Icon Descriptions

-  **Additional Fees Apply** This section has additional fees for supplies or other non-textbook related items.
-  **Competency Based Education** CBE empowers students by allowing them to progress at their own pace, focusing on achieving competency in essential skills rather than simply spending time in class.
-  **Late Start** This section starts after the initial start of the term.
-  **Linked Sections** This section requires enrollment in one or more additional sections.
-  **Live Stream** Class will be held in person with the faculty on Zoom.
-  **Puente Program** The Puente Program provides a supportive and stimulating environment for students prepare to transfer to a 4-year university and build confidence in their writing and reading skills through an exploration of the Mexican American/Latino experience and is open to all students who wish to transfer to a four-year university.
-  **Umoja** The Umoja learning community is dedicated improving the educational experiences and success of African-American and other students by providing a supportive learning environment that actively engages students through a cultural lens supportive of the experiences of African American and other students.
-  **Zero Textbook Cost** There are NO textbook costs for this section. As a reminder, you are auto-enrolled in the Smart Start Program. You should still compare costs for your other courses to see if opting out of that program saves you money.

Fall 2026 Classes

Accounting ACTG

ACTG-04A Financial Accounting

4.0 units:
72.0 hours lec.

Begins Fall 2025 This course provides the student with the knowledge of corporate financial statement reporting and the ability to analyze the reports of a corporation. Basic topics include analysis of transactions and preparation of financial statements related to developing an understanding of the financial condition of a corporation. This accounting course is recommended for students who have knowledge of or equivalent experience in the basics of bookkeeping.

Comments: Students registered for AGEH 24, Work Experience in Landscape Horticulture, must have a paid or volunteer work position in place at the time of registration. This 3 unit course is designed for students majoring in Landscape Horticulture and whose work is related to Landscape Horticulture. This course requires completion of 162 hours.

**Agriculture
 AGRI**

**AGRI-01
 Agriculture Education Orientation**

3.0 units:
 36.0 hours lec,
 54.0 hours lab.

Begins Fall 2025 This course is an overview of agriculture education in California, including the principle components of agriculture education, developing academic and career plans, and observation in a secondary agriculture education classroom. In addition to class time, the course requires a minimum of 45 hours of structured field work in K-12 classrooms that represent California's diverse student population, and includes cooperation with at least one carefully selected and campus approved certificated classroom teacher. Students need to do their observations in a classroom that is inline with their degree plans. Single subject agriculture credential requires that candidates observe in the subject area at high school or junior high level. Students must provide their own transportation to off-campus school sites. Note: Fingerprint clearance and TB clearance are required. Students must obtain a clear Live Scan to complete observation hours; observation placements will not be available for students with felony convictions.

**AGAS-03
Animal Diseases & Parasite Control**

3.0 units:
54.0 hours lec.
: Begins Fall 2025 This course of animal health and sanitation will provide instruction to the student of common livestock diseases and fundamentals of immunity. It will also include coverage of the livestock worker's role in promoting animal health and the foundation of disease control programs.

Merced Campus

31020 MW 09:20a-10:45a Maddux, M AGIT-131

**AGAS-04
Elements of Animal Nutrition**

3.0 units:
36.0 hours lec,
54.0 hours lab.
Begins Fall 2025 This course covers the elements of animal nutrition. The fundamentals of digestion and absorption in both ruminants and non-ruminants are discussed. The nutritive value of feeds as they relate to the formulation of livestock rations will be emphasized including by-product feeding.

Merced Campus

32797 - Maddux, M
M 02:25p-05:30p Maddux, M AGIT-136

**AGAS-10
Meat Science**

3.0 units:
36.0 hours lec,
54.0 hours lab.
Begins Fall 2025 This course is an introduction to the meat industry with a special emphasis on meat products and value added meat processing techniques. It includes concepts of food safety, grading and inspection along with preservation and marketing strategies to meet current consumer demands.

Merced Campus

31614 M 08:50a-10:50a
W 07:45a-10:50a

**AGAS-11
Horse Husbandry**

3.0 units:
36.0 hours lec,
54.0 hours lab.
Begins Fall 2025 This is a survey of the equine industry encompassing

the evolution and role of the equine species throughout history, breed selection and development, nutrition, diseases, preventive health, reproductive management, basic horsemanship, and stabling alternatives.

