously taken CTIS-15, CTIS-20, and CTIS-16 is advised.

This course equips students with the knowledge and skills required to secure networks effectively. With this course, a network professional can demonstrate the skills required to develop a security infrastructure, recognize threats and vulnerabilities to networks, and mitigate security threats. The course will cover core security technologies, the installation,

troubleshooting and monitoring of network devices to maintain integrity, confidentiality and availability of data and devices, and competency in the technologies that networking uses in its security structure.

CRIM-04 Criminal Law

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Previously taken CRIM-02 and passed with a minimum grade of C ---OR--- Concurrently enrolled in CRIM-02

This course offers an analysis of the doctrines of criminal liability in the United States and the classification of crimes against persons, property, morals, and public welfare. Special emphasis is placed on the classification of crime, the general elements of crime, the definitions of common and statutory law, and the nature of acceptable evidence. This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice courses will build. The course will also include some limited discussion of prosecution and defense decision making, criminal culpability, and defenses to crime.

CRIM-42C Reserve Officer Module Level 3

7.0 units: 108.0 hours lec,

Limitation on Enrollment: Students must be cleared by the California Department of Justice (DOJ) to participate. DOJ clearance is evaluated through the LiveScan fingerprint process. This clearance will reveal a qualifying/disqualifying criminal history background. In addition, there must be an absence of medical conditions that would prevent strenuous physical training during arrest and control methods training, use of force, and crimes in progress. A physician's clearance indicating good physical health must be presented to the instructor at the first class meeting. Students must possess a California Driver's License. This course meets the requirements of the State of California Commission on Peace Officer Standards and Training (POST). It covers topics such as: ethics, professionalism, the criminal justice system, criminal law, property crimes, crime against persons, laws of arrest, laws of search and seizure, investigative report writing, vehicle operations, use of force, crimes in progress, traffic enforcement, preliminary investigation, custodial issues, arrest and control methods including baton, first aid, CPR, chemical agents, information systems, and cultural diversity. In accordance with POST regulations, students missing more than 5% of class time will not be certified in this course. Students will participate in one or more learning activities from the POST-developed Instructor's Guide to Learning Activities for Leadership, Ethics and Community Policing (December 2005) or other comparable sources regarding leadership to consist of 3 hours per week.

Comments: This 12-week class is held from 9/16/25 to 12/02/25. This class meets in-person and may require online access. In addition this class will also meet on Saturdays and Sundays, 08:00a-04:50p to include a 60 minute lunch. Requires a \$117.20 fee for materials; other fees may apply. Additional hours required. Limited enrollment - instructor approval required.

Diagnostic Medical Sonography (SONO)

SONO-43A OB/GYN Sonography

4.0 units: 54.0 hours lec, 54.0 hours lab.

Limitation on Enrollment: Enrollment in the Diagnostic Medical Sonography Program. This course presents a review of anatomy and physiology of the gravid and nongravid pelvis. Techniques of transabdominal and transvaginal preparation are introduced. Symptomology of the female patient with correlation to sonographic appearance of pathology are covered. Obstetrical sonographic assessment are covered in depth.

Merced Campus

SONO-43B Clinical Experience III

9.0 units:

Prerequisite: *Required* Take SONO-43A

Limitation on Enrollment: Enrollment in the Diagnostic Medical Sonography Program. This course provides clinical experience for application of theoretical principles and concepts covered in previous and current didactic coursework. Clinical experience in patient care and handling, diagnostic sonographic scanning techniques, instrumentation, work efficiency and image evaluation; emphasis on obstetric and gynecological imaging is provided. Clinical experience in all related sonographic applications is provided.

Economics (ECON)**ECON-01 Introduction to Microeconomics**

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

ECON-01 is an introductory course in microeconomic theories including maximization, benefit versus cost, rational choice, the analysis of demand and supply, the role of price in free markets, consumer behavior, market structure, production cost, competitive business models, and resource pricing. The course examines the nature of production, distribution, market outcomes, and the role of government in the market.

Education (EDUC)**EDUC-01 Introduction to Education I**

3.0 units: 36.0 hours lec, 54.0 hours lab.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Limitation on Enrollment: Students must obtain a fingerprint clearance

and negative TB clearance. Students are introduced to the profession of teaching through an understanding of California's content standards and frameworks, the historical foundations of the American educational system, and teacher performance standards. Practical experiences in the classroom will include a minimum of 45 hours of observation in the classroom of a campus-approved certificated classroom teacher. Students must provide their own transportation to off-campus school sites. Note: Fingerprint clearance and TB clearance are required. Students must dress appropriately as recommended by off-campus school sites. Observation placements will not be available for students with felony convictions.

Electricity/Electronics Tech (ELCT)

ELCT-30 Exploring the World of Electricity and Elec-

tronics

3.0 units: 54.0 hours lec.

This is an overview of electricity and electronics presented in the context of the principles of science. Students will gain an understanding of electronic components and circuits and will learn how to use the scientific method to investigate the physical nature of electricity, magnetism and their applications. Topics such as electronics in biotechnology, communications, consumer electronics, and industrial technology will be addressed, along with the impact and context of the electronic age on modern society.

ELCT-55 Electrical Conduit Bending Theory and Techniques

1.0 units: 9.0 hours lec,

Prerequisite: *Advised* Previously taken INDT-35 and INDT-49 is advised.

This course provides a comprehensive overview of conduit bending, fabrication procedures and methods. It will develop basic competencies in electrical apprentices and beginning learners. It will discuss hand bending for 90 degree bends, offsets and kicks, saddles and corner offsets, segmented bends, threaders, benders and other conduit types. These conduit types will include electrical metallic tubing (EMT), galvanized rigid conduit (GRC), rigid aluminum, intermediate metallic conduit (IMC), various poly-vinyl chloride (PVC), and flexible plastic and metallic conduit. Wiring in accordance with the National Electrical Code (NEC) will be stressed. Students may petition, through the Office of Admissions and Records, to retake the course as the National Electrical Codes change.

Prerequisite: *Required* Take EMER-10 and EMER-11; Minimum Grade C,P;

Required Take EMER-20

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Limitation on Enrollment: Health Screening Clearance Live Scan clearance. Maintenance of current NREMT certification. Maintenance of current BLS Healthcare Provider card. Based upon State and Federal Regulations, CA Title 22. Description: This course is the co requisite for Advanced Paramedic (Paramedic II) and occurs in the skills lab or simulation lab. The student will practice and master skills that will allow the student to meet the clinical performance objectives of the program. Practice and competency testing is the focus of this course and will include physical assessment, care of the medical patient, special populations' needs, trauma management, communication with EMS base station and medical director, implementing safety precautions for hazardous materials exposure and manage the scene of an emergency. Students will fulfill 4.5 total lab hours per week by arrangement.

Merced Campus

 Comments: Contact: steven.melander@mccd.edu for course-specific questions. Additional fees may apply. Limited enrollment - instructor approval required.

EMER-30 Paramedic, Acute Clinical Lab

3.0 units:

Prerequisite: *Required* Take EMER-10 and EMER-11 and EMER-20 and EMER-21; Minimum Grade C,P;

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Limitation on Enrollment: Health Screening Clearance. Current NREMT certification maintained throughout course. Current BLS Health Care Provider card maintained throughout course. Live Scan Clearance. Based upon State and Federal Regulations, CA Title 22. Description: This course occurs in the acute care hospital setting in a precepted format. It is the hands-on application of theory and skills in a hospital setting to a wide variety of sick and injured clients. This course is part of a program of study to prepare paramedics as described in California Code of Regulations, Title 22, Division 9, Chapter 4 and lists the required hours and subjects to be covered as set forth by the Department of Transportation curriculum.

Merced Off-Campus

Comments: Contact: steven.melander@mccd.edu for course-specific questions. Additional fees may apply. Limited enrollment - Instructor approval required.

EMER-50A Emergency Medical Technician 1, Module A

2.5 units: 40.5 hours lec,

Prerequisite: *Advised* Take ALLH-67 is advised.

Limitation on Enrollment: Negative chest xray for TB within 1 year; A CPR course based on American Red Cross Professional Rescuer or American Heart Association Healthcare provider. This is the first of two modules designed to teach basic emergency medical procedures and responsibilities, including stabilization of the sick and injured for transportation to medical facilities, care during transport, communication with base-hospital personnel, and transfer of the injured to the base-hospital emergency room. This course meets the requirements of Title 22, Division of California Administrative Code. Students successfully completing EMER-50A and EMER-50B are eligible to take the EMT 1 certifying exam from the National Registry of Emergency Medical Technicians. Students will fulfill 0.75 total lab hours per week by arrangement.

