ADDENDUM 1

This addendum contains clarification and additional information, which modifies the conditions of the above referenced BID/RFQ as follows:

1. **Questions:** Please Provide the extent of ceiling/wall patch required. Will there be an allowance for patch back if demo is required to route new pathway?

Answer: Within this scope bidder is responsible for providing a complete pathway solution from each lock button location to the associated Access Control Panel. The extent of ceiling/wall patch required will vary greatly based on the quantity, size, and quality of the cut-outs. MCCD has no practical way to accurately estimate this. Within this scope bidder is responsible for returning the walls and/or ceilings to their original appearance after any access cutouts are made. Any proposed locations for access panels will require individual approval from MCCD. Bid pricing should not assume approval of any access panels.

2. **Extension** to the due date will be provided. Please note that all proposals are now due **Monday, April 20, 2026, at 2pm**. Proposals are still to be submitted to the Merced College Purchasing Office.

SPECIAL NOTE:

It is the responsibility of each Bidder to acknowledge all addenda by signing below and submitting a copy of each addendum with their respective bid.

I HAVE READ AND UNDERSTAND THESE MODIFICATIONS TO THE ABOVE BID:

All other bidding contract and construction drawing documents, stipulations, dated and times remain unchanged, in full effect and by reference become a part of this addendum.