Merced Campus

32708 M 02:25p-04:25p AGIT-133
W 02:25p-05:30p AGIT-136

**AGAS-13
Sheep and Meat Goat Science**

3.0 units:
36.0 hours lec,
54.0 hours lab.
Begins Fall 2025 This course is a survey of the sheep and meat goat industry including management of commercial, purebred and small farm flocks, including selecting, feeding, breeding and basic care of the herd animals plus the marketing and economics of lambs, wool, and kids.

Merced Campus

32710 - Maddux, M

Comments: Students registered for AGAS 24, Work Experience in Animal Science, must have a paid or volunteer work position in place at the time of registration. This 4 unit course is designed for students majoring in Animal Science and whose work is related to the Animal Science major. This course requires completion of 216 hours.

**Agriculture Business
AGAB**

**AGAB-01
Introduction to Agriculture Business**

3.0 units:
54.0 hours lec.

Begins Fall 2025 This course is a survey of the broad scope of agriculture business. It serves as an introduction to economic, accounting, management, sales, leadership, and marketing aspects of agriculture and their impact on producers and consumers. The management principles encountered in the day-to-day operation of an agricultural enterprise are stressed as they relate to the decision-making process.

**ALLH-63
Nurse Assistant**

6.0 units:
63.0 hours lec,
135.0 hours lab.
Begins Fall 2025 Limitation on Enrollment: 1. Orientation Workshop
2. CPR Card-Module AC 3. Negative TB Screening test within past 6
months or negative chest x-ray within past year 4. Physical within past 6
months 5. DOJ fingerprint clearance 6. Penal Code Violations Clearance.
The course provides clinical instruction and practice of basic nursing skills
required of nursing assistants employed in skilled nursing facilities and
extended care facilities. The course emphasizes care of the older adult
client, assistance with the activities of daily living, bathing, dressing, ex-
ercise movement, eating, eliminating safety measures, cardiopulmonary
resuscitation and rehabilitation techniques. Meets State Department of
Health Services requirements for eligibility to take the Nursing Assistant
Certification examination.

Intermediate Graphic Design: 2D Foundati**

3.0 units:
36.0 hours lec,
54.0 hours lab.

Prerequisite: *Required* Must have previously completed ARTD-41A. Students remain strongly advised to feel comfortable navigating a contemporary OS computer graphical user interface.

Begins Fall 2025 This studio survey course continues to explore concepts and manipulation processes in graphic design and the visual communication arts. Students will learn intermediate design principles, conceptual thinking, and typographic layout while also exploring philosophical and cultural implications. Students utilize software and traditional drawing-board design practices that visually enlighten and effectively communicate to a mass audience.

**ARTD-45A
Animation I: Introduction to 2D Animatio And 2D Ani-
mation**

3.0 units:
36.0 hours lec,
54.0 hours lab.

Prerequisite: *Advised* Previously taken ART-24A is advised.

Students remain strongly advised to feel comfortable navigating a contemporary OS computer graphical user interface.

Begins Fall 2026 This studio course imparts a thorough foundation in creative two-dimensional Toonboom digital media production for the web, while also exploring philosophical and cultural implications. Indispensable basic typographic, color, illustration, animation, interactivity, layout, and sound design concepts feature strongly in the class. The course's Animate CC, Toon Boom and HTML 5 web technology techniques prepare students for producing imaginative web sites, animations and multimedia projects.

Comments: This 8-week class is held 10/19/26-12/11/26. There is no class 11/2/26-11/6/26.

**AUTO-58
Automotive Computerized Controls**

4.5 units:
67.5 hours lec,
40.5 hours lab.

Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) and AUTO-57 (formerly AUTO-42) and passed with a minimum grade of C.

This course provides an in-depth exploration of automotive computers and electronic systems, essential for modern vehicle diagnostics and repair. Students will gain a comprehensive understanding of the integration of computer technology in automotive systems including various sensors and actuators. Key topics include the fundamentals of automotive electronics, the architecture of automotive computer systems, communication protocols such as CAN bus, OBD-II diagnostics, and the role of software

in vehicle performance and safety.

**AUTO-59
Introduction to Electrified Vehicles**

4.5 units:
67.5 hours lec,
40.5 hours lab.
Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) and AUTO-58 (formerly AUTO-43) is required --- OR--- ASE A6 Industry Certificate.

Students must have basic understanding of automotive electrical systems and use of electrical test equipment. The course is designed for students without prior knowledge of Hybrid and Electric Vehicles. This course will cover the different types of electrified vehicles, safety, operation, and basic repair procedures related to electric motors, inverters, and high voltage batteries.