Engineering (ENGR)

ENGR-14 C++ Programming

3.0 units: 36.0 hours lec, 54.0 hours lab.

Prerequisite: *Advised* Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra.

Advised Previously taken CPSC-01 and ENGL-01A is advised.

This is the entry-level comprehensive concepts course for computer science majors, and is recommended for science and math majors. Algorithm design, logic diagrams, problem-solving, coding, and debugging are emphasized using a structured language such as C++.

Merced Campus

ENGR-15 Elementary Mechanics (statics)

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Take PHYS-04A and MATH-04C; Minimum grade C,P;

Required Take MATH-04C

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

A first course in engineering mechanics: properties of forces, moments, couples and resultants; two- and three-dimensional force systems acting on engineering structures in equilibrium; analysis of trusses, and beams; distributed forces, shear and bending moment diagrams, center of gravity, centroids, friction, and area and mass moments of inertia.

ENGR-30 Introduction to Engineering

2.0 units: 18.0 hours lec,

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and MATH-C, MATH-61, or MATH-62 is advised.

The course explores the branches of engineering, the functions of an engineer, and the industries in which engineers work. Explains the engineering education pathways and explores effective strategies for students to reach their full academic potential. Presents an introduction to the methods and tools of engineering problem solving and design including the interface of the engineer with society and engineering ethics. Develops communication skills pertinent to the engineering profession.

Merced Campus

ENGR-45 Engineering Materials

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Take CHEM-04A, MATH-04A, and

PHYS-04A; Minimum grade C,P;

This course is an introduction to the atomic and microscopic structure of modern engineering materials. The effect of structure and manufacturing processes on the mechanical, electrical, and other physical properties of materials are studied. Metals, alloys, ceramics, polymers, and composites are explored.

Merced Campus

10116 TTh 12:30p-01:50p Gargova, S B&E-130

English (ENGL)

ENGL-01B Introduction to Literature

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Take ENGL-C1000 (formerly ENGL-01A)

Minimum grade C,P;

This course introduces representative works from four major genres: short story, novel, drama, and poetry. Students develop analytical and evaluative reading and writing skills while acquiring an appreciation for the cultural context and the aesthetic qualities of literature. Students read texts from various countries and periods in order to encourage an appreciation of literature's range, artistry, and insight into the human experience.

ENGL-04A Introduction to World Literature: Ancients to 1650

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and ENGL-01B is advised.

This course examines the origins and developments of world literatures and cultures from the ancients to 1650 through various literary genres and cultural traditions. Primary focus will fall on major works of certain periods and of geographic origins. Students will engage in comparative analysis and evaluation of the literary works as well as close study of the works in addition to the study of each text's merit.

ETHN-23 Chicana/O American History and Culture

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This interdisciplinary course examines the social, political, and cultural roots of Chicana/os, tracing history from their Indigenous, African, and Spanish beginnings to the present. It analyzes race, ethnicity, and culture, in relation to Chicana/o communities and their social justice movements and struggles. The course provides a basis for a better understanding of the socio-economic, cultural, and political conditions among Chicana/os through historical consideration of the creation and development of Ethnic Studies programs in the United States. Special emphasis is also placed on the contributions of Chicana/o scholars, artists, and activists by using an intersectional decolonial lens to explore the effects of (neo)colonialism, imperialism, white supremacy, Eurocentrism, and racism.

HIST-20 History of Asian Americans

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly

ENGL-01A) is advised.

This course is an interdisciplinary study of Asian Americans from a historical, political, sociological, and aesthetic perspective. Social emphasis is placed on the contributions of Asian Americans scholars and activists by using an intersectional lens to explore the effects of colonialism, imperialism, white supremacy, and racism. This course offers pragmatic historical and political evaluations that aim to introduce students interested in Ethnic Studies, Asian American Studies, Gender Studies, and social movements.

HIST-23 Chicana/O American History and Culture in the Southwest US

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This interdisciplinary course examines the social, political, and cultural roots of Chicana/os, tracing history from their Indigenous, African, and Spanish beginnings to the present. It analyzes race, ethnicity, and culture, in relation to Chicana/o communities and their social justice movements and struggles. The course provides a basis for a better understanding of the socio-economic, cultural, and political conditions among Chicana/os through historical consideration of the creation and development of Ethnic Studies programs in the United States. Special emphasis is also placed on the contributions of Chicana/o scholars, artists, and activists by using an intersectional decolonial lens to explore the effects of (neo)colonialism, imperialism, white supremacy, Eurocentrism, and racism.

HIST-29 History of California

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is a survey of the early history of California through to the present, starting with the original peoples of California, the discovery and settlement of the area by the Spanish, the Mexican period, American conquest and occupation, and the gold rush. The course also examines topics including the economic, social, cultural, and political consequences of railroad expansion, and early twentieth-century urbanization. It also includes the impact of the Great Depression and World War II, water

projects, protest and reform movements of the 1960's, the rise of conservatism and recent political trends.

KINE-09 Adaptive Physical Education

1.0 units:

Advisory: Student must provide medical verification of disability and recommendation of medical intervention. This course is a continuing program of individualized instruction for the physically disabled student allowing that student long-range participation in an adapted exercise physiology environment designed to create more physical independence for the student.

Merced Campus

01002 TTh 09:30a-10:50a Staff, M GYM-4

KINE-13 Beginning Basketball

1.0 units:

Advisory: Good general health; absence of medical conditions that would prevent planned physical activity. This course offers the beginning student the opportunity to develop and improve fundamental skills involved in basketball, such as, ball handling, shooting, defensive and offensive tactics, and physical endurance. It also covers team strategy and play. Rules, strategy, and sportsmanship are also stressed.

Merced Campus

01003 MW 08:00a-09:20a Sousa, S GYM-1

KINE-14 Beginning Volleyball

1.0 units:

Advisory: Good general health; absence of medical conditions that would prevent planned physical activity. This course begins with the basic skills and court positions necessary to enjoy the sport. Each class session begins with warm-up exercises and "dry-land" drills. Skill period ends with class participation in a volleyball match.

Merced Campus

02704 M 07:00p-08:50p Serna, R GYM-1

KINE-15 Softball

1.0 units:

Good general health; absence of medical conditions that would prevent planned physical activity. This is a course designed to teach the fundamentals of softball. Batting, throwing, catching, base running, team play, rules and strategy will be covered.

Merced Campus

01004 TTh 12:00p-01:20p McGhee, S ATHL-SBF

KINE-24A Beginning Swimming

1.0 units:

Limitation on Enrollment: Good general health; absence of medical conditions that would prevent planned physical activity. This course is a general introduction to swimming and aquatics. It is designed for the beginner or non-swimmer who wants to learn aquatic fundamentals and receive stroke instruction in the front crawl, elementary backstroke, and sidestroke.

Merced Campus

02902 MW 10:00a-10:50a Halpin, W ATHL-POOL

Comments: This 8-week class meets from 8/25/25 to 10/15/25

KINE-24B Techniques and Stroke Development for Swimming

1.0 units:

Prerequisite: *Advised* Previously taken KINE-24A is advised.

This course is designed for the intermediate swimmer. Emphasis is placed on technique and stroke development of the front crawl, elementary backstroke, and side stroke. Back crawl, breaststroke, butterfly, turns, dives, and fitness and training concepts will also be introduced.

Merced Campus

02705 MW 02:00p-02:50p Halpin, W ATHL-POOL

KINE-24C Swimming for Fitness

1.0 units:

Prerequisite: *Advised* Previously taken KINE-24B is advised.

This course is designed for the swimmer who has mastered the basic skills and is ready for more advanced swimming techniques. Emphasis is placed on the competitive swimming strokes, turns, starts, and principles of training.

Merced Campus

01006 TTh 10:30a-11:50a Halpin, W ATHL-POOL

KINE-30 Group Exercise

1.0 units:

Limitation on Enrollment: Good general health; absence of medical conditions that would prevent planned physical activity. This course uses a variety of group exercise to improve cardiorespiratory fitness, muscular fitness, and flexibility. Strenuous physical activity is required. Good general health advised.

Merced Campus

01007 TTh 01:15p-02:35p Cruz, O ATHL-FHA

KINE-31 Aerobic Training

1.0 units:

Limitation on Enrollment: Good general health; absence of medical conditions that would prevent planned physical activity. This class uses a variety of aerobic activities to improve cardio-respiratory endurance. Machines used include stair climber, treadmills, cycles, rowing, recumbent bikes and cross trainers. Emphasis will be placed on monitoring physiological response to exercise and teaching proper warm-up, training at target rate, and cool down. A pre-test and post-test will be administered to evaluate fitness level and monitor improvement.

