Icon Descriptions

Zero Textbook Cost

This section has \$0 textbook costs. As a reminder, you are still auto-enrolled in the Smart Start Program. Compare your total textbook costs for all courses to decide if you should opt out.

Live Stream

Class will be held in person with the faculty on Zoom.

Puente Program

The Puente Program provides a supportive and stimulating environment for students prepare to transfer to a 4-year university and build confidence in their writing and reading skills through an exploration of the Mexican American/Latino experience and is open to all students who wish to transfer to a four-year university.

Umoja

The Umoja learning community is dedicated improving the educational experiences and success of African-American and other students by providing a supportive learning environment that actively engages students through a cultural lens supportive of the experiences of African American and other students.

Spring 2026 Classes

Accounting (ACTG)

ACTG-04A Financial Accounting

4.0 units: 72.0 hours lec.

Prerequisite: *Advised* Previously taken ACTG-52 and placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra are advised.

This course provides the student with the knowledge of corporate financial statement reporting and the ability to analyze the reports of a corporation. Basic topics include analysis of transactions and preparation of financial statements related to developing an understanding of the financial condition of a corporation. This accounting course is recommended for students who have knowledge of or equivalent experience in the basics of bookkeeping.

ACTG-31 Computerized Accounting

2.0 units: 18.0 hours lec, 54.0 hours lab.

Prerequisite: *Required* Take ACTG-04A or ACTG-51. Minimum grade C,P;

Advised Previously taken AOM-30 and ENGL-C1000 (formerly ENGL-01A) is advised

Advisory: AOM-30 and ENGL-85A or ENGL-85AC. This course provides instruction in computer-assisted accounting. Topics include general ledger setup, accounts receivable setup, accounts payable setup, transactions and reports, financial statement analysis, depreciation, and payroll.

Online

92031	Magana, J	Online
-------	-----------	--------

ACTG-51 Applied Accounting

4.0 units: 72.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and MATH-C, Math-61 or MATH-62 is advised.

This course is an entry-level Accounting course emphasizing a preparer approach using manual accounting methods and comparing them to current computerized accounting. Basic course work during the first half of the semester relates to the sole proprietorship type organization. During the second half of the course the emphasis changes to cover the basics of partnership and corporate accounting. Students will become acquainted with both the theory and terminology associated with the accounting cycle. Other topics in accounting will also be covered including Payroll, Cash, Inventory, Bad Debts and Depreciation.

Online

92882	Visola, T	Online
-------	-----------	--------

AOM-50B Document Formatting

3.0 units: 36.0 hours lec, 54.0 hours lab.

Students will learn the (1) development of basic computerized keyboarding techniques and (2) fundamental knowledge of word processing software to properly format memorandums, letters, envelopes, tables, and reports.

Online

92511	Downing, S	Online
92884	Garcia Martinez, J	Online
92885	Carvalho, S	Online

AOM-50C Learn to Type

1.0 units: 9.0 hours lec,

This course provides an introduction to the keyboard for non-typists.

Online

92831	Garcia Martinez, J	Online
92832	Downing, S	Online

AOM-52C Keyboarding Speed & Accuracy

1.0 units: 9.0 hours lec,

Prerequisite: *Advised* Previously taken AOM-50C is advised

This course is designed to increase keyboarding speed and accuracy through individualized evaluation. The course helps bridge the speed gap between each level of keyboarding instruction. It is designed for the student who wishes to gain keyboarding speed and accuracy.

Online

92815	Garcia Martinez, J	Online
92816	Downing, S	Online

AOM-56 Office Procedures

3.0 units: 45.0 hours lec,

Students will learn the skills, strategies, and techniques needed to perform the common office procedures within any form of business.

Online

92843	Visola, T	Online
92844	Visola, T	Online

AOM-58A Website Development

2.0 units: 18.0 hours lec,

This is an introductory course in the planning, design, and creation of a website.

Online

92857	Garcia Martinez, J	Online
92858	Garcia Martinez, J	Online

AOM-59A Medical Coding and Billing

4.0 units: 72.0 hours lec.

This course will enable the student to develop a basic knowledge of the national diagnostic and procedural coding systems and to simplify the process of filing claim forms. The student will be introduced to the major medical insurance programs, reimbursement, privacy rules, HIPAA, basic understanding of legal and regulatory considerations. The student will be able to identify and define medical terminology and abbreviations used in the outpatient setting.

Online

92052	Carvalho, S	Online
-------	-------------	--------

Ag Environmental Horticulture (AGEH)**AGEH-04 Nursery and Garden Center Practice**

3.0 units: 36.0 hours lec,

This course is a study of commercial retail nursery and garden center operations dealing with wholesale and retail nursery practices, including plant care, merchandising, and management practices.

Merced Campus

31412	T	11:00a-12:50p	Codd, A	AGIT-133
	Th	11:00a-01:45p	Codd, A	AGIT-133

AGEH-06 Landscape Design

3.0 units: 36.0 hours lec,

This course includes the principles of landscape design and studies in form, space, color, texture, scale, balance utility and contrast. Materials used in landscape developments, site analysis, problems of design, correct use and selection of plant material relating to ecology and function of landscape structures in the plan will be encompassed in this course. Basic irrigation design is also a component of the course.

----	---------------	------------	----------

AGEH-07 Landscape Construction and Installation

3.0 units: 36.0 hours lec, 54.0 hours lab.

Covers the fundamentals of landscape construction, including soil preparation, paving and construction materials, hand and power tool use, turf and plant installation, plan reading, estimating and bid preparation; also covers local codes and state requirements and prepares students to pass the C-27 Landscaping Contractor's License exam.

Merced Campus

31077	-	Tassey, B	AGIT-131
	W	11:00a-02:05p	Tassey, B

AGEH-24 Work Experience in Landscape Horticulture

1.0 units: .

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job in ag environmental horticulture. Fifty-four (54) hours, either paid or volunteer, are required per unit of credit attempted. Students must have an established work site in ag environmental horticulture before enrolling in the course.

Merced Off-Campus

33012	-	Codd, A
33013	-	Codd, A

Agriculture (AGRI)**AGRI-10 Agriculture, Environment, & Society**

3.0 units: 54.0 hours lec.

This course involves an International view of the sociology of agriculture presented through an examination of relationships between societies and their environments, economics, and agriculture. Emphasis will be placed on the analysis of agriculture's use of technology and the corresponding impact on the environment, economy, and society on a global scale.

Merced Campus

31015	MW	11:00a-12:25p	Casso, C	AGIT-130
-------	----	---------------	----------	----------

Agriculture Animal Science (AGAS)**AGAS-01 Elements of Animal Science**

3.0 units: 54.0 hours lec.

This course is a survey of the livestock industry, supply of animal products, and their uses in animal production. There is a special emphasis on the origin, characteristics, adaptation, and contributions of farm animals to the agriculture industry. The student will analyze the economic trends and career opportunities in animal agriculture. Field trips will be required.

Merced Campus

31138	MW	11:00a-12:25p	Maddux, M	AGIT-136
31038			Casso, C	Online

AGAS-02 Livestock Breeding & Selection

3.0 units: 54.0 hours lec.

This course combines the study of basic genetic principles with the study of the anatomical and physiological aspects of reproduction as they relate to animal species significant to agriculture. The genetic principles to be emphasized include basic inheritance, selection techniques, mating systems, heterosis, and performance evaluation. The reproductive aspects to include endocrinology, estrous cycles, mating behaviors, gametogenesis, conception, gestation, parturition, and maternal behaviors. Artificial insemination, embryo manipulation, and current innovations in reproductive biotechnology will also be examined.

Merced Campus

31656	MW	09:20a-10:45a	Maddux, M	AGIT-136
-------	----	---------------	-----------	----------

AGAS-04 Elements of Animal Nutrition

3.0 units: 36.0 hours lec, 54.0 hours lab.

This course covers the elements of animal nutrition. The fundamentals of digestion and absorption in both ruminants and non-ruminants are discussed. The nutritive value of feeds as they relate to the formulation of

livestock rations will be emphasized including by-product feeding.

Merced Campus

32797	-	Maddux, M	
M	02:25p-06:00p	Maddux, M	AGIT-136
32799	-	Rios, M	
W	02:25p-05:30p	Rios, M	AGIT-136

AGAS-15 Elements of Dairy

3.0 units: 36.0 hours lec.

This is a study of history, development and projections of the dairy industry. General information on the economics of dairying, facts, trends, selection, culling, fitting, showing, judging, pedigrees, feeding and basic management skills will be learned and also information on employment opportunities and requirements.

Merced Campus

32758	-	Maddux, M	
T	02:25p-05:30p	Maddux, M	AGIT-136

AGAS-16 Fitting, Showing and Merchandising Livestock

1.5 units: 18.0 hours lec.

This course is designed for students to develop skills in preparing and marketing beef cattle, sheep, swine, dairy cattle, and goats for competition at intercollegiate livestock competitions. Lessons in exhibiting the animals are given. The course may be repeated three times.

Merced Campus

31514	Th	03:00p-04:00p	Maddux, M	AGIT-136
	Th	04:00p-05:25p	Maddux, M	AG-PAV

AGAS-24 Work Experience in Animal Science

1.0 units: .

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job specific to the field of animal science. Students must work or volunteer 54 hours per unit of credit attempted. Students must have an established work site in the animal science or related field prior to enrolling in the course.

Merced Off-Campus

33021	-	Maddux, M	
33022	-	Maddux, M	
33023	-	Maddux, M	
33024	-	Maddux, M	

Agriculture Business (AGAB)**AGAB-01 Introduction to Agriculture Business**

3.0 units: 54.0 hours lec.

This course is a survey of the broad scope of agriculture business. It serves as an introduction to economic, accounting, management, sales, leadership, and marketing aspects of agriculture and their impact on producers and consumers. The management principles encountered in the day-to-day operation of an agricultural enterprise are stressed as they relate to the decision-making process.

Online

32533	Donaher, K	Online
-------	------------	--------

AGAB-02 Agricultural Accounting

3.0 units: 54.0 hours lec.

This course will focus on the principles of agricultural accounting systems, types of records, their use, and how to compute and use measures of earnings and costs of production to improve agribusiness efficiency.

Merced Campus

31002	TTh	09:20a-10:45a	Donaher, K	AGIT-131
-------	-----	---------------	------------	----------

AGAB-03 Agricultural Marketing

3.0 units: 54.0 hours lec.

: This course includes a survey of the marketing aspects of the agriculture

industry and an overview of the structure and institutional aspects of the marketing system. Emphasis will be on the marketing functions and how consumer trends affect agribusiness.

Online

32535	Baskins, S	Online
-------	------------	--------

AGAB-05 Agricultural Economics

3.0 units: 54.0 hours lec.

This course includes the analysis of the microeconomic principles of supply and demand and the affects on producers and consumers. This class will explore the contemporary and historical place of agriculture and farmers in our economic, social, and political systems and their relationship to the consuming public.

Online

32333	Donaher, K	Online
-------	------------	--------

Merced Campus

31990	MW	09:20a-10:45a	Donaher, K	AGIT-131
-------	----	---------------	------------	----------

AGAB-07 Agricultural Sales & Communication

3.0 units: 54.0 hours lec.

This course involves the study of principles and practices of the selling process: selling strategies and approaches, why and how people buy, prospecting, territory management, and customer service. Additional topics for exploration include self-management, communication, interpersonal skills necessary to developing managerial abilities, leadership qualities, and facilitation of teamwork within the agribusiness sector.