**AUTO-61
Automotive Engines**

4.0 units:
54.0 hours lec,
54.0 hours lab.
Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) and passed with a minimum grade of C.

This is a class in the principles and theory of engine repair and rebuilding including the disassembly and assembly of engines. There will be emphasis on inspection, measuring, and comparing worn and rebuilt parts.

| | | |
|--|--|--|
|  Zero Textbook Cost |  Additional Fees Apply |  Late Start Classes |
|  Live Stream |  Competency Based Education |  Linked Section |

Testing equipment will be used during in-car engine condition diagnosis. Also included will be minor machining operations that are used in engine rebuilding and repairing.

**AUTO-69
Ev Tech Prep: Fundam of Elect Vehicle Te**

2.0 units:
27.0 hours lec,
27.0 hours lab.

This course provides a foundational understanding of electricity and the essential principles necessary for servicing and repairing electric and hybrid vehicles. Students will learn the theory and operation of various

| | |
|---|--|
|  Umoja |  Puente Program |
|---|--|

EV systems, including battery technology, electric drive systems, and charging infrastructure, with an emphasis on the various components related to these systems. The course also covers the tools and equipment used in electric vehicle maintenance and repair, with a strong focus on safety protocols for working with high-voltage systems. Through a combination of classroom instruction and hands-on laboratory experiences, students will be well-prepared for advanced training in EV diagnostics and repairs within the evolving electric vehicle industry.

Advanced Automotive Service and Document

4.0 units:

54.0 hours lec,

54.0 hours lab.

Prerequisite: *Required* Previously taken AUTO-36, AUTO-58 (formerly AUTO-43), AUTO-61 (formerly AUTO-41), and AUTO-64 (formerly AUTO-46) is required.

This college-level course offers advanced training for aspiring automotive technicians, focusing on real-world applications in live vehicle work environments. Students will delve into the intricacies of automotive repair, with an emphasis on the flat rate payment system commonly utilized in the industry. Additionally, students will learn essential skills in documenting their work, ensuring accuracy, professionalism, and compliance with industry standards. Through a combination of hands-on experience and theoretical instruction, participants will develop the expertise needed to excel as proficient automotive technicians in today's dynamic automotive service industry.

BIOL-04A
Fundamentals of Biology: The Cell and Evolution

4.0 units:
54.0 hours lec,
54.0 hours lab.
Prerequisite: *Required* Previously taken CHEM-04A is required.
Advised Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra is advised.
Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This course is a study of the principles of biology. Areas of study will include aspects of the philosophy of science, the chemistry of life, the cell and cellular organization, biological membranes, energy transfer including photosynthesis and cellular metabolism, mitosis/meiosis, and molecular biology. Genetics will include Mendelian genetics, human genetics and Biotechnology. This course is intended for science majors for pre-medical, pre-veterinarian, pre-dental, pre-optometry, and pre-pharmacy majors.

Albano, V Online

**BIOL-C1000
Introduction to Biology With Lab**

4.0 units:
54.0 hours lec,
54.0 hours lab.

Begins Fall 2026. Effective Fall 2026, BIOL-C1000 replaces BIOL-01 This combined lecture and laboratory course provides the non-biology major with an introduction to living things and their environment. Students use experimentation and investigation to develop important critical thinking skills. Students learn about the process of science, the building blocks of life, the role and regulation of DNA, how populations change over time, the movement of energy within and between life forms, and how species interact with each other and their surroundings. By the end of the course, students will be able to apply an understanding of biological concepts to current issues and their impacts on society.

COMM**

**COMM-14
Small Group Communication**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025. Effective Fall 2025, COMM-14 replaces COMM-04. This course emphasizes the principles of public speaking within a democratic society, focusing on the foundational knowledge and practice of delivering effective informative and persuasive messages in a small group context. Students develop speaking, participation, and leadership skills through faculty supervised and faculty-evaluated presentations. The course introduces rhetorical theory, small group theory, and methods of rhetorical analysis, enabling students to discover, develop, and critically analyze ideas and information in public discourse. Students also explore and evaluate group communication processes, including problem-solving, conflict management, decision-making, and leadership, while considering the historical roots and key rhetorical theories that ground the study of

public speaking.

CPSC-05A Application Development and Programming

3.0 units:
36.0 hours lec,
54.0 hours lab.