Merced Campus

01008 MW 11:00a-12:20p Staff, M GYM-4

KINE-32 Circuit Weight Training

1.0 units:

Advisory: Good general health; absence of medical conditions that would prevent planned physical activity. The equipment provided for both cardiovascular endurance and strength training (single station exercise machines) in the fitness lab are designed to exercise all major muscle groups for a well-rounded fitness program with the non-athletic in mind. Circuit weight training has proven beneficial for people of all ages and genders, who are interested in weight training, with the emphasis on increasing muscle tone and cardiovascular fitness.

KINE-35 Flexibility and Cardiovascular Fitness

2.0 units:

Limitation on Enrollment: Good general health; absence of medical conditions that would prevent planned physical activity. Practical applications of all aspects of flexibility and cardiovascular conditioning are presented and performed. A system of class presentation is used to insure a gradual, safe, and total physiological adaptation of the student to exercise. A gradual, progressive, safe, and eventually total body fitness experience is pursued. Geriatric fitness adaptations are emphasized.

Music: Applied (MUSA)**MUSA-20 Applied Music**

0.5 units: 27.0 hours lab.

Prerequisite: *Required* Take one course in each group below:

Group 1: Take MUSE-41, MUSE-42, MUSE-43, or MUSE-44; Group 2: Take MUST-01, MUST-02, MUST-03, or MUST-04; Group 3: Take MUST-05, MUST-06, MUST-07, or MUST-08;

Enrollment by audition and interview with the instructor. Instructor signature is required to enroll in the course. This course provides private individual instruction in voice, piano, wind, or string instruments at a level equivalent to that of a music major in the appropriate term of the their freshman or sophomore year of music studies. It requires one lesson per week with a private instructor approved by the music department faculty. A minimum of 14 weekly lessons must be verified. In addition, this course includes a weekly group workshop detailing various aspects of music performance. A jury examination by the music department faculty is required at the conclusion of the course. This course can be repeated three times and is intended for music majors only. Students enrolled in this course are required to be in at least one ensemble and one theory class concurrently.

Merced Campus

52710 Th 02:00p-03:00p Davidson, B MUS-2

MUSA-21A Voice I

3.0 units: 54.0 hours lec.

Limitation on Enrollment: Must demonstrate the ability to match pitch; see instructor. This is a course in elementary voice training. It emphasizes posture, diaphragmatic-intercostals breathing, breath support, breath control, tonal placement, articulation, stage presence, and overcoming performance anxiety. Critical evaluation, demonstration, and written reviews will be required. A basic understanding of music fundamentals and reading sheet music is not required, but highly desirable.

Merced Campus

51130 MW 11:00a-12:20p Simon, A MUS-1

MUSA-27A Class Piano I

Music: Ensemble (MUSE)**MUSE-41 Concert Band**

1.0 units: 54.0 hours lab.

Limitation on Enrollment: Audition by Instructor. This course provides experience in performing concert and symphonic band literature chosen from Classical, Romantic, Modern and contemporary eras. Literature may range from sacred to secular in the genres of classical, traditional, pop, and jazz band repertoire. Attention will be given to the composers of the literature and particular performance practices historically applicable. Public performance and exchange concerts are scheduled in addition to class rehearsals. This course may be repeatable three times.

Merced Campus

56009 W 05:30p-08:35p Davidson, B MUS-2

MUSE-42 Jazz Ensemble

1.0 units:

Limitation on Enrollment: Audition by instructor. This course is a study of jazz music in the big band tradition and modern eras, as is standard first semester lower division college performance ensemble classes. Attention will be given to the composers of the literature and those particular performance practices which are historically applicable. The course emphasizes individual, sectional and ensemble instrumental performance. Tone, intonation, balance, precision, breath control, articulation, style, and improvisation are included. The jazz ensemble makes several public performances each year. This course may be repeatable three times.

Merced Campus

56010 M 05:30p-08:35p Taylor, K MUS-2
 56015 Th 05:30p-08:35p Taylor, K MUS-2

MUSE-44 Chorale

1.0 units:

Limitation on Enrollment: Audition by Instructor. This course specializes in the study and performance of choral literature chosen from Renaissance, Baroque, Classical, Romantic, Modern and contemporary eras and may include both sacred and secular genres of classical, pop, and jazz choral literature. Attention will be given to the composers of the literature and particular performance practices historically applicable. An emphasis will be made on literature written or arranged for large vocal ensembles. Emphasis includes part-singing, intonation, breath control, vocal development, blend, tone coloring, and choral balance. The Chorale performs several times throughout the year. This course may be repeated three times.

Merced Campus

56011 T 06:00p-09:05p Simon, A LESH-111

MUSE-46 Pep Band

1.0 units:

This course provides experience in performing Pep Band repertoire in popular styles such as rock, pop, and blues. In addition to weekly rehearsals, the pep band will perform on campus throughout the semester to support school events. This course may be repeatable three times.

Merced Campus

51125 MW 12:30p-01:50p Davidson, B MUS-2

Music: General (MUSG)**MUSG-10 Music Fundamentals**

3.0 units: 54.0 hours lec.

This course is a study of music fundamentals throughout history, including principles and procedures of rhythm, pitch notation, musical symbols, scales, key signatures, intervals, and diatonic chords. Students will study the historical and cultural development of various music notation styles and fundamentals. Students will apply knowledge learned in class to interpret and critique music with regard to its historical and cultural context. The course applies to musicians who have learned to play/sing without training in fundamentals and to beginners in music. This course is open to all students.

MUSG-13 Jazz Music History

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course presents the history of jazz music from 1890 to the present, including an introduction and analysis of significant jazz artists and their contributions to this American art form. Particular emphasis is given to developing listening skills appropriate to the understanding and appreciation of jazz. In addition, the instructor will discuss international influences and the development of jazz as a world musical form. This course is a listener's guide to the appreciation of jazz and incorporates principles of structure, expression, instrumentation, cultural and social issues integral to jazz music.

Music: Theory (MUST)**MUST-01 Music Theory I (Diatonic Harmony)**

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Take MUSG-10; Minimum grade C,P;

This course provides a thorough study of diatonic harmony found in music of the common practice era. This class introduces harmonic and voice-leading principles, triads & seventh chords, and harmonic progression. This course is open to all students. While previous training in music is not required, the expectation is that the student understands fundamental music principles (e.g., reading standard music notation). This class is a core requirement for the student who is pursuing an AA or AA-T in music.

Merced Campus

51051 TTh 11:00a-12:20p Simon, A B&E-203

MUST-03 Music Theory III (chromatic Harmony)

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Previously taken MUST-02 and passed with a minimum grade of C or received equivalent

Advised Previously taken MUSA-27B is advised

This course examines chromatic music theory related to classical and popular music using skills acquired in MUS-04A and MUS-04B. This course covers concepts that help the student develop as a musician. These skills are essential to both performance and songwriting. It is open to all students interested in music who have met the prerequisites of the course. This course is a core requirement for the student who is pursuing an AA in music.

Merced Campus

Comments: This 8-week class is held 10/20/25 to 12/12/25.

NUTR-44 Food Safety and Sanitation

2.0 units: 36.0 hours lec.

This beginning course is designed to teach basic food safety principles of personal and institutional sanitation. This includes the proper storage, preparation, and service as well as HACCP, food allergies, regulations and pest management. An emphasis is placed on the Supervisor's role in maintaining high standards for these principles. This course meets the California Retail Food Code requirement section numbers 113947.1 through 113947.6. This course is required by the Dietary Service Supervisory and Certified Dietary Manager Programs. Students in those programs are required to take and pass the ServSafe Food Handler and ServSafe Manager Exam or equivalent. This course is highly recommended to those interested in working in Food Service industry as well as application to lifelong learning.

Merced Campus

Comments: This 8-week class is held 8/25/25 to 10/17/25.

NUTR-45 Introduction to Medical Nutrition Therapy

2.0 units: 36.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is designed to acquaint students with therapeutic and modified diets used in health care facilities. Topics include nutrition for disease states as well as normal nutrition needs. Students will become familiar with principles of nutrition intervention and client care. Students will be able to evaluate menus to meet the nutritional needs of patients. Cultural considerations and the management of long term care residents will be emphasized. This course is required for the student planning a career in food service supervision and plans to become a Certified Dietary Manager. It is especially beneficial for those planning employment in health care institutions and is recommended for nursing students.

PHSC-01 Introduction to Physical and Earth Science

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised).

This is an introductory course presenting the nature of physical, earth, and space sciences and their relationship to other areas of scientific knowledge. The course will develop the major concepts and give an understanding of the general principles of physical, earth, and space science. As an introductory class, the course of study will focus on major principles and applications to modern observations and phenomena. This course is designed to meet the content requirement for physical science and for earth and space science for the Liberal Studies - Elementary Teaching preparation pathway.