Online

32334	Casso, C	Online
-------	----------	--------

AGAB-08 Agricultural Computer Applications

3.0 units: 36.0 hours lec.

: This course explores computer use in the workplace with emphasis on agribusiness situations. Computer applications including word-processing, spreadsheets, databases, and presentation managers will be covered. Also included will be accessing information through the Internet and World Wide Web, telecommunications, an introduction to web page design and other software appropriate to agribusiness.

Online

32955	Casso, C	Online
-------	----------	--------

AGAB-30C AG Leadership - Team Leadership

2.0 units: 36.0 hours lec.

Principles and practices in planning, developing, conducting, and evaluating leadership programs for agricultural groups. The course focuses on helping students better understand themselves and others; improving group communication; becoming effective leaders and members of groups; improving leadership and personal development skills; assessing leadership situations, determining and administering appropriate leadership strategies, and evaluating results.

Merced Campus

31026	M	02:45p-04:55p	Casso, C	AGIT-129
-------	---	---------------	----------	----------

Agriculture Mech Ag (AGMA)**AGMA-01 Equipment Safety**

1.0 units: 9.0 hours lec.

This course is a study of safety on and about farm equipment and machines. The safe operation and daily maintenance of machines commonly used in the daily operation of farming operations will be covered along with hitching, driving, and operational safety skills. The safety rules and laws that apply to agriculture equipment will be stressed.

Merced Campus

32957	-	Donovan, T	
F	08:00a-01:00p	Donovan, T	MA-2

AGMA-05 Agricultural and Industrial Technical Skills

3.0 units: 36.0 hours lec.

This course provides an introduction to basic technical skills required

throughout the agricultural and industrial areas. The course includes identification and use of tools and materials, tool sharpening and care, hot and cold metal work, plumbing and pipefitting, electric wiring fundamentals, basic carpentry and woodwork, concrete materials and mixes, surveying and land measurement, and sketching and estimating.

Merced Campus

36057	M	05:00p-06:05p	Ornelas, R	MA-1
	M	06:15p-09:45p	Ornelas, R	MA-2

AGMA-07 Compact Power Equipment

3.0 units: 36.0 hours lec, 54.0 hours lab.

Prerequisite: *Advised* Previously taken AGMA-06 is advised.

This is a study in the basic principles of modern small equipment and engines. Explores the design, operation and proper maintenance of equipment and current compact engines approved by the California Air Resources Board. Topics include: application of compact engine systems to various machines, power transmission systems, attachments, related engine systems, equipment operation, problem-solving, and component failures.

Merced Campus

36014	W	05:10p-06:05p	Ornelas, R	AG-11
	W	06:15p-09:25p	Ornelas, R	MA-2

AGMA-16 Power Trains

4.0 units: 36.0 hours lec,

Prerequisite: *Required* Previously taken AGMA-12 is required.

This course is a study of the function and repair of a power train from the clutch through the final drive. Topics will include the theory of operation, maintenance, diagnosis, and repair of clutches and torque converters, mechanical and hydraulic transmissions, differentials, and final drives. Safety will be stressed throughout.

Merced Campus

32902			Ornelas, R	Online
	MTWTh	07:15a-08:25a	Ornelas, R	MA-2
32903			Ornelas, R	Online

	MTWTh	02:15p-04:40p	Donovan, T	MA-2

AGMA-18 Applied Diesel Technical Skills

2.0 units: 18.0 hours lec,

Prerequisite: *Required* Previously taken AGMA-12 and AGMA-11 is required.

This course includes applied skills in the service and repair of diesel engines and their sub-systems. Emphasis is placed upon in-frame service/rebuild applications, electronic service information, and component installation and timing. Testing and diagnostic procedures for after service/repair is an important part of the course. Industry safety is emphasized throughout the course.

Merced Campus

32906	MTWTh	12:35p-01:25p	Donovan, T	MA-1
	MTWTh	01:35p-04:05p	Donovan, T	MA-2

ARTD-41B Intermediate Graphic Design: 2D Foundati

3.0 units: 36.0 hours lec,

Prerequisite: *Required* Take ARTD-41A. Minimum grade C,P;

This studio survey course continues to explore concepts and manipulation processes in graphic design and the visual communication arts. Students will learn intermediate design principles, conceptual thinking, and typographic layout while also exploring philosophical and cultural implications. Students utilize software and traditional drawing-board design practices that visually enlighten and effectively communicate to a mass audience.

ARTD-42A Introduction to Motion Graphics

3.0 units: 36.0 hours lec,

Prerequisite: *Advised* Previously taken AOM-50A is advised.

This course involves innovative thinking in introductory three-dimensional graphics on a timeline. Students will create characters, design movement paths, learn pose manipulation and cycles, frame movement based on sound, animate text and produce dynamic compositions and scene storytelling with drawing and software such as After Effects, ZBrush and Maya.

Merced Campus

51032	MW	11:00a-11:55a	Perlin, A	ART-8
	MW	12:05p-01:30p	Perlin, A	ART-8

ARTD-42B Intermediate Motion Graphics

3.0 units: 36.0 hours lec,

Prerequisite: *Required* Take ARTD-42A; Minimum grade C,P;
Advised Previously taken AOM-50A is advised.

This studio course involves more in-depth innovative concepts in intermediate-level visual effects on a timeline. Students will create characters with pose manipulation, design fluid movement paths within environments, control simulations with scripting, frame movement based on sound, and produce more complex compositions and scene storytelling with particles and deformers while utilizing software such as After Effects, ZBrush, Nuke, ToonBoom and Maya.

Merced Campus

	MW	12:05p-01:30p	Perlin, A	ART-8

Astronomy (ASTR)**ASTR-01 Principles of Astronomy**

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This is a basic course studying the principles of astronomy beginning with the solar system and continuing through the Milky Way Galaxy and the galaxies beyond. Throughout the course topics relating to the philosophy of science, history of astronomy, tools of the astronomer, and supporting topics of physics are introduced. The course is designed for students satisfying breadth requirements in science and having a general interest in astronomy.

Automotive Technology (AUTO)**AUTO-04 Wheel Alignment and Suspension**

3.0 units: 54.0 hours lec,

This class is designed for students without prior experience in automotive mechanics. It is a study of fundamental theory and operation of the components that make up the major automotive systems with the purpose of giving the student general knowledge of the automobile. Major emphasis is given to operational principles of the automobile and related terminology.

Merced Campus

32004		Barnard, R	Online

AUTO-32 Wheel Alignment and Suspension

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Concurrent enrollment in AUTO-54.

This course is designed to provide the technical knowledge and experience required for aligning and servicing suspension systems on modern automobiles. Laboratory exercises will provide the student an opportunity to develop entry-level skills in the use of machines and equipment commonly used in wheel alignment, tire service, and front-end repairs.

Merced Campus

AUTO-33 Automotive Brake Systems

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Concurrent enrollment in AUTO-54.

This course is designed for students without prior experience in automotive brake repair. The course will cover theory, service and repair of conventional, Antilock Brake Systems (ABS) and related brake systems. Laboratory exercises will provide the student the opportunity to develop skills and knowledge in the use of tools and equipment necessary in the repair and service of automotive brake systems.

AUTO-36 Automotive Manual Transmissions & Drive Trains

4.0 units: 54.0 hours lec, 54.0 hours lab.

Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) is required.

This course is designed for the student without any prior experience in standard transmissions or drive axles. The class will provide technical information required for understanding and repairing of manual transmissions and drive trains. Laboratory exercise will provide the student with proper repair procedures and use of related tools and equipment. Standard transmissions, transaxles, differentials, drivelines, and related components will be covered.

Merced Campus

AUTO-54 Automotive Basic Skills

4.0 units: 54.0 hours lec,

This course is an introduction to the Automotive Program and is designed for the entry level automotive student to develop the fundamental knowledge and skills required to enter subsequent automotive courses. This course will cover vehicle identification, use of repair databases, use of critical tools/equipment, and electrical fundamentals necessary for the use of electrical test equipment.

Merced Campus

39425	MTWTh	08:00a-09:45a	Weepers, M	IT-4B

	MTWTh	09:55a-11:35p	Weepers, M	IT-5

AUTO-55 Automotive Emissions Level 1 and 2 Training

5.0 units: 81.0 hours lec,

Prerequisite: *Required* Previously taken AUTO-54 and AUTO-58 or

former class AUTO-63 and passed with a minimum grade of C. This course is designed to provide students with knowledge and skills necessary to perform Smog Check Inspections. Level 1 training is intended to provide students with fundamental knowledge of engine and emission control theory, design and operation. Level 2 training is intended to provide students the knowledge, skills, and abilities needed to perform Smog Check inspections. Students who successfully complete this training will have met the California Bureau of Automotive Repair requirements for Level 1 and 2 training to qualify to take the Smog Check Inspector state licensing examination.

Merced Campus

39305	MTWTh	01:00p-03:35p	Gregory, A	IT-4A

AUTO-57 Automotive Electrical Systems

4.5 units: 67.5 hours lec,

Prerequisite: *Required* Concurrent enrollment in AUTO-54.

This course covers automotive electrical systems and includes a review of electron theory, magnetism, and semiconductors. The student will acquire technical and working knowledge of starting, charging and ignition systems and components. The student will acquire working and technical knowledge of electrical accessories and accessory circuits. The use of special service tools and electronic diagnostic equipment will be included.

Merced Campus

39135	MTWTh	01:00p-03:00p	Gregory, A	IT-4A

AUTO-58 Automotive Computerized Controls

4.5 units: 67.5 hours lec,

Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) and AUTO-57 (formerly AUTO-42) and passed with a minimum grade of C.

This course provides an in-depth exploration of automotive computers and electronic systems, essential for modern vehicle diagnostics and repair. Students will gain a comprehensive understanding of the integration of computer technology in automotive systems including various sensors and actuators. Key topics include the fundamentals of automotive electronics, the architecture of automotive computer systems, communication protocols such as CAN bus, OBD-II diagnostics, and the role of software in vehicle performance and safety.

Merced Campus

AUTO-59 Introduction to Electrified Vehicles

4.5 units: 67.5 hours lec,

Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) and AUTO-58 (formerly AUTO-43) is required --- OR --- ASE A6 Industry Certificate.

Students must have basic understanding of automotive electrical systems and use of electrical test equipment. The course is designed for students without prior knowledge of Hybrid and Electric Vehicles. This course will cover the different types of electrified vehicles, safety, operation, and basic repair procedures related to electric motors, inverters, and high voltage batteries.

AUTO-61 Automotive Engines

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) and passed with a minimum grade of C.

This is a class in the principles and theory of engine repair and rebuilding including the disassembly and assembly of engines. There will be emphasis on inspection, measuring, and comparing worn and rebuilt parts. Testing equipment will be used during in-car engine condition diagnosis. Also included will be minor machining operations that are used in engine rebuilding and repairing.

Merced Campus

39405	MTWTh	08:00a-09:50a	Weepers, M	IT-4B
	MTWTh	09:50a-11:40a	Weepers, M	IT-5

AUTO-76 Advanced Automotive Service and Documentation

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Previously taken AUTO-36, AUTO-58 (formerly AUTO-43), AUTO-61 (formerly AUTO-41), and AUTO-64 (formerly AUTO-46) is required.

This college-level course offers advanced training for aspiring automotive technicians, focusing on real-world applications in live vehicle work environments. Students will delve into the intricacies of automotive repair, with an emphasis on the flat rate payment system commonly utilized in the industry. Additionally, students will learn essential skills in documenting their work, ensuring accuracy, professionalism, and compliance with industry standards. Through a combination of hands-on experience and theoretical instruction, participants will develop the expertise needed to excel as proficient automotive technicians in today's dynamic automotive service industry.