Prerequisite: *Advised* Previously taken CPSC-01 is advised.

Begins Fall 2025 An introduction to the fundamental concepts and models of application development including the basic concepts of program design, data structures, programming, problem solving, programming logic, and fundamental design techniques for event-driven programs. Hands-on experience with a modern application programming language and development platform.

advised.

Begins Fall 2025 This course introduces the discipline of computer science through the use of the Java programming language, offering foundational knowledge of computer organization and an introduction to software engineering principles. Topics include program design methodologies, development practices, coding style, testing, documentation, and a brief introduction to artificial intelligence (AI). Students will explore algorithms, control structures, methods, and elementary data structures, applying these skills to solve real-world problems through hands-on programming. This course is a core course in the Computer Science AS-T degree.

CPSC-07 Discrete Structures

3.0 units:
45.0 hours lec,
27.0 hours lab.

Prerequisite: *Required* Take CPSC-06 or CPSC-14.

Begins Fall 2025 This course is an introduction to the discrete structures used in Computer Science with an emphasis on their applications. Topics covered include: functions and recursion, relations and sets; basic logic; proof techniques; basics of counting; graphs and trees; and discrete probability.

Merced Campus

CPSC-14 C++ Programming

3.0 units:
36.0 hours lec,
54.0 hours lab.

Prerequisite: *Advised* Previously taken CPSC-05A or CPSC-22 is advised.

Begins Fall 2025 This is the entry-level comprehensive concepts course for computer science majors and recommended for science and math majors. Algorithm design, logic diagrams, problem solving, coding and debugging are emphasized using a structured language such as C++. Skills practiced include testing, documentation, and a brief introduction to artificial intelligence (AI). This foundational course lays the groundwork for advanced computational thinking and programming skills, serving as a crucial stepping stone for future studies and careers in technology and research. This is a core course for the Computer Science AS-T degree.

**CPSC-39
Programming Concepts and Methodology II**

4.0 units:
54.0 hours lec,
54.0 hours lab.
Prerequisite: *Required* Take CPSC-06 or ENGR-14 or CPSC-14. Minimum grade C,P;

Begins Fall 2025 This course is a continuation course in Computer Science which introduces further aspects of software design and implementation. Abstract data types, fundamental data structures and associated algorithms: lists, stacks, queues, and hash tables. Students will be expected to design, implement, test and analyze a number of programs. This course advances students' understanding of software design, challenging them to create and refine efficient programs using advanced data programming, artificial intelligence (AI) and team-work to solve real-world problems. This is a core course in the Computer Science AS-T degree.

Computer Architecture and Organization**

3.0 units:
36.0 hours lec,
54.0 hours lab.
Prerequisite: *Required* Take CPSC-06 or ENGR-14 or CPSC-14; Minimum Grade C, P;

Begins Fall 2025 The organization and behavior of real computer systems at the assembly-language level. The mapping of statements and constructs in a high-level language onto sequences of machine instructions is studied, as well as the internal representation of simple data types and structures. Numerical computation is examined, noting the various data representation errors and potential procedural errors. This course includes a hands-on, project-based learning approach that allows students to directly interact with computer hardware, fostering a deeper understanding of machine-level operations and data structures.

**CTIS-05
AI-Driven It Project Management**

3.0 units:
27.0 hours lec,
81.0 hours lab.

Begins Fall 2025 In this course, students will learn essential project man-

agement concepts and skills, including project integration, scope, time, cost, quality, human resources, communications, risk, and procurement, with a specific focus on the information technology (IT) environment. The course will also introduce students to how artificial intelligence (AI) can enhance project management practices by automating routine tasks, providing predictive insights, and improving resource allocation. Students will explore AI-driven project management tools and techniques, gaining hands-on experience with technologies that support data-driven decision-making and workflow optimization. Additionally, this course prepares students for project management certification exams, such as CompTIA Project+ or Certified Associate in Project Management (CAPM), providing a solid foundation for those pursuing professional credentials in project management.

**CRIM-35
Narcotics**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously take CRIM-02 is advised.
Begins Fall 2025 This course is a review of the laws restricting and governing the use of narcotics and dangerous drugs, the psychological and physiological effects of the use and addiction to narcotics and dangerous drugs, and the procedures used to combat the problems facing law enforcement and society in relation to narcotics and dangerous drugs.