Merced Campus**PHSC-01L Introduction to Physical Science and Earth Science Laboratory**

1.0 units:

Prerequisite: *Required* Take PHSC-01

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This introductory laboratory is designed to provide hands-on exploration in parallel with topics covered in the lecture course, PHSC-01. Emphasis will be placed on 1) classical science experimentation, 2) laboratory activities in the real world, and 3) support of the laboratory activities through use of modern technologies. Students planning on becoming K-12 teachers will find materials applicable to their future profession.

Psychology (PSYC)

PSYC-01B Introduction to Psychological Research Methods

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Take PSYC-01A or PSYC-01AH; Take PSYC-05 or MATH-10. Minimum grade C,P;
Advised Previously taken ENGL-C1000 (formerly ENGL-O1A) is advised.

This course reviews psychological methods of research. Attention will be focused on foundations of experimental design, procedures and methodology for collecting research data, and techniques used to analyze, report, and present findings in APA format. Research design will also be examined through a review of past psychological research and various branches of modern Psychology.

PSYC-05 Introduction to Statistics in Psychology

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra.

Advised Previously taken ENGL-C1000 (formerly ENGL-O1A) is advised.

The theory of parametric and nonparametric statistical methods and their application to psychological data. Topics include: descriptive statistics, probability and sampling distributions; statistical inference and power, linear correlation and regression, chi-square; t-tests; and one-way analysis of variance (ANOVA). Application of both hand-computation and statistical software printouts to data in a psychology context, including the interpretation of the relevance of the statistical findings.

Radiologic Technology (RADT)**RADT-10 Introduction to Radiologic Sciences and Health Care**

4.0 units: 54.0 hours lec, 54.0 hours lab.

Prerequisite: *Required* Take ALLH-67 and RADT-50; Minimum grade C,P;

Limitation on Enrollment: Enrollment in the Diagnostic Radiologic Technology Program; Student supplied criminal background and drug screening clearances; physical evaluation within the last 6 months; negative TB screening or chest x-ray report with the last 6 months; current inoculations; annual flu vaccination; current CPR. This course provides an overview of the foundations of radiography and the practitioner's role in the health care delivery system. Students will be oriented to the administrative structure of program, health science professions and career advancement, health care environment, cultural awareness in the radiologic sciences, ethics and the law, and regulatory agencies. The basic principles of radiation protection, patient care and pharmacology will also be presented. An overview of computer fundamentals, digital imaging, computer literacy, software applications, library use, time management, study skills and a mathematics review will be presented.

RADT-15A Radiologic Procedures III

1.0 units: 9.0 hours lec,

This course is designed to provide a knowledge base necessary to perform standard radiographic procedures of the cranium, facial bones and paranasal sinuses. The laboratory portion of this course will include positioning exercises and image evaluation of these areas to achieve both accuracy and speed.

Merced Campus

49001 Th 10:00a-11:05a Abarca, R AHC-148
 Th 11:05a-02:05p Abarca, R AHC-148

RADT-15B Clinical Education III

5.5 units:

Limitation on Enrollment: Enrollment in the Diagnostic Radiologic Technology Program. This course provides continued clinical experience for application of theoretical principles and concepts covered in previous and current didactic coursework. Clinical experience in patient care and handling, positioning skills, equipment utilization, radiation protection

application, patient information management, work efficiency and image evaluation is provided.

Merced Off-Campus

47201 - Abarca, R

RADT-15C Advanced Radiologic Procedures I

2.0 units: 36.0 hours lec.

Limitation on Enrollment: Enrollment in the Diagnostic Radiologic Technology Program. This course covers advanced radiographic procedures of vascular and non-vascular procedures and interventional radiology.

Merced Campus

49002 Th 10:00a-02:30p Abarca, R AHC-148

RADT-15D Radiographic Pathology

1.5 units: 27.0 hours lec.

Limitation on Enrollment: Enrollment in the Diagnostic Radiologic Technology Program. This course presents an introductory study of basic disease processes, nature and causes of disease and injury and their related radiographic significance. This course is part of the third semester of a twenty-nine month program in Radiography and is only offered during fall semester.

Merced Campus

41007 Th 08:00a-09:30a Lang, K AHC-148

RADT-18A Integrative Study in Radiography

2.0 units: 36.0 hours lec.

Limitation on Enrollment: Enrollment in the Diagnostic Radiologic Technology Program. This course covers a comprehensive analysis and assessment of all previous radiography instructional coursework in preparation for writing the national registry examination (ARRT). Job market readiness skills will also be presented.

Merced Campus

41008 W 09:00a-11:05a Lang, K AHC-148

RADT-18B Advanced Clinical Education III

9.0 units:

Limitation on Enrollment: Enrollment in the Diagnostic Radiologic Technology Program. This course provides clinical experience for reapplication of theoretical principles and concepts covered in previous and current didactic coursework. Clinical experience in patient care and handling, positioning skills, equipment utilization, radiation protection application, patient information management, work efficiency and image management and evaluation is provided.

Merced Off-Campus

47202 - Lang, K

RADT-18C Sectional Anatomy

1.0 units: 18.0 hours lec.

Limitation on Enrollment: Enrollment in the Diagnostic Radiologic Technology Program. This course covers an introduction to sectional anatomy. Emphasis will be placed on the major anatomic structures normally seen in axial sections with some coronal and sagittal sections included.

Merced Campus

41009 W 08:00a-08:50a Abarca, R AHC-148

RADT-24 Work Experience in Radiology

1.0 units:

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job in diagnostic radiologic technology. Fifty-four (54) hours, either paid or volunteer, are required per unit of credit attempted. Students must be enrolled in the Diagnostic Radiologic Program and have an established work site in diagnostic radiologic technology before enrolling in the course.

Merced Off-Campus

43005 - Lang, K
 43006 - Lang, K

RADT-50 Career Exploration in Medical Imaging

1.0 units:

Prerequisite: *Advised* Previously taken ALLH-67 and BIOL-16 is advised.

Limitation on Enrollment: Negative TB screening test or chest x-ray (within last 6 months); some facilities may require criminal background and drug screening clearances; some facilities may require current immunizations. This course allows students to sample an experience in a medical imaging setting in order to enhance their understanding of the challenges and opportunities in considering a career in diagnostic medical imaging. The instructor of record will be responsible for arranging the student's clinical placement during the course's orientation meeting.

Merced Off-Campus

43007 - Lang, K

Comments: This course requires all students attend a mandatory orientation, typically scheduled for the first week of the class. Date/time/location plus any additional requirements will be emailed directly to registered students ONLY ahead of time by the Instructor of Record. Allied Health students must adhere to clearance requirements in order to be accepted into, and continue enrollment in, Allied Health Programs' clinical courses. Requirements include: background checks, drug screenings, vaccinations. Merced College follows the requirements put in place by our clinical partners.

Real Estate (REAL)

REAL-42 Real Estate Principles

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is an analysis of principles of real estate in California, history of California real estate, property, contracts, agency, listings, real estate financing, deeds, liens and encumbrances, escrows and title insurance, land descriptions, real estate mathematics, and real estate licensing and state regulations.

Merced Campus

92930 W 05:30p-08:35p Navarro, R B&E-221
Comments: This 5-week course is held 08/25/25 to 09/26/25.

REAL-43 Real Estate Practices

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is an analysis of problems related to establishing and conducting a real estate business, which includes but is not limited to preparing and evaluating listings, prospecting, advertising, the selling process, closing the sale, financing real estate, exchanges and specializing brokerage, income properties, management and leasing, taxes, land utilization, and professional and public relations.

Merced Campus

92931 W 05:30p-08:35p Navarro, R B&E-221
Comments: This 5-week course is held 09/29/25 to 10/31/25.

REAL-44 Legal Aspects of Real Estate

3.0 units: 54.0 hours lec.

This course focuses on California real estate laws. Topics include: principal legal aspects of ownership, acquisition and transfer of real property, legal descriptions, contracts, escrow procedures, forms for trusts and foreclosures, liens, legal instruments, property ownership and management, real estate security devices, property rights, landlord-tenant law, land-use controls, and title insurance. This course satisfies the education requirements for the California Real Estate Salesperson and Broker exam and license. Field trips may be required.

Merced Campus

92932 W 05:30p-08:35p Navarro, R B&E-221
Comments: This 5-week course is held 11/03/25 to 12/05/25.

Registered Nurse (REGN)

REGN-03 Work Experience in Registered Nursing

1.0 units: 18.0 hours lec.

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job in registered nursing. This course is designed for students in the Registered Nursing program who obtain positions as externs. Fifty-four (54) hours, either paid or volunteer, are required per unit of credit attempted. Students must have an established work site in registered nursing prior to enrolling in the course.