BIOL-04A Fundamentals of Biology: The Cell and Evolution

4.0 units: 54.0 hours lec, 54.0 hours lab.

Prerequisite: *Required* Previously taken CHEM-04A is required.

Advised Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra is advised.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is

advised.

This course is a study of the principles of biology. Areas of study will include aspects of the philosophy of science, the chemistry of life, the cell and cellular organization, biological membranes, energy transfer including photosynthesis and cellular metabolism, mitosis/meiosis, and molecular biology. Genetics will include Mendelian genetics, human genetics and Biotechnology. This course is intended for science majors for pre-medical, pre-veterinarian, pre-dental, pre-optometry, and pre-pharmacy majors.

BIOL-04B Diversity of Life: Morphology and Physiology

5.0 units: 54.0 hours lec,

Prerequisite: *Required* Take BIOL-04A; Minimum grade C,P;

This course is the second semester of a two-semester sequence of general biology for biology majors. This course will cover the origins of life, evolutionary history, biological diversity, plant form and function, animal form and function, and ecology. This course is intended for science majors and for pre-medical, pre-veterinarian, pre-dental, pre-optometry, and pre-pharmacy majors.

BIOL-06 Environmental Science

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This introductory course examines Earth as an ecosystem composed of biological, chemical and physical processes with emphasis on man's impact on the planet. Topics include the structure and function of ecosystems, biodiversity, the impact of industrialization and urbanization, energy, populations, resources, pollution, pesticides and risk/benefit assessment.

BIOL-09 Introduction to Genetics

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is an introductory study of genetic principles, inheritance, variation, and evolution in plants and animals. This course includes the study of Mendelian genetics, molecular genetics, and population genetics. Recent research innovations explored include genetic engineering.

BIOL-16 General Human Anatomy

4.0 units: 36.0 hours lec,

Prerequisite: *Required* Complete one course from BIOL-01 or BIOL-02 or BIOL-04A and passed with a minimum grade of C or received an equivalent.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is an intensive study of the structure of the human body. Consideration is given to the skeletal, muscular, circulatory, respiratory, digestive, excretory, reproductive, and nervous systems. Special emphasis is placed on the needs of students majoring in biology, nursing, physical education, and medical sciences.

BIOL-20 Microbiology

4.0 units: 36.0 hours lec,

Prerequisite: *Required* Complete all groups: Group 1: Complete one course from BIOL-01 or BIOL-02 or BIOL-04A; and Group 2: Complete CHEM-02A;

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This is an introductory course familiarizing students with basic laboratory techniques and fundamental topics of microbiology. Laboratory work includes aseptic techniques, staining procedures, biochemical

characterization, serology, and DNA technology used in the identification of microorganisms. Lecture topics consist of a historical overview, genetics, metabolism, cell physiology, growth requirements, immunology, and host-parasite interactions between humans and bacteria, viruses, protozoa, and helminthes. The course is designed for students in any of the allied health professions.

BUSN-756 Introduction to Office Occupations

0.0 units:

This entry-level course is designed for the adult student who desires vocational training in the field of Office Occupations. This course will introduce students to computers and the Windows software environment. Students will learn to identify the components of desktop screens and learn to execute basic computer commands. The class will also cover keyboarding, email, basic business skills and downloading files. The course is project-based to develop student entry-level skill proficiency in using Microsoft Office Word, Power Point, Excel and Access. Various simulations reflective of real life experiences will be a major part of the instructional units. The course is 384 to 480 hours in duration and is open entry format.

CHEM-02B Introductory Chemistry: Introduction to Organic and Biochemistry

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Previously taken CHEM-02A is required.

Advised Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra is advised.

This is a continuation of CHEM-02A with emphasis on organic and biochemistry. The structure, nomenclature, and properties of organic compounds such as alkanes, alkenes, arenes, alcohols, thiols, amines, aldehydes, ketones, carboxylic acids and their derivatives are covered. Structure, properties and reactions of biochemical compounds such as carbohydrates, proteins, and lipids are covered and followed through major and minor metabolic pathways. This course is intended for students in liberal studies, agriculture, and health-related fields. This course is not designed for chemistry or science majors.

CHEM-04A General Chemistry I

5.0 units: 54.0 hours lec, 108.0 hours lab.

Prerequisite: *Required* Take CHEM-02 is required.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Advised Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra is advised.

This course is designed to teach general principles of chemistry emphasizing nomenclature, chemical equations, stoichiometry, concentration, gas laws, atomic structure, bonding, intermolecular forces, and crystalline solids. It is designed for the student majoring in chemistry, physics, biology, engineering, pre-med, or related fields. A student who has not successfully completed the prerequisite of CHEM-02A but has completed

a high school chemistry course with a grade of "B" or higher may consider submitting a prerequisite challenge.

CHEM-13A First Semester Organic Chemistry Lecture

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Previously taken CHEM-0B and passed with a minimum grade of C or received an equivalent.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is a study of the theory and practice of organic chemistry examining the bonding, structure, stereochemistry, nomenclature, properties, and reactions of hydrocarbons and organic halides. Addition, substitution, elimination, and rearrangement reactions are examined. Corresponding mechanisms and energy diagrams are included in the study. Nuclear magnetic resonance, infrared, ultra-violet and mass spectroscopy are introduced as structural elucidation techniques.

CHEM-13AL First Semester Organic Chemistry Lab

2.0 units:

Prerequisite: *Required* Previously taken CHEM-04B and passed with a minimum grade of C or received an equivalent.

Required Previously taken CHEM-13A and passed with a minimum grade of C ---OR--- Concurrently enrolled in CHEM-13A

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

A laboratory course that includes the study of organic laboratory techniques including the synthesis of organic compounds, separation, characterization, identification, purification, and the use of related instrumentation. This course is directed toward students in science and pre-professional preparation.

Merced Campus

10348	MW	11:10a-02:15p	Calderon, S	SCI-104
-------	----	---------------	-------------	---------

CHEM-13B Second Semester Organic Chemistry Lecture

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Previously taken CHEM-13A and CHEM-13AL and passed with a grade of C or received an equivalent.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is a continuation of CHEM-13A, expanding the study of

organic chemistry to include aromatic hydrocarbons, alcohols, ethers, thiols, sulfides, aldehydes, ketones, carboxylic acids and derivatives, amines and an introduction to the biochemistry of carbohydrates, proteins, and lipids. Included is a further examination of the use of IR, NMR, GC and Mass Spectroscopy in the identification of organic substances.

Child Development (CLDV)**CLDV-01 Child Growth and Development**

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Examines the progression of development in the physical, cognitive, social, and emotional domains and identifies developmental milestones for children from conception through adolescence. Emphasis on interactions between biological processes and environmental factors. Students will observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. (Approved C-ID CDEV 100)

CLDV-07L Practicum

3.0 units: 18.0 hours lec,

Prerequisite: *Required* Take CLDV-01, CLDV-02, CLDV-03, CLDV-04L, CLDV-07 Minimum grade C,P.

Limitation on Enrollment: As per California Law SB792, all volunteers, students, and employees of educational/service facilities must provide documentation verifying required immunizations and negative TB test. These requirements must be met prior to the start of class. Demonstration of developmentally appropriate early childhood program planning and teaching competencies under the supervision of ECE/CD faculty and other qualified early education professionals. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Reflective practice will be emphasized as student teachers design, implement, and evaluate approaches, strategies, and techniques that promote development and learning. Includes exploration of career pathways, professional development, and teacher responsibilities.

COMM-14 Small Group Communication

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025. Effective Fall 2025, COMM-14 replaces COMM-04. This course provides students with the foundational knowledge and practice of speechmaking in a democratic society, while simultaneously emphasizing theory and research about communication in a variety of small group contexts. This course exposes students to rhetorical theory, small group theory and public speaking fundamentals within the context of their interpersonal interactions, group communication processes, and live presentations (including informative and persuasive speeches). Students will learn historical roots and key rhetorical theories that ground the study and practice of public speaking, and be able to discover, develop and critically analyze ideas and information in public discourse. Student will also explore and evaluate group communication processes, including problem-solving, conflict management, decision-making and leadership.

CPSC-09 Foundations of Data Science Systems

4.0 units: 54.0 hours lec,

Foundations of Data Science introduces core concepts of inference and computational thinking through hands-on analysis of real-world data, including economic, geographic, and social network datasets. Students will gain practical skills in programming and statistical inference while exploring meaningful societal issues and ethical considerations in data analysis. This course is modeled after similar offerings at UC Berkeley and UC Merced, providing foundational knowledge for further study in data science and related fields.

CPSC-13 C++ Programming

4.0 units:

This course introduces the fundamental concepts of artificial intelligence (AI) and explores its diverse applications in real-world scenarios. Students will learn about the history and evolution of AI, core AI techniques such as machine learning, natural language processing, computer vision,

and robotics. The course emphasizes practical applications, covering case studies from industries such as healthcare, finance, manufacturing, and autonomous systems. Students will gain hands-on experience with AI tools and frameworks, enabling them to understand how AI is transforming industries and addressing global challenges.

CTIS-03 Information and Communication Technology Essentials

4.0 units: 36.0 hours lec,

This course provides an introduction to the computer hardware and software skills needed to help meet the growing demand for entry-level ICT professionals. The fundamentals of computer hardware and software as well as advanced concepts such as security, networking, and the responsibilities of an ICT professional will be introduced. Preparation for the CompTIA A+ certification exams.

CTIS-11 Linux System Administration

3.0 units: 36.0 hours lec, 54.0 hours lab.

Prerequisite: *Advised* Previously taken CPSC-01 is advised.

This course will provide a student with the knowledge and skills required to build, maintain, troubleshoot and support server hardware and software technologies. The course also provides hands-on training of the Linux/Unix operating system. Topics include: installation, management, configuration, security, documentation, utilities, DOS, hacking and file protection on workstations in a LAN environment. This prepares CompTia Linux+ and Server+

CTIS-15 Computer Network Fundamentals

3.0 units: 36.0 hours lec,

This course introduces the architecture, structure, functions, components, and models of the Internet and other computer networks. Students achieve a basic understanding of how networks operate and how to build simple local area networks (LAN), perform basic configurations for routers and switches, implement Internet Protocol (IP) and enterprise technologies, including cloud and virtualization. Students will apply the knowledge and skills required to troubleshoot, configure, and manage common network devices; establish basic network connectivity; and implement

network security, standards, and protocols. Preparation for the CompTIA Network+ certification exam.

CTIS-16 Routing and Switching

3.0 units: 27.0 hours lec,

Prerequisite: *Advised* Previously taken CTIS-15 is advised.

This course focuses on switching technologies and router operations that support small-to-medium business networks and includes Wireless Local Area Networks (WLANs) and security concepts. Students learn key switching and routing concepts. Students will perform basic network configuration and troubleshooting, identify and mitigate Local Area Network (LAN) security threats, and configure and secure a basic WLAN.

CTIS-17 Systems and Network Administration

3.0 units: 27.0 hours lec,

Prerequisite: *Advised* Previously taken CTIS-15 and CTIS-16 is advised.

Demonstrate proficiency in network architecture, protocols, and services. Configure and secure network devices, including routers, switches, and firewalls. Implement virtualization technologies, including VMware, to optimize resource allocation. Administer server environments, encompassing Windows and Linux, within virtualized settings. Manage directory services, such as Active Directory and LDAP, for user and resource management. Utilize platform services, including cloud computing and containerization, to enhance scalability and efficiency. Develop comprehensive backup and disaster recovery plans for virtualized systems and platform services. Effectively troubleshoot common network, system, directory, and virtualization issues. Apply industry best practices in virtualization, virtual networking, directory services, and system administration.