Online

42486
Framstad, R Online

**CRIM-42C
Reserve Officer Module Level 3**

7.0 units:
108.0 hours lec,
54.0 hours lab.
Begins Fall 2025 Limitation on Enrollment: Students must be cleared by the California Department of Justice (DOJ) to participate. DOJ clearance is evaluated through the LiveScan fingerprint process. This clearance will reveal a qualifying/disqualifying criminal history background. In addition, there must be an absence of medical conditions that would prevent strenuous physical training during arrest and control methods training, use of force, and crimes in progress. A physician's clearance indicating good physical health must be presented to the instructor at the first class meeting. Students must possess a California Driver's License. This course meets the requirements of the State of California Commission on Peace Officer Standards and Training (POST). It covers topics such as: ethics, professionalism, the criminal justice system, criminal law, property crimes, crime against persons, laws of arrest, laws of search and seizure, investigative report writing, vehicle operations, use of force, crimes in progress, traffic enforcement, preliminary investigation, custodial issues, arrest and control methods including baton, first aid, CPR, chemical agents, information systems, and cultural diversity. In accordance with POST regulations, students missing more than 5% of class time will not be certified in this course. Students will participate in one or more learning activities from the POST-developed Instructor's Guide to Learning Activities for Leadership, Ethics and Community Policing (December 2005) or other comparable sources regarding leadership to consist of 3 hours per week.

ELCT-55 Electrical Conduit Bending Theory and Techniques

1.0 units:

9.0 hours lec,

27.0 hours lab.

Prerequisite: *Advised* Previously taken INDT-35 and INDT-49 is advised.

Begins Fall 2025 This course provides a comprehensive overview of conduit bending, fabrication procedures and methods. It will develop basic competencies in electrical apprentices and beginning learners. It will discuss hand bending for 90 degree bends, offsets and kicks, saddles and corner offsets, segmented bends, threaders, benders and other conduit types. These conduit types will include electrical metallic tubing (EMT), galvanized rigid conduit (GRC), rigid aluminum, intermediate metallic conduit (IMC), various poly-vinyl chloride (PVC), and flexible plastic and metallic conduit. Wiring in accordance with the National Electrical Code (NEC) will be stressed. Students may petition, through the Office of Admissions and Records, to retake the course as the National Electrical Codes change.

Emergency Medical Care EMER

EMER-20 Advanced Paramedic

11.5 units:

207.0 hours lec.

Prerequisite: *Required* Take EMER-10 and EMER-11; Minimum Grade C,P;

Required Take EMER-21

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 Limitation on Enrollment: Health Screening Clearance Live Scan clearance. Maintenance of current NREMT. Maintenance of current BLS Healthcare Provider card. Based upon State and Federal Regulations, CA Title 22. Description: This theory course is the application of theory and skills in a wide variety of sick and injured clients in the pre-hospital setting. This course covers care of medical patients, trauma patients, special populations including obstetrical, pediatric, geriatric and mental health patients. This course is part of a program of study to prepare paramedics as described in California Code of Regulations, Title 22, Division 9, Chapter 4 and lists the required hours and subjects to be covered as set forth by the Department of Transportation curriculum.

EMER-21 Advanced Paramedic Lab

1.5 units:

81.0 hours lab.

Prerequisite: *Required* Take EMER-10 and EMER-11; Minimum Grade C,P;

Required Take EMER-20
 Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 Limitation on Enrollment: Health Screening Clearance Live Scan clearance. Maintenance of current NREMT certification. Maintenance of current BLS Healthcare Provider card. Based upon State and Federal Regulations, CA Title 22. Description: This course is the co requisite for Advanced Paramedic (Paramedic II) and occurs in the skills lab or simulation lab. The student will practice and master skills that will allow the student to meet the clinical performance objectives of the program. Practice and competency testing is the focus of this course and will include physical assessment, care of the medical patient, special populations' needs, trauma management, communication with EMS base station and medical director, implementing safety precautions for hazardous materials exposure and manage the scene of an emergency. Students will fulfill 4.5 total lab hours per week by arrangement.

**ENGL-C1001
Critical Thinking and Writing**

3.0 units:
54.0 hours lec.

Prerequisite: *Required* Previously taken ENGL-C1000 (formerly ENGL-01A) and passed with a minimum grade of C.