Merced Off-Campus

43008 - Taylor, L
43009 - Taylor, L

REGN-15 Foundations of Nursing

9.0 units: 72.0 hours lec,

Prerequisite: *Required* Take BIOL-16, BIOL-18, BIOL-20; MATH-10 or transfer level math course; ENGLC-1000 (formerly ENGL-01A); Minimum grade C,P;

Required Take REGN-18

Limitation on Enrollment: 1) Enrollment in the REGN program; 2) CPR card Module AC; 3) Physical within past 6 months; 4) Negative TB screening test within past 6 months or negative chest xray within past year; 5) Proof of current immunizations; 6) Criminal background clearance; 7) Drug screening Registered Nursing 15 (Foundations of Nursing) focuses on foundational concepts necessary for safe, patient-centered nursing care to a diverse patient population while integrating legal and ethical responsibilities of the nurse. Introduces critical thinking applied to nursing, the nursing process, diversity, and communication techniques used when interacting with patients and members of the interdisciplinary team, and applies evidence-based nursing practice. Includes acquisition of basic nursing skills. Application of knowledge and skills occurs in the nursing skills laboratory and a variety of acute and long-term care clinical settings.

REGN-18 Pharmacology in Nursing Practice

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Take REGN-15

Advised Previously taken VOCN-46A is advised.

Limitation on Enrollment: Enrollment in the REGN Program. Registered Nursing 18, Pharmacology in Nursing Practice, presents an overview of the basic principles of pharmacology including major drug classifications and prototypes. Principles of medication administration include all aspects of best practice for safe, quality, patient-centered care including developmentally and culturally appropriate interventions. Includes dosage calculations.

Online

42000 Schindler, W Online

REGN-24 Acute Medical/Surgical and Nursing of The Childbearing Family

10.0 units: 90.0 hours lec,

Prerequisite: *Required* Take REGN-15 REGN-18; Minimum Grade C,P;

Limitation on Enrollment: Enrollment in the REGN program 2nd Semester. Registered Nursing 24 provides for the acquisition and application of nursing theory, communication, collaboration, and critical thinking skills necessary for safe, patient-centered nursing care to a developmentally and culturally diverse patient populations experiencing various common medical/surgical interventions and to the childbearing family. Incorporates best practices, professional standards, and legal and ethical responsibilities of the professional nurse as applied in various healthcare settings. Includes acquisition of nursing skills required in acute care and childbearing family settings. Application of knowledge and skills occurs in the nursing skills laboratory and clinical settings.

Sociology (SOC)**SOC-01 Introduction to Sociology**

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course provides an introduction into what it means to be sociologically mindful and to think sociologically while understanding the difference from other ways of seeing the social world. The course begins with the understanding of the differences between personal troubles and public issues, and how sociologists apply various theoretical perspectives to a wide range of issues, such as: culture; socialization; social structure

of society; deviance; issues of feminization; family; gender; race; inequality; economics; politics and population; and the relationship between the individual and society. The course accents international comparisons to show how similar institutions are structures and function differently in different societies around the world.

SOC-02 Contemporary Social Problems

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

SOC-02 introduces fundamental theories and methodologies employed in the study of contemporary social problems. An emphasis is placed on analysis of causes and possible solutions to such problems as poverty, discrimination, crime, delinquency, alcoholism, drug abuse, suicide, family, and politics. A global perspective focuses on the international influences and contributions to various contemporary social problems.

SOC-04 Introduction to Gender

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Sociological analysis of the social construction of gender, masculinity, and femininity historically and cross-culturally. This course examines the debates on sex and gender. It analyzes the impact of economic and political change on gender expectations and practices. It focuses on macro-analyses of how institutions shape gender and microanalysis of how individuals are socialized and how they "do" and practice gender.

Vocational Nursing (VOCN)**VOCN-42 Principles and Practices of Nursing Care I**

14.0 units: 144.0 hours lec, 324.0 hours lab.

Prerequisite: *Required* Take VOCN-40, VOCN-47B; Minimum grade C,P;

Required Take VOCN-47B

Limitation on Enrollment: Enrollment in the Vocational Nursing Program; current CPR Card; a negative TB skin test or negative chest x-ray. This course emphasizes theoretical principles and clinical experience in meeting Maslow's basic human needs of nutrition, oxygenation, elimination and affiliation. It involves clinical experiences in meeting BHN of individuals of all ages with commonly occurring health problems. This is the second semester of a 3 semester program. Clinical experience is integrated.

VOCN-46A Applied Mathematics for Pharmacology

1.0 units: 18.0 hours lec.

Prerequisite: *Advised* Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra.

This is an introductory pharmacology course which includes an introduction to the professional context of drug administration, and study of the metric, apothecary, and household systems of measurement. Nursing responsibility to patient safety is included. Completion of this course requires accurate interpretation of doctors order, reading medication bottles, calculating drug dosages, and the reason for their application.

Fall 2025 Honors Classes

Communication Studies (COMM)

COMM-C1000H Introduction to Public Speaking-Honors

3.0 units: 54.0 hours lec,
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is recommended.
Effective Fall 2025, COMM-C1000H replaces COMM-01H. In this course, students learn and apply foundational rhetorical theories and techniques of public speaking in a multicultural democratic society. Students discover, develop, and critically analyze ideas in public discourse through research, reasoning, organization, composition, delivery to a live audience, and evaluation of various types of speeches, including informative and persuasive speeches. This is an honors course. (Approved for C-IDCOMM 110) Students taking this class must be enrolled in the Honors Program. See the college catalog for a description of enrollment requirements.

Merced Campus

21218 TTh 09:30a-10:50a Bonstein, J IAC-108

History (HIST)

HIST-17AH Honors United States History and United States Constitution

3.0 units: 54.0 hours lec, .
Limitation on Enrollment: Enrollment in the Honors Program. (See the College Catalog for a description of enrollment requirements). This course covers the social, political, economic and constitutional development of the nation. There will be an emphasis on academic rigor, analytical research, writing, critical thinking, and collaborative learning.

Merced Campus

51037 MW 12:30p-01:50p Lorenz, M IAC-106

Humanities (HUM)

HUM-01H Honors Studies In Humanities: Ancient Through Renaissance

3.0 units: 54.0 hours lec, .
Limitation on Enrollment: Enrollment in the Honors Program. (See the College Catalog for a description of enrollment requirements). The principal aim of this course is to examine human existence and cultural endeavor from the earliest ancient civilizations through the Renaissance. Students will examine developments in the fine arts, literature, philosophy, religion, and the sciences from a variety of cultures, both Western and non-Western. There will be an emphasis on collaborative learning, research, and writing.

HONORS CLASSES

Fall 2025 Los Banos Classes

Administrative Office Mgmt (AOM)

AOM-30 Introduction to Computer Applications

3.0 units: 36.0 hours lec,

This course is intended for students seeking an introduction to application software used in the workplace with emphasis on business situations. Computer applications including word processing, spreadsheets, databases, and presentation managers will be covered.

Los Banos Campus

74060	MW	12:15p-01:20p	Garcia Martinez, J	LB-A-108
	MW	01:30p-02:55p	Garcia Martinez, J	LB-A-108

Ag Environmental Horticulture (AGEH)

AGEH-05 Plant Propagation

3.0 units: 36.0 hours lec, 54.0 hours lab.

This course teaches the principles of sexual and asexual propagation, seeding, cuttings, grafting, budding, and layering. The student will also be exposed to dedicated plant structures relating to propagation, specialized propagation media and rooting aids.

Los Banos Campus

74026	T	11:00a-01:10p	Armenta, E	LB-B-112
	Th	11:00a-02:20p	Armenta, E	LB-B-112

Agriculture Plant Science (AGPS)

AGPS-01 Elements of Plant Science

4.0 units: 54.0 hours lec, 54.0 hours lab.

Introduction to plant science including structure, growth processes, propagation, physiology, growth media, biological competitors, and post-harvest factors of food, fiber, and ornamental plants. Laboratory required.

Los Banos Campus

74032	MW	08:00a-09:20a	Armenta, E	LB-B-101
	MW	09:30a-10:50a	Armenta, E	LB-B-101

AGPS-05 Soil Science

3.0 units: 36.0 hours lec, 54.0 hours lab.

This course provides a basic knowledge of the physical, chemical, and biological properties of soils and their characteristics. The course includes factors of fundamental soil properties, soil and plant relationships, principles of soil formation, fertilizers and soil management, salinity, pH, erosion management, and nonagricultural uses.

Los Banos Campus

74034	M	11:00a-01:10p	Armenta, E	LB-B-134
	W	11:00a-02:10p	Armenta, E	LB-B-134

Allied Health (ALLH)

ALLH-63 Nurse Assistant

6.0 units: 63.0 hours lec, 135.0 hours lab.