CTIS-18 Network Security and Automation

3.0 units: 27.0 hours lec,

Prerequisite: *Advised* Previously taken CTIS-15 and CTIS-16 is advised.

Cisco Certified Networking Associate (CCNA) curriculum describes the architecture, components, operations, and security to scale for large, complex networks, including wide area network (WAN) technologies. The course emphasizes network security concepts and introduces network virtualization and automation. Students learn how to configure, troubleshoot, and secure enterprise network devices and understand how application programming interfaces (API) and configuration management tools enable network automation.

CTIS-21 Introduction to Cyber Security: Ethical Hacking

3.0 units: 36.0 hours lec,

Prerequisite: *Advised* Previously taken CTIS-15 and CTIS-20 is advised.

This course that introduces students to the concepts, principles, and techniques, supplemented by hands-on exercises, for attacking and disabling a network within the context of properly securing a network. The course emphasizes network attack methods with the emphasis on student use of network attack techniques and tools and appropriate defenses and countermeasures. Students receive course content information through a variety of methods: lecture and demonstration of hacking tools will be used in addition to a virtual environment. Students experience a hands-on practical approach to penetration testing measures and ethical hacking.

CRIM-04 Criminal Law

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Previously taken CRIM-02 and passed with a minimum grade of C ---OR--- Concurrently enrolled in CRIM-02

This course offers an analysis of the doctrines of criminal liability in the

United States and the classification of crimes against persons, property, morals, and public welfare. Special emphasis is placed on the classification of crime, the general elements of crime, the definitions of common and statutory law, and the nature of acceptable evidence. This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice courses will build. The course will also include some limited discussion of prosecution and defense decision making, criminal culpability, and defenses to crime.

42294 Shelton, D Online

CRIM-42D Reserve Officer Module Level 2

10.0 units: 162.0 hours lec.

Prerequisite: *Required* Take CRIM-42C. Minimum grade C,P.

Limitation on Enrollment: 1. Students must be cleared by the California Department of Justice (DOJ) to participate. DOJ clearance is evaluated through the LiveScan fingerprint process. This clearance will reveal a qualifying/disqualifying criminal history background. 2. The absence of medical conditions that would prevent strenuous physical training during arrest and control methods training, use of force, and crimes in progress. A physician's clearance indicating good physical health must be presented to the instructor at the first class meeting. 3. Student must possess a California Driver's License. This course satisfies the Level 2 Modular Format Basic Course training requirements of the Commission on Peace Officer Standards and Training (POST). It covers community relations, victimology, crisis intervention, property crimes, crimes against persons, general criminal statutes, laws of arrest, laws of search and seizure, presentation of evidence, investigative report writing, use of force, patrol techniques, vehicle pullovers, crimes in progress, traffic enforcement, unusual occurrences, preliminary investigation, arrest and control methods-including baton, firearms, chemical agents, persons with disabilities, crimes against the justice system, weapons violations, hazardous materials, cultural diversity and discrimination issues. Students missing more than 5% of class time will not be allowed to complete the class (POST

regulations). Students will participate in one or more learning activities from the POST-developed Instructor's Guide to Learning Activities for Leadership, Ethics and Community Policing (December 2005) or other comparable sources regarding leadership to consist of 3 hours per week.

3.0 units: 36.0 hours lec, 54.0 hours lab.

Prerequisite: *Advised* Previously taken ELCT-51B is advised.

This is a course designed to provide the student with information and knowledge to prepare for the industry-standard Building Industry Consulting Service International (BICSI) Register installer. Level I exam, and employment as a telecommunications cabling installer. Students will gain an understanding of the cabling industry, U.S. and international standards, basic networking, signal transmission, copper cabling, fiber optics, installation, safety, structured cabling system basics, cable management, cable testing, and emerging technologies. Students will also be prepared to read network design documentation, architectural blueprints, set up part parts lists, purchase components, pull and mount cable, choose

wiring closets, install jacks, and perform cable testing. This course is repeatable three times.

ELCT-42A Principles and Applications of Programmable Logic Controllers

2.0 units: 18.0 hours lec,

Prerequisite: *Advised* Previously taken ELCT-34 ELCT-52 and ELCT-41 is advised.

This course provides instruction in industrial type of computers called "Programmable Logic Controllers" (PLCs). The main topics introduce students to the PLC's basic hardware configuration and programming techniques. During the course students will learn how to configure and use programming instruction to create various applications. The students will program and operate on industrial PLCs as a part of laboratory assignments.

ELCT-42B Advanced Topics in PLC Configuration and Programming

2.0 units: 18.0 hours lec,

Prerequisite: *Required* Previously taken ELCT-42A is required.

The course introduces students to a mid-size Programmable Logic Controller (Allen-Bradley SLC-500) hardware configuration, set-up and programming. During the course students will learn how to use advanced ladder addressing programming instructions as Math, Bit Shift, Compare, Jump, MCR and more, to develop various "real-world" industrial type of PLC applications.

ELCT-53A Solar Installer Course 1

3.0 units: 36.0 hours lec,

Prerequisite: *Advised* Previously taken ELCT-52 ELCT-30 and INDT-35 is advised.

This is an introductory course that will examine and implement the design and installation of a working solar photovoltaic power system. Students will learn how to safely use appropriate tools, make electrical load and solar system size calculations, and examine installation techniques for both grid-tie and off grid photovoltaic systems. This course is intended for students who are contemplating a career in the solar photovoltaic industry.

ELCT-55 Electrical Conduit Bending Theory and Techniques

1.0 units: 9.0 hours lec,

Prerequisite: *Advised* Previously taken INDT-35 and INDT-49 is advised.

This course provides a comprehensive overview of conduit bending, fabrication procedures and methods. It will develop basic competencies in electrical apprentices and beginning learners. It will discuss hand bending for 90 degree bends, offsets and kicks, saddles and corner offsets, segmented bends, threaders, benders and other conduit types. These conduit types will include electrical metallic tubing (EMT), galvanized rigid conduit (GRC), rigid aluminum, intermediate metallic conduit (IMC),

various poly-vinyl chloride (PVC), and flexible plastic and metallic conduit. Wiring in accordance with the National Electrical Code (NEC) will be stressed. Students may petition, through the Office of Admissions and Records, to retake the course as the National Electrical Codes change.

ELCT-56 Introduction to Mechatronics

4.0 units: 36.0 hours lec,

Prerequisite: *Required* Take ELCT-42A; Minimum Grade C,P;

Advised Previously taken ELCT-31 and ELCT-42B is advised.

This course introduces students to mechatronics, the rapidly developing field that integrates mechanical, electronic and software engineering in the service of advanced manufacturing. Students will develop an interdisciplinary and integrated approach to design, manufacturing and troubleshooting mechatronics systems. Students will learn how various components such as electronic sensors, electro-pneumatic valves, actuators, motors, and robotic arms work, and how they can be integrated with other mechanical components into complex automated systems. OSHA safety training and certification will be included. Hands-on experience in building and programming a variety of mechatronics projects that simulate real-life industrial automated systems will be provided in laboratory activities.

ELCT-59 Electrical Safety and Industrial Skills

2.0 units: 36.0 hours lec.

Prerequisite: *Advised* Previously taken ELCT-47 and ELCT-52 is advised.

This course is an introduction into basic electrical safety and industrial skills associated with the Electrical and Industrial Technology programs offered at Merced College. The course will give students an opportunity to learn industry standard safe working practices in the electrical and maintenance trades as well as the safe operation of industrial equipment. The student will be trained in the safe use of Merced College electrical trainer and equipment that will be used in more advanced Electrical and Industrial Technology classes.

Emergency Medical Care (EMER)

EMER-10 Paramedic I

12.5 units: 220.5 hours lec,

Prerequisite: *Required* Take EMER-11

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Limitation on Enrollment: EMT course, within the last collegiate calendar year, passed with a grade of B or better, and successfully pass entrance examination. OR, If NREMT certification held for greater than one (1) year- proof of field experience and successful completion of entrance examination. NREMT 1 Certification (current), and maintained throughout coursework. Minimum 18 years of age. Live scan background clearance. Health screen clearance. BLS Healthcare Provider card (current) and maintained throughout the course. Based upon State and Federal Regulations, CA Title 22. This course introduces the student to the roles and responsibilities of the Paramedic within the EMS system, apply basic concepts of development, pathophysiology, pharmacology, patient assessment, medication administration, airway and ventilation concepts, the pulmonary, cardiac, neurological, and endocrine systems to be able to formulate a "field impression" of patient status. Students will fulfill 13.5 total lab hours per week by arrangement.

EMER-11 Paramedic I Lab

1.5 units:

Prerequisite: *Required* Take EMER-10

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Limitation on Enrollment: EMT course, within the last collegiate calendar year, passed with a grade of B or better, and successfully pass entrance examination. If NREMT certification held for greater than one (1) year- proof of field experience and successful completion of entrance examination. NREMT 1 Certification (current), and maintained throughout coursework. Minimum 18 years of age. Live scan background clearance. Health screen clearance. BLS Healthcare Provider card (current) and maintained throughout the course. Based upon State and Federal Regulations, CA Title 22. This course is the corequisite for Paramedic I and occurs in the skills lab or simulation lab. The student will practice and master skills that will allow the student to meet clinical performance objectives. Competency testing is the focus of this course and will include physical assessment, medication administration, IV skills, and airway maintenance including intubation. Students will fulfill 4.5 total lab hours per week by arrangement.

EMER-31 Paramedic Field Experience

9.0 units: 486.0 hours lab.

Prerequisite: *Required* Take EMER-10 and EMER-11 and EMER-20 and EMER-21; Minimum Grade C,P;

Required Take EMER-30

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Limitation on Enrollment: Health Screening Clearance. Current NREMT certification maintained throughout course. Current BLS Health Care Provider card maintained throughout course. Live Scan Clearance. Based upon State and Federal Regulations, CA Title 22. Description: This course is the final course in the paramedic series and occurs completely in the field under the direct supervision of a certified pre-arranged paramedic preceptor. It assists the student in developing and refining skills.

A wide variety of client activities are taught, including: medical histories, physical examination, client management, triage, trauma care and supportive care of the sick or injured in a field setting. This course is part of a program of study to prepare paramedics as described in California Code of Regulations, Title 22, Division 9, Chapter 4 and lists the required hours and subjects to be covered as set forth by the Department of Transportation curriculum.

EMER-50A Emergency Medical Technician 1, Module A

2.5 units: 40.5 hours lec,

Prerequisite: *Advised* Take ALLH-67 is advised.

Limitation on Enrollment: Negative chest xray for TB within 1 year; A CPR course based on American Red Cross Professional Rescuer or American Heart Association Healthcare provider. This is the first of two modules designed to teach basic emergency medical procedures and responsibilities, including stabilization of the sick and injured for transportation to medical facilities, care during transport, communication with base-hospital personnel, and transfer of the injured to the base-hospital emergency room. This course meets the requirements of Title 22, Division of California Administrative Code. Students successfully completing EMER-50A and EMER-50B are eligible to take the EMT 1 certifying exam from the National Registry of Emergency Medical Technicians. Students will fulfill 0.75 total lab hours per week by arrangement.

ENGR-18 Electrical Circuits Analysis

4.0 units: 54.0 hours lec,
Prerequisite: *Required* Take PHYS-04B; Minimum grade C,P;
Required Take MATH-06 or MATH-09.