Begins Fall 2025. Effective Fall 2025, ENGL-C1001 replaces ENGL/PHIL-13 In this course, students receive instruction in critical thinking for purposes of constructing, evaluating, and composing arguments in a variety of rhetorical forms, using primarily non-fiction texts, refining writing skills and research strategies developed in ENGL C1000 College Reading and Writing (C-ID ENGL 100) or similar first-year college writing course. Readings feature mostly non-fictional essays and books that reflect diverse cultural perspectives on a variety of contemporary issues, such as those involving race, ethnicity, and gender.

**ETHN-15
Ethnicity and Culture**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 Ethnicity and Culture examines the legacy of racial and ethnic inequalities in the United States, the sources of resistance and transformation, and the contemporary impacts of these changes on society. This is an interdisciplinary course that surveys and facilitates meaningful conversations about specific disadvantaged groups and encourages active engagement in overcoming the social struggles of these historically disadvantaged groups in the United States. It focuses on the experiences of Native Americans, African Americans, Latinx Americans, and Asian Americans, spanning from past to present, from politics to social reform, allowing students to identify similar patterns underlying the dynamics of discrimination.

**ETHN-23
Chicana/O American History and Culture**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This interdisciplinary course examines the social, political, and cultural roots of Chicana/os, tracing history from their Indigenous, African, and Spanish beginnings to the present. It analyzes race, ethnicity, and culture, in relation to Chicana/o communities and their social justice movements and struggles. The course provides a basis for a better understanding of the socio-economic, cultural, and political conditions among Chicana/os through historical consideration of the creation and development of Ethnic Studies programs in the United States. Special emphasis is also placed on the contributions of Chicana/o scholars, artists, and activists by using an intersectional decolonial lens to explore the effects of (neo)colonialism, imperialism, white supremacy, Eurocentrism, and racism.

**Fire Technology
FIRE**

**FIRE-24
Work Experience in Fire Technology**

1.0 units:

Begins Fall 2025 This course enables students to earn college credit for learning or improving skills or knowledge on-the-job in the field of fire science. Fifty-four (54) hours, either paid or volunteer, are required per unit of credit attempted. Students must have an established work site in

fire science prior to enrolling in the course.

Merced Campus

43810

- Roe, D

Comments: Students registered for FIRE 24, Work Experience in Fire Technology, must have a paid or volunteer work position in place at the time of registration. This 1 unit course is designed for students majoring in Fire Technology and whose work is related to Criminology and requires completion of 54 hours.

**FIRE-30
Fire Protection Organization**

3.0 units:
54.0 hours lec.

Begins Fall 2025 This course provides students with a comprehensive overview of the fire service, its history, traditions, and evolving role in modern society. Using Introduction to Fire Protection and Emergency Services, Seventh Edition as the primary text, students will explore the organization and function of fire departments at the local, state, and federal levels, as well as public and private fire protection systems. Topics include the chemistry and physics of fire, fire prevention, fire protection systems, emergency operations, incident command, firefighter safety, and career opportunities within the fire service. Emphasis is placed on understanding the interrelationship between fire prevention, suppression, investigation, and emergency services, preparing students for further study and future careers as fire service professionals.

**FIRE-31
Fire Behavior and Combustion**

3.0 units:
54.0 hours lec.

Begins Fall 2025 This course introduces students to the fundamental principles of fire behavior and combustion, providing a scientific foundation for understanding how and why fires start, spread, and are controlled. Students will study the physical and chemical properties of fire, the combustion process, ignition, heat transfer, flame spread, and the stages of fire development. The course also examines fire dynamics in different fuel types and building environments, as well as the influence of oxygen, fuel, heat, and chemical reactions on fire growth. Emphasis is placed on applying these concepts to firefighter safety, suppression strategies, and community risk reduction. Fire 31 is a core requirement in the Merced College Fire Technology Program and prepares students for more advanced fire science courses and professional fire service training.

**FIRE-32
Fire Prevention Technology**

3.0 units:
54.0 hours lec.

Begins Fall 2025 This course provides students with a comprehensive study of fire prevention as the foundation of community risk reduction and firefighter safety. Students will explore the history and philosophy of fire prevention, model codes and standards, inspection practices, and the role of fire prevention in modern fire protection organizations. Topics include building and fire codes, fire protection systems, plan review, fire investigation, and public education programs. Emphasis is placed on the relationship between fire prevention and community safety, as well as

the responsibilities of fire service professionals in reducing the risk of fire through proactive measures. Fire 32 is a required course in the Merced College Fire Technology Program and prepares students for careers in fire prevention, inspection, investigation, and fire protection systems management.