Limitation on Enrollment: 1. Orientation Workshop 2. CPR Card-Module AC 3. Negative TB Screening test within past 6 months or negative chest x-ray within past year 4. Physical within past 6 months 5. DOJ fingerprint clearance 6. Penal Code Violations Clearance. The course provides clinical instruction and practice of basic nursing skills required of nursing assistants employed in skilled nursing facilities and extended care facilities. The course emphasizes care of the older adult client, assistance with the activities of daily living, bathing, dressing, exercise movement, eating, eliminating safety measures, cardiopulmonary resuscitation and rehabilitation techniques. Meets State Department of Health Services requirements for eligibility to take the Nursing Assistant Certification examination.

78040	T	05:00p-09:05p	Staff, M	LB-B-138
	S	06:30a-03:50p	Staff, M	LB-B-138
	S	06:30a-03:50p	Staff, M	OFL-L-NB

ALLH-67 Medical Terminology

3.0 units: 54.0 hours lec.

This course is a study of general medical terminology -- diagnostic, operative, and symptomatic terms related to body systems -- with emphasis on proper spelling and pronunciation.

Los Banos Campus

78046	T	06:00p-09:05p	Soriano, M	LB-B-106
-------	---	---------------	------------	----------

Biology (BIOL)

BIOL-01 General Biology for Non-Majors

4.0 units: 54.0 hours lec, 54.0 hours lab.

Limitation on Enrollment: This course is not open to students having a C or better in BIOL-04A. This is an introductory-level course designed for non-majors. Areas stressed include the origin of life, structure and function of cells, basic processes of life, reproduction, ecology, microbiology, evolution, classification, genetics, and metabolic processes.

Los Banos Campus

72714	-		Sarai, D	
	T	05:30p-08:35p	Sarai, D	LB-B-105

	Th	01:30p-04:35p	Doscher, E	LB-B-105

BIOL-02 Human Biology

4.0 units: 54.0 hours lec, 54.0 hours lab.

Limitation on Enrollment: This course is not open to students having a C or better in BIOL-04A or BIOL-04AH. This course is recommended for Allied Health students. This course is an introduction to the principles of biology with an emphasis on humans. Topics covered include scientific method, cell structure and function, biochemistry, metabolism, cell division, heredity, biotechnology, evolution, anatomy and physiology of the human body, development and aging, disease, and ecology. This course is recommended for allied health students.

Los Banos Campus

74098	TTh	02:15p-03:35p	Ward, W	LB-B-102
	T	11:00a-02:05p	Ward, W	LB-B-102

BIOL-16 General Human Anatomy

4.0 units: 36.0 hours lec, 108.0 hours lab.

This course is an intensive study of the structure of the human body. Consideration is given to the skeletal, muscular, circulatory, respiratory, digestive, excretory, reproductive, and nervous systems. Special emphasis is placed on the needs of students majoring in biology, nursing, physical education, and medical sciences.

Los Banos Campus

74104	MW	01:15p-02:15p	Ward, W	LB-B-107
	MW	10:00a-01:05p	Ward, W	LB-B-104
74106	MW	01:15p-02:15p	Ward, W	LB-B-107
	MW	02:30p-05:35p	Ward, W	LB-B-104

BIOL-20 General Human Anatomy

4.0 units: 36.0 hours lec, 108.0 hours lab.

Requisites: Complete all groups: Group 1: Complete one course from BIOL-01 or BIOL-02 or BIOL-04A; and Group 2: Complete CHEM-02A; - Must be completed prior to taking this course. Previously taken ENGL-01A is advised. - Recommended to be taken either prior to or at the same time as this course, but is not required. This is an introductory course familiarizing students with basic laboratory techniques and fundamental topics of microbiology. Laboratory work

includes aseptic techniques, staining procedures, biochemical characterization, serology, and DNA technology used in the identification of microorganisms. Lecture topics consist of a historical overview, genetics, metabolism, cell physiology, growth requirements, immunology, and host-parasite interactions between humans and bacteria, viruses, protozoa, and helminthes. The course is designed for students in any of the allied health professions.

Los Banos Campus

72732 TTh Ward, W Online
05:30p-08:50p Ward, W LB-B-104

Business (BUS)**BUS-10 Introduction to Business**

3.0 units: 54.0 hours lec.

This survey course is an overview of all aspects involved in business. It covers economic foundations, types of business organizations, marketing, money and banking, and finance. This information will be integrated and related to social, political, legal, and international matters affecting the United States.

Los Banos Campus

78110 MW 05:30p-06:50p McMurray, P LB-B-107

BUS-35 Money Management

3.0 units: 54.0 hours lec.

This course offers instruction in basic financial, career and life planning. Areas of study include income distribution; occupational earnings; wise buying; credit and borrowing; insurance; housing; savings and investments; taxes; and retirement and planning.

Los Banos Campus

78114 MW 07:00p-08:20p McMurray, P LB-B-107

Business - Non-Credit (BUSN)**BUSN-756 Introduction to Office Occupations**

0.0 units: .

This entry-level course is designed for the adult student who desires vocational training in the field of Office Occupations. This course will introduce students to computers and the Windows software environment. Students will learn to identify the components of desktop screens and learn to execute basic computer commands. The class will also cover keyboarding, email, basic business skills and downloading files. The course is project-based to develop student entry-level skill proficiency in using Microsoft Office Word, Power Point, Excel and Access. Various simulations reflective of real life experiences will be a major part of the instructional units. The course is 384 to 480 hours in duration and is open entry format.

Los Banos Campus

75910 MTWTh 08:00a-12:00p Her, P LB-A-108

Chemistry (CHEM)**CHEM-02A Introductory Chemistry**

4.0 units: 54.0 hours lec, 54.0 hours lab.

This is an introduction to the general principles of inorganic chemistry, atomic and molecular structure, states of matter, solutions, and radioactivity. The class is designed for students majoring in liberal studies; nursing or agriculture.

Los Banos Campus

72734 - Khurana, S
W 11:00a-02:05p Khurana, S LB-B-105

W 07:45a-10:50a Khurana, S LB-B-105

CHEM-04A General Chemistry I

5.0 units: 54.0 hours lec, 108.0 hours lab.

This course is designed to teach general principles of chemistry emphasizing nomenclature, chemical equations, stoichiometry, concentration, gas laws, atomic structure, bonding, intermolecular forces, and crystalline solids. It is designed for the student majoring in chemistry, physics,

biology, engineering, pre-med, or related fields. A student who has not successfully completed the prerequisite of CHEM-02A but has completed a high school chemistry course with a grade of "B" or higher may consider submitting a prerequisite challenge.

Los Banos Campus

72742 - Khurana, S
TTh 07:45a-10:50a Khurana, S LB-B-105

CHEM-95S Introductory Chemistry Support

1.0 units: 54.0 hours lab.

A review of the core prerequisite skills, competencies and concepts needed in Introductory Chemistry. Topics include basic science process skills, prealgebra and elementary algebra, and the development of critical thinking, problem-solving, and effective study skills needed for introductory chemistry. Intended for students who are currently enrolled in Introductory Chemistry.

Los Banos Campus

74114 M 07:45a-10:50a Khurana, S LB-B-105

Child Development (CLDV)**CLDV-01 Child Growth and Development**

3.0 units: 54.0 hours lec.

Examines the progression of development in the physical, cognitive, social, and emotional domains and identifies developmental milestones for children from conception through adolescence. Emphasis on interactions between biological processes and environmental factors. Students will observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. (Approved C-ID CDEV 100)

Los Banos Campus

74116 TTh 12:30p-01:50p Heft, A LB-B-134

CLDV-02 Child, Family and Community

3.0 units: 54.0 hours lec.

The processes of socialization focusing on the interrelationship of family, school, and community. Examines the influence of multiple societal contexts. Explores the role of collaboration between family, community, and schools in supporting children's development, birth through adolescence. (Approved C-ID CDEV 110)

Los Banos Campus

74120 TTh 11:00a-12:20p Heft, A LB-B-134

CLDV-03 Principles and Practices of Teaching Young Children

3.0 units: 54.0 hours lec.

Historical contexts and theoretical perspectives of developmentally and culturally appropriate practice in early care and education for children birth through age eight. Explores the typical roles and expectations of early childhood educators. Identifies professional ethics, career pathways, and professional standards. Introduces best practices for developmentally and culturally appropriate learning environments, curriculum, and effective pedagogy for young children including how play contributes to children's learning, growth, and development. (Approved for C-ID EVE 110)

Los Banos Campus

74124 W 06:00p-09:05p LB-B-134

CLDV-04L Observation and Assessment Practicum

3.0 units: 36.0 hours lec, 54.0 hours lab.