This course covers basic circuit analysis emphasizing resistive circuits, the natural and forced response of inductive and capacitive circuits, phasor analysis, and semiconductor elements. Lab involves the construction and measurement of circuits using power supplies, breadboards, multimeters, oscilloscopes, and function generators. C-ID ENGR 260 and ENGR260L.

TTh 09:20a-10:45a Gargova, S AGIT-142

ENGR-30 Introduction to Engineering

2.0 units: 18.0 hours lec, 54.0 hours lab.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A). Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra is advised.

The course explores the branches of engineering, the functions of an engineer, and the industries in which engineers work. Explains the engineering education pathways and explores effective strategies for students to reach their full academic potential. Presents an introduction to the methods and tools of engineering problem solving and design including the interface of the engineer with society and engineering ethics. Develops communication skills pertinent to the engineering profession.

English (ENGL)

ENGL-01B Introduction to Literature

3.0 units: 54.0 hours lec.
Prerequisite: *Required* Take ENGL-C1000 (formerly ENGL-01A)
Minimum grade C,P;

This course introduces representative works from four major genres: short story, novel, drama, and poetry. Students develop analytical and evaluative reading and writing skills while acquiring an appreciation for the cultural context and the aesthetic qualities of literature. Students read texts from various countries and periods in order to encourage an appreciation of literature's range, artistry, and insight into the human experience.

ENGL-01C Critical Thinking Across The Curriculum

3.0 units: 54.0 hours lec.
Prerequisite: *Required* Take ENGL-C1000 (formerly ENGL-01A)
Minimum grade C,P;

Develops critical thinking, reading, and writing skills as they apply to textual analysis of primary and secondary sources, essays, articles, and a book-length work from a range of academic and cultural contexts. Theme based. Emphasis on the techniques and principles of effective written argument in research-based writing across the disciplines.

Online

22038 Wilson, M Online

ENGL-02 Oral Interpretation

3.0 units: 54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-01A is advised.
This course is designed to introduce students to performance studies through analysis, appreciation and application of interpretive performance of the various forms of literature: poetry, prose and drama.

Merced Campus

21210 TTh 12:35p-02:00p Bonstein, J B&E-102

ENGL-04B Introduction to World Literature: 1650 to Present

3.0 units: 54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and ENGL-01B is advised.

This course examines the origins and subsequent developments of world literatures and cultures from 1650 to the present through various literary genres and cultural traditions. Primary focus will fall on major works of certain periods and of geographic origins. Students will engage in comparative analysis and evaluation of the literary works as well as close study of the works in addition to the study of each text's merits.

Merced Campus

21037 MW 09:20a-10:45a Smith, V B&E-103

ENGL-07 Studies in Literature: Poetry

3.0 units: 54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and ENGL-01B is advised.

This course traces origins and developments of the poem as a major literary genre. Course includes an intensive study of the poetic process. Poems from ancient times to the present are analyzed in terms of form, idea, and language.

Online

22000 Zamora, J Online

ENGL-11 American Literature from Post-Civil War to Present

3.0 units: 54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and ENGL-01B is advised.

This course is designed to introduce students to the history and variety of American literature from the end of the 1865 to the present. Representative works of major and influential authors are read as examples of various genres, literary movements, and historical eras.

Merced Campus

21038 TTh 12:35p-02:00p Epstein-Corbin, S IAC-145

ENGL-12 Creative Writing

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and ENGL-01B is advised.

A course designed to provide experience in the writing of poetry, drama, fiction, and creative non-fiction and to aid the student in becoming aware of the craft of writing as described and/or demonstrated by professional writers. The class is conducted primarily as a workshop in which students read their works for constructive criticism.

Online22001  Truesdale, D Online**ENGL-95S Enhanced Academic Literacy**

2.0 units: 36.0 hours lec.

Prerequisite: *Required* Concurrent enrollment in ENGL-C1000 (formerly ENGL-01A).

This course is designed to provide supplemental instruction and support for students enrolled in a linked section of English 01A. Students will further develop academic skills in reading, writing, and researching. In addition, they will learn to address strategies for academic success and be able to utilize computerized technology necessary for a composition course.

HIST-23 Chicana/O American History and Culture in the Southwest US

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This interdisciplinary course examines the social, political, and cultural roots of Chicana/os, tracing history from their Indigenous, African, and Spanish beginnings to the present. It analyzes race, ethnicity, and culture, in relation to Chicana/o communities and their social justice movements and struggles. The course provides a basis for a better understanding of the socio-economic, cultural, and political conditions among Chicana/os through historical consideration of the creation and development of Ethnic Studies programs in the United States. Special emphasis is also placed on the contributions of Chicana/o scholars, artists, and activists by using an intersectional decolonial lens to explore the effects of (neo)colonialism, imperialism, white supremacy, Eurocentrism, and racism.

Management (MGMT)**MGMT-32 Human Resource Management**

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course involves the study of the principles and methods involved in effective human resource utilization in organizations. It provides an overview of responsibilities and practices involved in recruiting, selecting, promoting, terminating and retiring employees, performance appraisal, job development and analysis, wage and salary administration, and effective working relationships.

MGMT-50A Challenges of Leadership: Difficult People/ Tough Conversations

0.5 units: 9.0 hours lec.

This course is designed to equip the participant with skills needed to deal with the various challenges of leading people. Special emphasis will

be placed on practical and proven tools to deal with difficult people and have tough conversations. The topic of accountability will be explored in regard to individual performance and organizational success. Participants will learn about progressive discipline and how to resolve performance problems. Pass/No Pass only.

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and BUS-10 is advised.

This course provides a broad understanding of the promoting, pricing, and distribution of products and services. Promotional mixes are studied including sales promotion, advertising, packaging, personal selling, public relations, and publicity. A study is made of understanding customer needs and behaviors; developing a product and/or service mix to satisfy customer needs, and profitability. Legal, political, cultural, social, economic, competitive, and ethical aspects of marketing are discussed.

Music: Applied (MUSA)

MUSA-20 Applied Music

0.5 units:

Prerequisite: *Required* Take one course in each group below:

Group 1: Take MUSE-41, MUSE-42, MUSE-43, or MUSE-44; Group 2: Take MUST-01, MUST-02, MUST-03, or MUST-04; Group 3: Take MUST-05, MUST-06, MUST-07, or MUST-08;

Enrollment by audition and interview with the instructor. Instructor signature is required to enroll in the course. This course provides private individual instruction in voice, piano, wind, or string instruments at a level equivalent to that of a music major in the appropriate term of the their freshman or sophomore year of music studies. It requires one lesson per week with a private instructor approved by the music department faculty. A minimum of 14 weekly lessons must be verified. In addition, this course includes a weekly group workshop detailing various aspects of music performance. A jury examination by the music department faculty is required at the conclusion of the course. This course can be repeated three times and is intended for music majors only. Students enrolled in this course are required to be in at least one ensemble and one theory class concurrently.

Merced Campus

52702 Th 01:30p-02:25p Davidson, B MUS-2

MUSA-25A Guitar I

3.0 units: 54.0 hours lec.

This course is an introduction to the basic playing techniques, theory, and history of the guitar. Students will develop an essential foundation for playing the guitar while surveying its historical development and various stylistic uses in artistic, folk, and popular music.

Merced Campus

51077 TTh 02:10p-03:35p Dahman, N MUS-1

MUSA-27A Class Piano I

3.0 units: 54.0 hours lec.

This course designed for the beginning piano student with little or no background in piano develops sight-reading skills and keyboard techniques incorporated into solo and ensemble music.

Merced Campus

51078 TTh 12:35p-02:00p Wolfrey, E MUS-1

MUSA-27B Class Piano II

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Take MUSA-27A; Minimum grade C,P;

This course is a continuation of MUS-27A, the second semester of piano studies class. The student will perform musical pieces with greater accuracy and musical expression.

Merced Campus

51079 TTh 12:35p-02:00p Wolfrey, E MUS-1

Music: Ensemble (MUSE)

MUSE-41 Concert Band

1.0 units:

Limitation on Enrollment: Audition by Instructor. This course provides experience in performing concert and symphonic band literature chosen from Classical, Romantic, Modern and contemporary eras. Literature may range from sacred to secular in the genres of classical, traditional, pop, and jazz band repertoire. Attention will be given to the composers of the literature and particular performance practices historically applicable. Public performance and exchange concerts are scheduled in addition to class rehearsals. This course may be repeatable three times.

Merced Campus

56000 W 05:30p-08:35p Davidson, B MUS-2

MUSE-42 Jazz Ensemble

1.0 units:

Limitation on Enrollment: Audition by instructor. This course is a study of jazz music in the big band tradition and modern eras, as is standard first semester lower division college performance ensemble classes. Attention will be given to the composers of the literature and those particular performance practices which are historically applicable. The course em-

phasizes individual, sectional and ensemble instrumental performance. Tone, intonation, balance, precision, breath control, articulation, style, and improvisation are included. The jazz ensemble makes several public performances each year. This course may be repeatable three times.

Merced Campus

56004 M 05:40p-08:45p Taylor, K MUS-2
56005 Th 05:40p-08:45p Taylor, K MUS-2

MUSE-44 Chorale

1.0 units: 54.0 hours lab.

Limitation on Enrollment: Audition by Instructor. This course specializes in the study and performance of choral literature chosen from Renaissance, Baroque, Classical, Romantic, Modern and contemporary eras and may include both sacred and secular genres of classical, pop, and jazz choral literature. Attention will be given to the composers of the literature and particular performance practices historically applicable. An emphasis will be made on literature written or arranged for large vocal ensembles. Emphasis includes part-singing, intonation, breath control, vocal development, blend, tone coloring, and choral balance. The Chorale performs several times throughout the year. This course may be repeated three times.

Merced Campus

56002 T 06:00p-09:00p Simon, A LESH-111

MUSE-47 Mariachi Ensemble

1.0 units:

This course provides experience in performing Mariachi music while learning about and upholding traditions inherent in the Mexican culture. In addition to weekly rehearsals, the ensemble will perform at cultural events on and off campus. This course may be repeatable three times.

Merced Campus

51080 MW 12:35p-02:00p Davidson, B MUS-2

Music: General (MUSG)

MUSG-10 Music Fundamentals

3.0 units: 54.0 hours lec.

This course is a study of music fundamentals throughout history, including principles and procedures of rhythm, pitch notation, musical symbols, scales, key signatures, intervals, and diatonic chords. Students will study the historical and cultural development of various music notation styles and fundamentals. Students will apply knowledge learned in class to interpret and critique music with regard to its historical and cultural context. The course applies to musicians who have learned to play/sing without training in fundamentals and to beginners in music. This course is open to all students.

Merced Campus

51083 MW 12:35p-02:00p Simon, A B&E-203

MUSG-13 Jazz Music History

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course presents the history of jazz music from 1890 to the present, including an introduction and analysis of significant jazz artists and their contributions to this American art form. Particular emphasis is given to developing listening skills appropriate to the understanding and appreciation of jazz. In addition, the instructor will discuss international influences and the development of jazz as a world musical form. This course is a listener's guide to the appreciation of jazz and incorporates principles of structure, expression, instrumentation, cultural and social issues integral to jazz music.

Online

52058 Taylor, K Online

MUSG-14 American Popular Music History

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-85A or ENGL-C1000 (formerly ENGL-01A) is advised.

This course presents an introduction to the history and literature of the popular music movement in the United States; it is a study of the relationships of popular music to the social history of America. Emphasis is on styles and personalities of folk, blues, jazz, musical theatre, country & western, and rock 'n' roll. This course is designed for the non-music major.

NUTR-37 Nutrition and Hospitality Field Experience

3.0 units: 9.0 hours lec, 144.0 hours lab.

Prerequisite: *Required* Take NUTR-42, NUTR-44 and NUTR-45; Minimum grade P,NP.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

1) physical within past 6 months 2)negative TB screening test within past 6 months or negative chest x-ray within past year 3)proof of current immunizations 4)criminal background clearance 5)drug screening This course is designed to help students learn problem solving and communication skills in a professional working environment. The student is engaged in on-the-job learning activities under the supervision of a Certified Dietary Manager, Registered Dietitian, Production Supervisor or Executive Chef and Nutrition Professor. Learning objectives are established based on the competencies defined in the Certifying Board for Dietary Managers Exam Content Outline. Students rotate through experiences in healthcare facilities, schools and professional production kitchens. Students will be required to follow dress standards required by the facility in which they work. This course is recommended at or near the completion of the Nutrition or Culinary Management Program. Students are required to show proof of a current negative TB clearance (within last 3 months) and other immunizations required by the clinical facility to which they are assigned along with a current criminal background and drug screen check at the time of field placement.

NUTR-44 Food Safety and Sanitation

2.0 units: 36.0 hours lec.

This beginning course is designed to teach basic food safety principles of personal and institutional sanitation. This includes the proper storage, preparation, and service as well as HACCP, food allergies, regulations and pest management. An emphasis is placed on the Supervisor's role in maintaining high standards for these principles. This course meets the California Retail Food Code requirement section numbers 113947.1 through 113947.6. This course is required by the Dietary Service Supervisory and Certified Dietary Manager Programs. Students in those programs are required to take and pass the ServSafe Food Handler and ServSafe Manager Exam or equivalent. This course is highly recommended to those interested in working in Food Service industry as well as application to lifelong learning.

NUTR-45 Introduction to Medical Nutrition Therapy

2.0 units: 36.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is designed to acquaint students with therapeutic and modified diets used in health care facilities. Topics include nutrition for disease states as well as normal nutrition needs. Students will become familiar with principles of nutrition intervention and client care. Students will be able to evaluate menus to meet the nutritional needs of patients. Cultural considerations and the management of long term care residents will be emphasized. This course is required for the student planning a career in food service supervision and plans to become a Certified Dietary Manager. It is especially beneficial for those planning employment in health care institutions and is recommended for nursing students.

NUTR-50 Baking Basics and Business

1.5 units: 18.0 hours lec,

This is a course designed to introduce basic bakery production. With the growing interest and demand in the food industry it is imperative that students are introduced to basics of food safety practices, quantifying recipes and understand the business sense to provide a quality product. This lecture and laboratory class will plan baked items to prepare, consider costs involved making that product and in the foods laboratory will produce the product. Sensory evaluation techniques and quality control will be taught and practiced.

POSC-07 Politics of Race and Ethnicity

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

The racial foundations of American democracy have long been contested by communities of color in the United States. Democracy's literal meaning is "rule by the people," yet oppressed groups have questioned who is and is not included in the political community this meaning implies. This course will critically explore historical sources, competing theories, and contemporary examples of American politics and frameworks for democracy. In doing so, students will examine how Black and Indigenous perspectives have contributed to the formation of and struggle against the American political establishment at its foundation, as well as how oppressed groups continue to contest the limits of American democracy in the present.

RADT-50 Career Exploration in Medical Imaging

1.0 units:

Prerequisite: *Advised* Previously taken ALLH-67 and BIOL-16 is advised.

Limitation on Enrollment: Negative TB screening test or chest x-ray (within last 6 months); some facilities may require criminal background and drug screening clearances; some facilities may require current immunizations. This course allows students to sample an experience in a medical imaging setting in order to enhance their understanding of the challenges and opportunities in considering a career in diagnostic medical imaging. The instructor of record will be responsible for arranging the student's clinical placement during the course's orientation meeting.

Sociology (SOC)**SOC-01 Introduction to Sociology**

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course provides an introduction into what it means to be sociologically mindful and to think sociologically while understanding the difference from other ways of seeing the social world. The course begins with the understanding of the differences between personal troubles and public issues, and how sociologists apply various theoretical perspectives to a wide range of issues, such as: culture; socialization; social structure of society; deviance; issues of feminization; family; gender; race; inequality; economics; politics and population; and the relationship between the individual and society. The course accents international comparisons to show how similar institutions are structures and function differently in different societies around the world.

Vocational Nusing (VOCN)

VOCN-44 Principles and Practices of Nursing Care II

14.0 units: 144.0 hours lec,

Prerequisite: *Required* Take VOCN-42; Minimum grade C,P; *Required* Take VOCN-47C

Limitation on Enrollment: Enrollment in the Vocational Nursing Program; current CPR card; a negative TB skin test or negative chest x-ray. This course emphasizes theoretical principles of Maslow's basic human needs of safety, hygiene, rest, activity, comfort and self-actualization as it relates to common and complex health problems occurring in individuals of all age groups. Pathophysiologic and psychosocial assessment and management of medical-surgical disorders are stressed. General pharmacological and nutritional considerations are included. Clinical experience is integrated. This is part of the third semester of a three semester course.

VOCN-46A Applied Mathematics for Pharmacology

1.0 units: 18.0 hours lec.

Prerequisite: *Advised* Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra.

This is an introductory pharmacology course which includes an introduc-

tion to the professional context of drug administration, and study of the metric, apothecary, and household systems of measurement. Nursing responsibility to patient safety is included. Completion of this course requires accurate interpretation of doctors order, reading medication bottles, calculating drug dosages, and the reason for their application.

VOCN-47C Nursing Guidance III

1.0 units: 18.0 hours lec.

Prerequisite: *Required* Take VOCN-42; Minimum grade C,P;

Required Take VOCN-44

Limitation on Enrollment: Enrollment in the Vocational Nursing program. This course examines current and evolving patterns of mental health care and the shifts from inpatient custodial care to community-based treatment for the mentally ill. This course also examines the health-illness continuum, psychopathology, neuroses and psychoses, clinical disorders and maladaptations of behavior, and psychopharmacological approaches to treatment.

Fall 2025 Honors Classes

English (ENGL)

ENGL-C1001H Critical Thinking and Writing Honors

3.0 units: 54.0 hours lec,
Prerequisite: *Required* Take ENGL-C1000 (formerly ENGL-01A)
Minimum grade C,P.

Effective Fall 2025, ENGL-C1001H replaces ENGL-13H. In this course, students receive instruction in critical thinking for purposes of constructing, evaluating, and composing arguments in a variety of rhetorical forms, using primarily non-fiction texts, refining writing skills and research strategies developed in ENGL C1000 College Reading and Writing (C-ID ENGL 100) or similar first-year college writing course. This is an honors course. Readings feature mostly non-fictional essays and books that reflect diverse cultural perspectives on a variety of contemporary issues, such as those involving race, ethnicity, and gender. This honors course is more rigorous than the non-honors version.

74129 TTh 11:00a-12:25p Heft, A LB-B-134

CLDV-05 Health, Safety and Nutrition

3.0 units: 54.0 hours lec.

Laws, regulations, standards, policies, procedures, and best practices related to health, safety, and nutrition in care and education settings for children birth through middle childhood. Includes the teacher's role in prevention strategies, nutrition and meal planning, integrating health safety and nutrition experiences into daily routines, and overall risk management. (Approved for C-ID ECE220)

Los Banos Campus

74135 TTh 12:35p-02:00p Heft, A LB-B-134

CLDV-06 Teaching in A Diverse Society

3.0 units: 54.0 hours lec.

Examines the historical and current perspectives on diversity and inclusion and the impact of systemic societal influences on children's development, learning, and school experiences. Strategies for developmentally, culturally, and linguistically appropriate anti-bias curriculum will be explored as well as approaches to promote inclusive and equitable classroom communities. Includes self-reflection on the influence of teachers' own culture and life experiences on teaching and interactions with children and families. (Approved for C-ID ECE 230)

Los Banos Campus78139  W 05:40p-08:45p Parra, L LB-B-134**CLDV-07L Practicum**

3.0 units: 18.0 hours lec,

Limitation on Enrollment: As per California Law SB792, all volunteers, students, and employees of educational/service facilities must provide documentation verifying required immunizations and negative TB test. These requirements must be met prior to the start of class. Demonstration of developmentally appropriate early childhood program planning and teaching competencies under the supervision of ECE/CD faculty and other qualified early education professionals. Students will utilize practical classroom experiences to make connections between theory and practice, develop professional behaviors, and build a comprehensive understanding of children and families. Reflective practice will be emphasized as student teachers design, implement, and evaluate approaches, strategies, and techniques that promote development and learning. Includes exploration of career pathways, professional development, and teacher responsibilities.

74501 TTh 09:20a-10:45a Mendez, J LB-B-107

Political Science (POSC)**POSC-07 Politics of Race and Ethnicity**

3.0 units: 54.0 hours lec.

The racial foundations of American democracy have long been contested by communities of color in the United States. Democracy's literal meaning is "rule by the people," yet oppressed groups have questioned who is and is not included in the political community this meaning implies. This course will critically explore historical sources, competing theories, and contemporary examples of American politics and frameworks for democracy. In doing so, students will examine how Black and Indigenous perspectives have contributed to the formation of and struggle against the American political establishment at its foundation, as well as how oppressed groups continue to contest the limits of American democracy in the present.

Los Banos Campus

74507 TTh 11:00a-12:25p Brady, A LB-B-105

Psychology (PSYC)**PSYC-25 Introduction to Abnormal Psychology**

3.0 units: 54.0 hours lec.

This course is designed to provide the student with an understanding of abnormal behavior as delineated in the "Diagnostic and Statistical Manual of Mental Disorders." Topics include classifications, clinical pictures, causal factors, treatment, and outcomes of maladaptive behavior. Special emphasis will be placed on assessment, therapy, and prevention of maladaptive behavior.

Los Banos Campus

74531 MW 09:20a-10:45a Coahran, S LB-B-106

PSYC-C1000 Introduction to Psychology

3.0 units: 54.0 hours lec.

Effective Fall 2025, PSYC-C1000 replaces PYSC-01A. This course is an introduction to psychology, which is the study of the mind and behavior. Students focus on theories and concepts of biological, cognitive, developmental, environmental, social, and cultural influences; their applications; and their research foundations.

Los Banos Campus

74511 TTh 07:45a-09:10a Coahran, S LB-B-106

Sociology (SOC)**SOC-01 Introduction to Sociology**

3.0 units: 54.0 hours lec.

This course provides an introduction into what it means to be sociologically mindful and to think sociologically while understanding the difference from other ways of seeing the social world. The course begins with the understanding of the differences between personal troubles and public issues, and how sociologist apply various theoretical perspectives to a wide range of issues, such as: culture; socialization; social structure of society; deviance; issues of feminization; family; gender; race; inequality; economics; politics and population; and the relationship between the individual and society. The course accents international comparisons to show how similar institutions are structures and function differently in different societies around the world.

Los Banos Campus

74535 MW 12:35p-02:00p Coahran, S LB-B-106

Sociology - Non-Credit (SOCL)**SOCL-760 Career and Life Planning**

0.0 units: .

This course is designed for students who function at limited levels of cognitive development. It is designed to help students acquire positive workplace attitudes, skills, and habits. This course is 364- 455 hours in duration and may require a work experience component.