Limitation on Enrollment: As per California Law SB792, all volunteers, students, and employees of educational/service facilities must provide documentation verifying required immunizations and negative TB test. These requirements must be met prior to the start of class. Introduces the appropriate use of assessment and observation tools and strategies to document young children's development and learning. The use of findings to inform and plan learning environments and experiences are emphasized. Recording strategies, rating systems, portfolios, and multiple assessment tools will be discussed, along with strategies for collaboration with families and professionals. (Approved for C-ID ECE 200)

Communication Studies (COMM)

COMM-14 Small Group Discussion & Problem Solving

3.0 units: 54.0 hours lec.

Effective Fall 2025, COMM-14 replaces COMM-04. This is a course designed to help students develop critical thinking and oral presentation skills for communicating and working together on small group tasks. Emphasis is placed on problem-solving, reasoning, conflict resolution, and leadership.

Los Banos Campus

74150	TTh	03:45p-05:05p	Cheek, G	LB-B-135
-------	-----	---------------	----------	----------

COMM-15 Interpersonal Communication

3.0 units: 54.0 hours lec.

Effective Fall 2025, COMM-15 replaces COMM-05. The focus of this course is to examine the dynamics of communication in one-to-one relationships from a theoretical point of view with a focus on core concepts and methods of research in interpersonal relationships. Communication theory and skills will be investigated in order to help students gain a basic knowledge of the cultural and social organizations in which they (students) exist as well as the behavior and social organizations of other human societies.

Los Banos Campus

74152	MW	03:45p-05:05p	Cheek, G	LB-B-135

Criminal Justice (CRIM)

CRIM-01 Criminology

3.0 units: 54.0 hours lec.

This course is an analysis of the nature and patterning of criminality and theories of criminal behavior. Crime control policies are critically exam-

ined regarding linkages among 1) social conflicts and inequalities, 2) criminal laws and enforcement practices, and 3) social deviance.

Los Banos Campus

78160	TTh	05:30p-06:50p	Melden, J	LB-B-107
-------	-----	---------------	-----------	----------

CRIM-02 Introduction to Criminal Justice

3.0 units: 54.0 hours lec.

The course will emphasize the three major components of the system: court, corrections, law enforcement, and will then examine the role of each. This course pertains to the history and philosophy of criminal justice in America.

Los Banos Campus

78162	TTh	07:00p-08:20p	Melden, J	LB-B-107
-------	-----	---------------	-----------	----------

Economics (ECON)

ECON-01 Introduction to Microeconomics

3.0 units: 54.0 hours lec.

ECON-01 is an introductory course in microeconomic theories including maximization, benefit versus cost, rational choice, the analysis of demand and supply, the role of price in free markets, consumer behavior, market structure, production cost, competitive business models, and resource pricing. The course examines the nature of production, distribution, market outcomes, and the role of government in the market.

Los Banos Campus

Emergency Medical Care (EMER)

EMER-50A Emergency Medical Technician 1, Module A

2.5 units: 40.5 hours lec, 13.5 hours lab.

Limitation on Enrollment: Negative chest xray for TB within 1 year; A CPR course based on American Red Cross Professional Rescuer or American Heart Association Healthcare provider. This is the first of two modules designed to teach basic emergency medical procedures and responsibilities, including stabilization of the sick and injured for transportation to medical facilities, care during transport, communication with base-hospital personnel, and transfer of the injured to the base-hospital emergency room. This course meets the requirements of Title 22, Division of California Administrative Code. Students successfully completing EMER-50A and EMER-50B are eligible to take the EMT 1 certifying exam from the National Registry of Emergency Medical Technicians. Students will fulfill 0.75 total lab hours per week by arrangement.

Prerequisite: *Required* Previously taken CRIM-02 and passed with a minimum grade of C ---OR--- Concurrently enrolled in CRIM-02

This course offers an analysis of the doctrines of criminal liability in the United States and the classification of crimes against persons, property, morals, and public welfare. Special emphasis is placed on the classification of crime, the general elements of crime, the definitions of common and statutory law, and the nature of acceptable evidence. This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice courses will build. The course will also include some limited discussion of prosecution and defense decision making, criminal culpability, and defenses to crime.

Sociology (SOC)**SOC-01 Introduction to Sociology**

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course provides an introduction into what it means to be sociologically mindful and to think sociologically while understanding the difference from other ways of seeing the social world. The course begins with the understanding of the differences between personal troubles and public issues, and how sociologists apply various theoretical perspectives

to a wide range of issues, such as: culture; socialization; social structure of society; deviance; issues of feminization; family; gender; race; inequality; economics; politics and population; and the relationship between the individual and society. The course accents international comparisons to show how similar institutions are structures and function differently in different societies around the world.

College (COLL)

COLL-57 Reaching Your STEM Potential

0.5 units: 9.0 hours lec, .

This first-year experience course for STEM majors will explore both the challenges associated with pursuing a two- or four-year degree in STEM as well as the benefits of successfully completing such a degree. Content will be informed by the research-based application of Expectancy Value Theory and will include strategies for success in STEM. The course will include career exploration and a career assessment to aid students in evaluating their own personal alignment in a STEM discipline.

Communication Studies (COMM)

COMM-C1000 Introduction to Public Speaking

3.0 units: 54.0 hours lec, .

Begins Fall 2025. Effective Fall 2025, COMM-C1000 replaces COMM-01. In this course, students learn and apply foundational rhetorical theories and techniques of public speaking in a multicultural democratic society. Students discover, develop, and critically analyze ideas in public discourse through research, reasoning, organization, composition, delivery to a live audience and evaluation of various types of speeches, including informative and persuasive speeches. (Approved for C-ID COMM 110)

CRIM-42C (Reserve Officer Module Level 3)

7.0 units: 108.0 hours lec,

Limitation on Enrollment: Students must be cleared by the California Department of Justice (DOJ) to participate. DOJ clearance is evaluated through the LiveScan fingerprint process. This clearance will reveal a qualifying/disqualifying criminal history background. In addition, there must be an absence of medical conditions that would prevent strenuous physical training during arrest and control methods training, use of force, and crimes in progress. A physician's clearance indicating good physical health must be presented to the instructor at the first class meeting. Students must possess a California Driver's License. This course meets the requirements of the State of California Commission on Peace Officer Standards and Training (POST). It covers topics such as: ethics, professionalism, the criminal justice system, criminal law, property crimes, crime against persons, laws of arrest, laws of search and seizure, investigative report writing, vehicle operations, use of force, crimes in progress, traffic enforcement, preliminary investigation, custodial issues, arrest and control methods including baton, first aid, CPR, chemical agents, information systems, and cultural diversity. In accordance with POST regulations, students missing more than 5% of class time will not be certified in this course. Students will participate in one or more learning activities from the POST-developed Instructor's Guide to Learning Activities for Leadership, Ethics and Community Policing (December 2005) or other comparable sources regarding leadership to consist of 3 hours per week.

CTIS-05 (AI-Driven It Project Management)

3.0 units: 27.0 hours lec, 81.0 hours lab.

In this course, students will learn essential project management concepts and skills, including project integration, scope, time, cost, quality, human resources, communications, risk, and procurement, with a specific focus on the information technology (IT) environment. The course will also introduce students to how artificial intelligence (AI) can enhance project management practices by automating routine tasks, providing predictive insights, and improving resource allocation. Students will explore AI-driven project management tools and techniques, gaining hands-on experience with technologies that support data-driven decision-making and workflow optimization. Additionally, this course prepares students for project management certification exams, such as CompTIA Project+ or Certified Associate in Project Management (CAPM), providing a solid foundation for those pursuing professional credentials in project management.

Sociology (SOC)**SOC-01 Introduction to Sociology**

3.0 units: 54.0 hours lec, .

This course provides an introduction into what it means to be sociologically mindful and to think sociologically while understanding the difference from other ways of seeing the social world. The course begins with the understanding of the differences between personal troubles and public issues, and how sociologists apply various theoretical perspectives to a wide range of issues, such as: culture; socialization; social structure of society; deviance; issues of feminization; family; gender; race; inequality; economics; politics and population; and the relationship between the individual and society. The course accents international comparisons to show how similar institutions are structures and function differently in different societies around the world.

THTR-21 (Technical Theatre in Production)

3.0 units: 18.0 hours lec,

Limitation on Enrollment: Limitation on enrollment: Enrollment by interview. Instructor signature required. This course covers the interview, rehearsal, and performance period of a production. Students will participate in a show as a stage manager, assistant stage manager, or part of the running crew. They will focus on learning and applying skills in one of the following areas: stage management, scenery, properties, costumes, lighting, sound, or makeup. Understanding the basic concepts, processes, and techniques of technical theatre will deepen students' appreciation of theatre as a collaborative endeavor. Production team members practice leadership and problem-solving skills by role-playing common scenarios encountered during shows. Additionally, students develop textual analysis, research, and notation skills through completing beginning documentation and collection practices.