Los Banos Campus

75091 MTWThF 08:30a-02:30p Huerta, I OFLL-KINGS

Spanish (SPAN)**SPAN-01 Elementary Spanish I**

5.0 units: 90.0 hours lec.

This course will focus on the development of listening, speaking, reading, and writing in a cultural context, with primary emphasis on communicative competency. Students will learn how to express in Spanish the most basic functions of everyday life. This course is not recommended for native speakers - native speakers should enroll in SPAN-10.

Los Banos Campus

74547 TTh 11:15a-01:45p Wynne, C LB-B-112

Statistics (STAT)**STAT-C1000 Introduction to Statistics**

3.0 units: 54.0 hours lec.

Effective Fall 2025, STAT-C1000 replaces MATH-10. This course is an introduction to statistical thinking and processes, including methods and concepts for discovery and decision-making using data. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-squared, and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Students apply methods and processes to applications using data from a broad range of disciplines.

ACTG-53 Fundamentals of Income Tax Accounting

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ACTG-04A or ACTG-51 is advised.

This course provides the student with the knowledge of tax laws, accounting procedures, and preparation of required returns for federal income taxes. An introduction to partnership and corporate taxation, as well as a brief overview of tax administration, will supplement the course material.

Online

92102	Vilhauer, C	Online
-------	-------------	--------

Administrative Office Mgmt (AOM)

AOM-59A Medical Coding and Billing

4.0 units: 72.0 hours lec.

This course will enable the student to develop a basic knowledge of the national diagnostic and procedural coding systems and to simplify the process of filing claim forms. The student will be introduced to the major medical insurance programs, reimbursement, privacy rules, HIPAA, basic understanding of legal and regulatory considerations. The student will be able to identify and define medical terminology and abbreviations used in the outpatient setting.

Online

92052	Carvalho, S	Online
-------	-------------	--------

Agriculture Animal Science (AGAS)

AGAS-01 Elements of Animal Science

3.0 units: 54.0 hours lec.

This course is a survey of the livestock industry, supply of animal prod-

ucts, and their uses in animal production. There is a special emphasis on the origin, characteristics, adaptation, and contributions of farm animals to the agriculture industry. The student will analyze the economic trends and career opportunities in animal agriculture. Field trips will be required.

Online

32038	Casso, C	Online
-------	----------	--------

Agriculture Business (AGAB)

AGAB-01 Introduction to Agriculture Business

3.0 units: 54.0 hours lec.

This course is a survey of the broad scope of agriculture business. It serves as an introduction to economic, accounting, management, sales, leadership, and marketing aspects of agriculture and their impact on producers and consumers. The management principles encountered in the day-to-day operation of an agricultural enterprise are stressed as they relate to the decision-making process.

Online

32533	Donaher, K	Online
-------	------------	--------

AGAB-03 Agricultural Marketing

3.0 units: 54.0 hours lec.

: This course includes a survey of the marketing aspects of the agriculture industry and an overview of the structure and institutional aspects of the marketing system. Emphasis will be on the marketing functions and how consumer trends affect agribusiness.

Online

32535	Baskins, S	Online
-------	------------	--------

AGAB-05 Agricultural Economics

3.0 units: 54.0 hours lec.

This course includes the analysis of the microeconomic principles of supply and demand and the affects on producers and consumers. This class will explore the contemporary and historical place of agriculture and farmers in our economic, social, and political systems and their relationship to the consuming public.

Online

32333	Donaher, K	Online
-------	------------	--------

AGAB-07 Agricultural Sales & Communication

3.0 units: 54.0 hours lec.

This course involves the study of principles and practices of the selling process: selling strategies and approaches, why and how people buy, prospecting, territory management, and customer service. Additional topics for exploration include self-management, communication, interpersonal skills necessary to developing managerial abilities, leadership qualities, and facilitation of teamwork within the agribusiness sector.

Online

32334	Casso, C	Online
-------	----------	--------

Agriculture Plant Science (AGPS)

AGPS-03 Economic Entomology

3.0 units: 54.0 hours lec.

This course will cover insects and mites of economic importance to agriculture. Morphology, taxonomy, identification, life cycles, hosts, habitat relationships, and control methods will be discussed. Collection and labeling of specimens will be required.

Communication Studies (COMM)

COMM-14 Small Group Communication

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Effective Fall 2025, COMM-14 replaces COMM-04. . This course provides students with the foundational knowledge and practice of speech-making in a democratic society, while simultaneously emphasizing theory and research about communication in a variety of small group contexts. This course exposes students to rhetorical theory, small group theory and public speaking fundamentals within the context of their interpersonal interactions, group communication processes, and live presentations (including informative and persuasive speeches). Students will learn historical roots and key rhetorical theories that ground the study and practice of public speaking, and be able to discover, develop and critically analyze ideas and information in public discourse. Student will also explore and evaluate group communication processes, including problem-solving, conflict management, decision-making and leadership.

Online

22107		Online
-------	--	--------

Comments: COMM-14 does not fulfill any CALGETC breath areas. Students taking this course should be COMM majors. For non-majors, this class will only provide 3 elective units.

COMM-15 Interpersonal Communication

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Effective Fall 2025, COMM-15 replaces COMM-05. . The focus of this course is to examine the dynamics of communication in one-to-one relationships from a theoretical point of view with a focus on core concepts and methods of research in interpersonal relationships. Communication theory and skills will be investigated in order to help students gain a basic knowledge of the cultural and social organizations in which they (students) exist as well as the behavior and social organizations of other human societies.

3.0 units: 54.0 hours lec.

Prerequisite: *Required* Take ENGL-C1000 (formerly ENGL-01A) Minimum grade C,P.

Effective Fall 2025, ENGL-C1001H replaces ENGL-13H. In this course, students receive instruction in critical thinking for purposes of constructing, evaluating, and composing arguments in a variety of rhetorical forms, using primarily non-fiction texts, refining writing skills and research strategies developed in ENGL C1000 College Reading and Writing (C-ID ENGL 100) or similar first-year college writing course. This is an honors course. Readings feature mostly non-fictional essays and books that reflect diverse cultural perspectives on a variety of contemporary issues, such as those involving race, ethnicity, and gender. This honors course is more rigorous than the non-honors version.

Music: General (MUSG)

MUSG-13 Jazz Music History

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course presents the history of jazz music from 1890 to the present, including an introduction and analysis of significant jazz artists and their contributions to this American art form. Particular emphasis is given to developing listening skills appropriate to the understanding and appreciation of jazz. In addition, the instructor will discuss international influences and the development of jazz as a world musical form. This course is a listener's guide to the appreciation of jazz and incorporates principles of structure, expression, instrumentation, cultural and social issues integral to jazz music.

NUTR-44 Food Safety and Sanitation

2.0 units: 36.0 hours lec.

This beginning course is designed to teach basic food safety principles of personal and institutional sanitation. This includes the proper storage, preparation, and service as well as HACCP, food allergies, regulations and pest management. An emphasis is placed on the Supervisor's role in maintaining high standards for these principles. This course meets the California Retail Food Code requirement section numbers 113947.1 through 113947.6. This course is required by the Dietary Service Supervisory and Certified Dietary Manager Programs. Students in those programs are required to take and pass the ServSafe Food Handler and ServSafe Manager Exam or equivalent. This course is highly recommended to those interested in working in Food Service industry as well as application to lifelong learning.

NUTR-45 Introduction to Medical Nutrition Therapy

2.0 units: 36.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course is designed to acquaint students with therapeutic and modified diets used in health care facilities. Topics include nutrition for disease states as well as normal nutrition needs. Students will become familiar with principles of nutrition intervention and client care. Students will be

able to evaluate menus to meet the nutritional needs of patients. Cultural considerations and the management of long term care residents will be emphasized. This course is required for the student planning a career in food service supervision and plans to become a Certified Dietary Manager. It is especially beneficial for those planning employment in health care institutions and is recommended for nursing students.

Sociology (SOC)

SOC-01 Introduction to Sociology

3.0 units: 54.0 hours lec.

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

This course provides an introduction into what it means to be sociologically mindful and to think sociologically while understanding the difference from other ways of seeing the social world. The course begins with the understanding of the differences between personal troubles and public issues, and how sociologists apply various theoretical perspectives

to a wide range of issues, such as: culture; socialization; social structure of society; deviance; issues of feminization; family; gender; race; inequality; economics; politics and population; and the relationship between the individual and society. The course accents international comparisons to show how similar institutions are structures and function differently in different societies around the world.

Child Development (CLDV)**CLDV-01 Child Growth and Development**

3.0 units: 54.0 hours lec,

Examines the progression of development in the physical, cognitive, social, and emotional domains and identifies developmental milestones for children from conception through adolescence. Emphasis on interactions between biological processes and environmental factors. Students will observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. (Approved C-ID CDEV 100)

Comments: This 8-week course is held 3/09/26 to 5/01/26.
Open Educational Resources/Zero Textbook Cost: All learning materials provided at no cost to students.

CLDV-03 Principles and Practices of Teaching Young Children

3.0 units: 54.0 hours lec,

Historical contexts and theoretical perspectives of developmentally and culturally appropriate practice in early care and education for children birth through age eight. Explores the typical roles and expectations of early childhood educators. Identifies professional ethics, career pathways, and professional standards. Introduces best practices for developmentally and culturally appropriate learning environments, curriculum, and effective pedagogy for young children including how play contributes to children's learning, growth, and development. (Approved for C-ID EVE 110)

CRIM-42D Reserve Officer Module Level 2

10.0 units: 162.0 hours lec,

Limitation on Enrollment: 1. Students must be cleared by the California Department of Justice (DOJ) to participate. DOJ clearance is evaluated through the LiveScan fingerprint process. This clearance will reveal a qualifying/disqualifying criminal history background. 2. The absence of medical conditions that would prevent strenuous physical training during arrest and control methods training, use of force, and crimes in progress. A physician's clearance indicating good physical health must be presented to the instructor at the first class meeting. 3. Student must possess a California Driver's License. This course satisfies the Level 2 Modular Format Basic Course training requirements of the Commission on Peace Officer Standards and Training (POST). It covers community relations, victimology, crisis intervention, property crimes, crimes against persons, general criminal statutes, laws of arrest, laws of search and seizure, presentation of evidence, investigative report writing, use of force, patrol techniques, vehicle pullovers, crimes in progress, traffic enforcement, unusual occurrences, preliminary investigation, arrest and control methods including baton, firearms, chemical agents, persons with disabilities, crimes against the justice system, weapons violations, hazardous materials, cultural diversity and discrimination issues. Students missing more than 5% of class time will not be allowed to complete the class (POST regulations). Students will participate in one or more learning activities from the POST-developed Instructor's Guide to Learning Activities for Leadership, Ethics and Community Policing (December 2005) or other comparable sources regarding leadership to consist of 3 hours per week.

ELCT-55 Electrical Conduit Bending Theory and Techniques

1.0 units: 9.0 hours lec,
This course provides a comprehensive overview of conduit bending, fabrication procedures and methods. It will develop basic competencies in electrical apprentices and beginning learners. It will discuss hand bending for 90 degree bends, offsets and kicks, saddles and corner offsets, segmented bends, threaders, benders and other conduit types. These conduit types will include electrical metallic tubing (EMT), galvanized rigid conduit (GRC), rigid aluminum, intermediate metallic conduit (IMC), various poly-vinyl chloride (PVC), and flexible plastic and metallic conduit. Wiring in accordance with the National Electrical Code (NEC) will be stressed. Students may petition, through the Office of Admissions and Records, to retake the course as the National Electrical Codes change.

ELCT-56 Introduction to Mechatronics

4.0 units: 36.0 hours lec,
This course introduces students to mechatronics, the rapidly developing field that integrates mechanical, electronic and software engineering in the service of advanced manufacturing. Students will develop an interdisciplinary and integrated approach to design, manufacturing and troubleshooting mechatronics systems. Students will learn how various components such as electronic sensors, electro-pneumatic valves, actuators, motors, and robotic arms work, and how they can be integrated with other mechanical components into complex automated systems. OSHA safety training and certification will be included. Hands-on experience in building and programming a variety of mechatronics projects that simulate real-life industrial automated systems will be provided in laboratory activities.

Workforce Training (WRK)

WRK-712 Essential Skills for Job Retention

0.0 units:

This course is designed to prepare students for 21st Century Workforce. The course focuses on the importance of essential skills and expectations that employers are seeking within job applicants. Course content includes: preparing a resume and cover letter, understanding the application process, interviewing competencies, and maintaining successful employment.

Merced Campus

95999 MTW 12:00p-02:00p Montague, K AGIT-141
 Comments: Students must be at least 18 years old to enroll in this class. This 3-week class is held from 04/06/26 to 04/24/26.

Spring 2026 Off Campus Classes

Accounting (ACTG)

ACTG-31 Computerized Accounting

2.0 units: 18.0 hours lec,

Prerequisite: *Required* Take ACTG-04A or ACTG-51. Minimum grade C,P;

Advised Previously taken AOM-30 and ENGL-C1000 (formerly ENGL-01A) is advised

Advisory: AOM-30 and ENGL-85A or ENGL-85AC. This course provides instruction in computer-assisted accounting. Topics include general ledger setup, accounts receivable setup, accounts payable setup, transactions and reports, financial statement analysis, depreciation, and payroll.

Online

92031 Magana, J Online

Administrative Office Mgmt (AOM)

AOM-30 Introduction to Computer Applications

3.0 units: 36.0 hours lec,

This course is intended for students seeking an introduction to application software used in the workplace with emphasis on business situations. Computer applications including word processing, spreadsheets, databases, and presentation managers will be covered.

Online

92307 Zdanowski, M Online
92310 Zdanowski, M Online
92801 Garcia Martinez, J Online

AOM-43 Essentials of Business Communication

3.0 units: 45.0 hours lec,

Prerequisite: *Advised* Previously taken AOM-30 and AOM-50B is advised

This course covers the business writing patterns of routine, persuasive, and negative messages. Students learn the basic training in listening, speaking, and non-verbal communication in order to develop the skills needed in everyday business communication. Given a scenario, students create e-mail, memos, letters, proposals, reports, and an ePortfolio. Students also learn about doing business with other cultures and giving oral business presentations.

Online

92882 Visola, T Online

AOM-50B Document Formatting

3.0 units: 36.0 hours lec,

Students will learn the (1) development of basic computerized keyboarding techniques and (2) fundamental knowledge of word processing software to properly format memorandums, letters, envelopes, tables, and reports.

Online

92511 Blackmore, C Online
92884 Garcia Martinez, J Online
92885 Carvalho, S Online

AOM-50C Learn to Type

1.0 units: 9.0 hours lec,

This course provides an introduction to the keyboard for non-typists.

Online

92831 Garcia Martinez, J Online
92832 Staff, M Online

AOM-52C Keyboarding Speed & Accuracy

1.0 units: 9.0 hours lec,

Prerequisite: *Advised* Previously taken AOM-50C is advised

This course is designed to increase keyboarding speed and accuracy

through individualized evaluation. The course helps bridge the speed gap between each level of keyboarding instruction. It is designed for the student who wishes to gain keyboarding speed and accuracy.

Online

92815 Garcia Martinez, J Online
92816 Staff, M Online

AOM-56 Office Procedures

3.0 units: 45.0 hours lec,

Students will learn the skills, strategies, and techniques needed to perform the common office procedures within any form of business.

Online

92843 Visola, T Online
92844 Visola, T Online

AOM-58A Website Development

2.0 units: 18.0 hours lec,

This is an introductory course in the planning, design, and creation of a website.

Online

92857  Garcia Martinez, J Online
92858  Garcia Martinez, J Online

Ag Environmental Horticulture (AGEH)

AGEH-24 Work Experience in Landscape Horticulture

1.0 units: .

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job in ag environmental horticulture. Fifty-four (54) hours, either paid or volunteer, are required per unit of credit attempted. Students must have an established work site in ag environmental horticulture before enrolling in the course.

Merced Off-Campus

33012 - Codd, A
33013 - Codd, A

Agriculture Animal Science (AGAS)

AGAS-01 Elements of Animal Science

3.0 units: 54.0 hours lec.

This course is a survey of the livestock industry, supply of animal products, and their uses in animal production. There is a special emphasis on the origin, characteristics, adaptation, and contributions of farm animals to the agriculture industry. The student will analyze the economic trends and career opportunities in animal agriculture. Field trips will be required.

Online

31038 Casso, C Online

AGAS-24 Work Experience in Animal Science

1.0 units: .

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job specific to the field of animal science. Students must work or volunteer 54 hours per unit of credit attempted. Students must have an established work site in the animal science or related field prior to enrolling in the course.

33023 - Maddux, M
33024 - Maddux, M

Agriculture Business (AGAB)

AGAB-08 Agricultural Computer Applications

3.0 units: 36.0 hours lec,

: This course explores computer use in the workplace with emphasis on agribusiness situations. Computer applications including word-processing, spreadsheets, databases, and presentation managers will be covered. Also included will be accessing information through the Internet and World Wide Web, telecommunications, an introduction to web page design and other software appropriate to agribusiness.

Art (ART)**ART-15 Design: 2-D Foundations**

3.0 units: 36.0 hours lec,

This studio survey class is a required foundation course for the study of the Visual Arts. Lectures and studio projects explore and analyze concepts related to the elements and principles of current and historical design theories. Philosophical, social and cultural implications are examined. Subject matter is directly linked to topics in 2-D, fine art, graphic design, commercial art, and photography, with broader applications to professional fields of 3-D, applied arts, environmental design, architecture, interior design and fashion. Required for Art Majors.

CHEM-02B Introductory Chemistry: Introduction to Organic and Biochemistry

4.0 units: 54.0 hours lec,

Prerequisite: *Required* Previously taken CHEM-02A is required.

Advised Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra is advised.

This is a continuation of CHEM-02A with emphasis on organic and biochemistry. The structure, nomenclature, and properties of organic compounds such as alkanes, alkenes, arenes, alcohols, thiols, amines, aldehydes, ketones, carboxylic acids and their derivatives are covered. Structure, properties and reactions of biochemical compounds such as carbohydrates, proteins, and lipids are covered and followed through major and minor metabolic pathways. This course is intended for students in liberal studies, agriculture, and health-related fields. This course is not designed for chemistry or science majors.

REGN-02 Clinical Skills Transition Lvn to Rn

1.0 units:

Prerequisite: *Required* Take Regn-01; Minimum Grade C,P;

Limitation on Enrollment: California VN license, CPR Certificate, and Acceptance into the REGN Program. Registered Nursing 02 consists of practice in the clinical setting with the skills and principles necessary to facilitate the transition of the Licensed Vocational Nurse to the changing role of the Registered Nurse. Emphasis is placed on nursing skills related to first year RN nursing concepts in clinical practice.

REGN-03 Work Experience in Registered Nursing

1.0 units: 18.0 hours lec.

This course enables students to earn college credit for learning or improving skills or knowledge on-the-job in registered nursing. This course is designed for students in the Registered Nursing program who obtain positions as externs. Fifty-four (54) hours, either paid or volunteer, are required per unit of credit attempted. Students must have an established work site in registered nursing prior to enrolling in the course.

Statistics (STAT)**STAT-C1000E Introduction to Statistics**

4.0 units: 54.0 hours lec,

Prerequisite: *Advised* Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Effective Fall 2025, STAT-C1000E replaces MATH-10S. This course is an introduction to statistical thinking and processes, including methods and concepts for discovery and decision-making using data. Topics include descriptive statistics; probability and sampling distributions; statistical inference; correlation and linear regression; analysis of variance, chi-squared, and t-tests; and application of technology for statistical analysis including the interpretation of the relevance of the statistical findings. Students apply methods and processes to applications using data from a broad range of disciplines. This course has embedded support. Also included is a review of the core prerequisite skills, competencies, and concepts needed in statistics. Topics include concepts from prealgebra, elementary and intermediate algebra and the development of critical thinking skills needed for statistical analysis.

Tutorial (TUTR)**TUTR-35 Tutorial Seminar**

1.0 units:

This is a course designed to provide tutors in the Merced College Tutorial program with the opportunity to explore more fully their experiences in the program. Tutors will receive instruction in the areas of tutorial technique, group organizations, relationships with faculty and peers, evaluation techniques and content tutoring.

Vocational Nusing (VOCN)**VOCN-44 Principles and Practices of Nursing Care II**

14.0 units: 144.0 hours lec,

Prerequisite: *Required* Take VOCN-42; Minimum grade C,P;

Required Take VOCN-47C

Limitation on Enrollment: Enrollment in the Vocational Nursing Program; current CPR card; a negative TB skin test or negative chest x-ray. This course emphasizes theoretical principles of Maslow's basic human needs of safety, hygiene, rest, activity, comfort and self-actualization as it relates to common and complex health problems occurring in individuals of all age groups. Pathophysiologic and psychosocial assessment and management of medical-surgical disorders are stressed. General pharmacological and nutritional considerations are included. Clinical experience is integrated. This is part of the third semester of a three semester course.

Welding Technology (WELD)**WELD-01 Fundamentals of Shielded Metal Arc Weld
Shielded Metal Arc Welding**

3.0 units: 36.0 hours lec,

Prerequisite: *Required* Previously taken WELD-54 and WELD-55 or must be taken concurrently.

This course teaches the fundamentals of Shielded Metal Arc Welding as well as Carbon Arc Cutting as it relates to structural steel.

WELD-02 Fundamentals of Gas Metal & Flux Cored

3.0 units: 36.0 hours lec,

Prerequisite: *Required* Previously taken WELD-54 and WELD-55 or must be taken concurrently.

This course provides introductory skills in Gas Metal and Flux Cored Arc Welding. Safety in all aspects of welding will also be covered.

WELD-46 Advanced Arc Welding Procedure

1.0 units:

Prerequisite: *Advised* Previously taken WELD-01 (formerly WELD-06) and WELD-02 (formerly WELD-07) are advised, but not required.

This course is designed to emphasize the skills and techniques of Shielded Metal Arc Welding, Gas Metal Arc Welding, Gas Tungsten Arc Welding, Air Carbon Arc Cutting and Oxyacetylene flame cutting as related to pipe and structural members. Included will be welding assembly print interpretation, weld symbol interpretation, and weld joint preparation. Students will be prepared to take an AWS Welder Certification Test during this course.

WELD-54 Print Reading and Sketching for Welder's

2.0 units: 18.0 hours lec,

This course is designed to prepare students to read and interpret industrial prints as well as give those students basic skills in sketching as it relates to the communication of reading prints.

WELD-55 Equipment Operation and Safety Safety

3.0 units: 36.0 hours lec,

This course is an introduction to the welding program. It gives students the opportunity to familiarize themselves with commonly used equipment found in industry. In addition to familiarizing themselves with industry standard equipment, they will be trained in lab procedures which will ensure students in advanced classes can use the equipment without reserve.