Accounting (ACTG)

ACTG-31 Computerized Accounting

2.0 units: 18.0 hours lec,
Prerequisite: *Required* Take ACTG-04A or ACTG-51. Minimum grade C,P;
Advised Previously taken AOM-30 and ENGL-C1000 (formerly ENGL-01A) is advised

Advisory: AOM-30 and ENGL-85A or ENGL-85AC. This course provides instruction in computer-assisted accounting. Topics include general ledger setup, accounts receivable setup, accounts payable setup, transactions and reports, financial statement analysis, depreciation, and payroll.

Online

92502 Magana, J Online

Administrative Office Mgmt (AOM)

AOM-30 Introduction to Computer Applications

3.0 units: 36.0 hours lec, 54.0 hours lab.

This course is intended for students seeking an introduction to application software used in the workplace with emphasis on business situations. Computer applications including word processing, spreadsheets, databases, and presentation managers will be covered.

Online

92001 Garcia Martinez, J Online
92002 Pirtle, T Online
92811 Garcia Martinez, J Online

AOM-43 Essentials of Business Communication

3.0 units: 45.0 hours lec, 27.0 hours lab.

This course covers the business writing patterns of routine, persuasive, and negative messages. Students learn the basic training in listening, speaking, and non-verbal communication in order to develop the skills needed in everyday business communication. Given a scenario, students create e-mail, memos, letters, proposals, reports, and an ePortfolio. Students also learn about doing business with other cultures and giving oral business presentations.

Online

92839 Pirtle, T Online
92841 Pirtle, T Online

AOM-50B Document Formatting

3.0 units: 36.0 hours lec, 54.0 hours lab.

Students will develop keyboarding techniques and gain fundamental knowledge of word processing software in order to properly format memos, memos, letters, envelopes, tables, and reports.

Online

92511 Garcia Martinez, J Online
92837 Garcia Martinez, J Online
92838 Garcia Martinez, J Online

AOM-50C Learn to Type

1.0 units: 9.0 hours lec, 27.0 hours lab.

This course provides an introduction to the keyboard for non-typists.

Online

92831 Garcia Martinez, J Online
92832 Garcia Martinez, J Online

AOM-52C Keyboarding Speed & Accuracy

1.0 units: 9.0 hours lec, 27.0 hours lab.

This course is designed to increase keyboarding speed and accuracy through individualized evaluation. The course helps bridge the speed

gap between each level of keyboarding instruction. It is designed for the student who wishes to gain keyboarding speed and accuracy.

Online

92833 Garcia Martinez, J Online
92834 Garcia Martinez, J Online

AOM-56 Office Procedures

3.0 units: 45.0 hours lec, 27.0 hours lab.

Students will learn the skills, strategies, and techniques needed to perform the common office procedures within any form of business.

Online

92843 Pirtle, T Online
92844 Pirtle, T Online

AOM-58A Website Development

2.0 units: 18.0 hours lec, 54.0 hours lab.

This is an introductory course in the planning, design, and creation of a website.

Online

92850 Garcia Martinez, J Online

Ag Environmental Horticulture (AGEH)

AGEH-24 Work Experience in Landscape Horticulture

1.0 units:

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job in ag environmental horticulture. Fifty-four (54) hours, either paid or volunteer, are required per unit of credit attempted. Students must have an established work site in ag environmental horticulture before enrolling in the course.

Merced Off-Campus

33012 - Codd, A
33013 - Codd, A

Agriculture Animal Science (AGAS)

AGAS-01 Elements of Animal Science

3.0 units: 54.0 hours lec.

This course is a survey of the livestock industry, supply of animal products, and their uses in animal production. There is a special emphasis on the origin, characteristics, adaptation, and contributions of farm animals to the agriculture industry. The student will analyze the economic trends and career opportunities in animal agriculture. Field trips will be required.

Online

32006 Rios, M Online

AGAS-24 Work Experience in Animal Science

1.0 units:

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job specific to the field of animal science. Students must work or volunteer 54 hours per unit of credit attempted. Students must have an established work site in the animal science or related field prior to enrolling in the course.

Art (ART)**ART-15 Design: 2-D Foundations**

3.0 units: 36.0 hours lec, 54.0 hours lab.

This studio survey class is a required foundation course for the study of the Visual Arts. Lectures and studio projects explore and analyze concepts related to the elements and principles of current and historical design theories. Philosophical, social and cultural implications are examined. Subject matter is directly linked to topics in 2-D, fine art, graphic design, commercial art, and photography, with broader applications to professional fields of 3-D, applied arts, environmental design, architecture, interior design and fashion. Required for Art Majors.

Online

-------	---------	--------

ART-24A Fundamentals of Drawing

3.0 units: 36.0 hours lec, 54.0 hours lab.

This studio survey course introduces the principles, elements, and practices of drawing, employing a wide range of subject matter and drawing media. Students will focus on perceptually based drawing, observational skills, technical abilities, conceptual thinking and critical analysis. Historical and contemporary developments, critical trends, materials, and approaches in drawing will be examined for their philosophical and cultural implications. Required for Art majors.

Online

52009	Disch, S	Online
52010	Disch, S	Online

ART-24B Intermediate Drawing

3.0 units: 36.0 hours lec, 54.0 hours lab.

This course is an exploration of artistic concepts, styles, and creative expression related to intermediate-level drawing, focusing on complex subject matter and concepts using a variety of drawing mediums, techniques, and methodologies. Students in this course will build on fundamental drawing skills to develop personalized approaches to content and materials in exercises covering multiple historical and contemporary approaches to drawing.

Child Development (CLDV)

CLDV-04L Observation and Assessment Practicum

3.0 units: 36.0 hours lec, 54.0 hours lab.

Limitation on Enrollment: As per California Law SB792, all volunteers, students, and employees of educational/service facilities must provide documentation verifying required immunizations and negative TB test. These requirements must be met prior to the start of class. Introduces the appropriate use of assessment and observation tools and strategies to document young children's development and learning. The use of findings to inform and plan learning environments and experiences are emphasized. Recording strategies, rating systems, portfolios, and multiple assessment tools will be discussed, along with strategies for collaboration with families and professionals. (Approved for C-ID ECE 200)

Online

62266	Oneto, B	Online
-------	----------	--------

CLDV-07L Practicum

3.0 units: 18.0 hours lec, 108.0 hours lab.

Limitation on Enrollment: As per California Law SB792, all volunteers, students, and employees of educational/service facilities must provide documentation verifying required immunizations and negative TB test. These requirements must be met prior to the start of class. Demonstration of developmentally appropriate early childhood program planning and teaching competencies under the supervision of ECE/CD faculty and other qualified early education professionals. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Reflective practice will be emphasized as student teachers design, implement, and evaluate approaches, strategies, and techniques that promote development and learning. Includes exploration of career pathways, professional development, and teacher responsibilities.

Education (EDUC)**EDUC-01 Introduction to Education I**

3.0 units: 36.0 hours lec, 54.0 hours lab.

Limitation on Enrollment: Students must obtain a fingerprint clearance and negative TB clearance. Students are introduced to the profession of teaching through an understanding of California's content standards and frameworks, the historical foundations of the American educational system, and teacher performance standards. Practical experiences in the classroom will include a minimum of 45 hours of observation in the classroom of a campus-approved certificated classroom teacher. Students must provide their own transportation to off-campus school sites. Note: Fingerprint clearance and TB clearance are required. Students must dress appropriately as recommended by off-campus school sites. Observation placements will not be available for students with felony convictions.

Online

62686	Pimentel, M	Online
-------	-------------	--------

EDUC-02 Introduction to Education II

3.0 units: 36.0 hours lec, 54.0 hours lab.

Limitation on Enrollment: Students must obtain a Live Scan clearance and a negative TB clearance. In this course, students are provided additional opportunities to explore the teaching profession and how their personalities will fit with their career choice. Students will observe students and teachers in 4-8 Math and Science classroom environments and share observations with faculty and peers in weekly meetings to note differences in students, teaching/learning styles, and their personal reactions to the classroom setting. This course is intended for students who plan to teach in the K-8 levels. Note: Students must provide their own transportation to off-campus school sites. Fingerprint clearance and TB clearance are required. Any costs incurred by the Live Scan and TB clearance are the student's responsibility. Students must dress appropriately as recommended by off-campus school sites. Observation placements are required for class and will not be available for students with

felony convictions.