**FIRE-33
Fire Protection Equipment and Systems**

3.0 units:
54.0 hours lec.

Begins Fall 2025 This course introduces students to the design, operation, inspection, and maintenance of fire protection equipment and systems used in modern fire protection and life safety. Topics include water supply systems, standpipes, sprinklers, fire pumps, special extinguishing systems, detection and alarm systems, and portable fire extinguishers. Students will examine how these systems function individually and as part of an integrated fire protection plan, with emphasis on their role in safeguarding life and property while supporting fire service operations. Using current fire protection standards and codes, students will learn the fundamentals of system testing, maintenance, and acceptance procedures. Fire 33 is a core requirement in the Merced College Fire Technology Program and prepares students for careers in suppression, inspection, prevention, and fire protection system management.

**FIRE-34
Building Construction for Fire Protection**

3.0 units:
54.0 hours lec.

Begins Fall 2025 This course examines the principles of building construction as they relate to fire protection and firefighter safety. Students will study construction methods, materials, and structural design features, with emphasis on how buildings respond under fire conditions. Topics include the five types of construction, fire resistance, occupancy classifications, structural collapse hazards, and the relationship between building design and fire behavior. Students will also analyze historic fires and case studies to understand the impact of construction on fire spread, suppression strategies, and firefighter survival. Fire 34 is a required course in the Merced College Fire Technology Program and provides students with the knowledge needed to evaluate building hazards, support fire prevention, and operate safely in fire suppression and rescue operations.

**FIRE-40
Principles of Fire and Emergency Service Services Safety and Survival**

3.0 units:
54.0 hours lec.

Begins Fall 2026 This course introduces students to the basic principles

of firefighter safety and survival as identified by national initiatives to reduce firefighter line-of-duty injuries and deaths. Students will examine risk management, accountability, medical and fitness standards, training and certification, response protocols, and safety-related grants and resources. Topics include the 16 Firefighter Life Safety Initiatives, investigation of firefighter fatalities and near misses, and the integration of safety practices into fireground operations and organizational culture. Emphasis is placed on developing a personal and professional commitment to firefighter health, wellness, and survival while promoting community safety. Fire 40 is a required course in the Merced College Fire Technology Program and prepares students to recognize, prevent, and respond to safety hazards in the fire service.

**FIRE-43
Fire Investigator**

3.0 units:
54.0 hours lec.

Fire Investigator is designed to equip students with the foundational knowledge and practical skills necessary to conduct thorough and legally sound fire origin and cause investigations. Upon successful completion of this course, students will be able to identify and analyze fire patterns, recognize indicators of incendiary and accidental fires, apply scientific methods in fire scene examination, and properly collect, preserve, and document physical evidence. Additionally, students will develop the ability to interpret burn indicators, conduct witness interviews, and prepare comprehensive investigative reports suitable for legal proceedings. This course aligns with nationally recognized standards and supports students pursuing careers in fire investigation, law enforcement, insurance, and other fire service disciplines focused on determining fire causes and preventing future incidents.

54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This course is a review of the history of women in America covering the period from 1600 to the present. The emphasis of the course is a multicultural and multi-class approach, examining the problems of women of various ethnicities, races and classes in America. The formation of gender roles is discussed along with an analysis of women's political and economic status across the period. The course will analyze women's struggle for equal rights, the impact of women's participation in significant events in American history, and regional and cultural differences in the way women are treated in society. Emphasis will be on California local and state governments, their operations and how women have politically participated in California.

HIST-20
History of Asian Americans

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This course is an interdisciplinary study of Asian Americans from a historical, political, sociological, and aesthetic perspective. Social emphasis is placed on the contributions of Asian Americans scholars and activists by using an intersectional lens to explore the effects of colonialism, imperialism, white supremacy, and racism. This course offers pragmatic historical and political evaluations that aim to introduce students interested in Ethnic Studies, Asian American Studies, Gender Studies, and social movements.

HIST-23 Chicana/O American History and Culture in the South-west US

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This interdisciplinary course examines the social, political, and cultural roots of Chicana/os, tracing history from their Indigenous, African, and Spanish beginnings to the present. It analyzes race, ethnicity, and culture, in relation to Chicana/o communities and their social justice movements and struggles. The course provides a basis for a better understanding of the socio-economic, cultural, and political conditions among Chicana/os through historical consideration of the creation and development of Ethnic Studies programs in the United States. Special emphasis is also placed on the contributions of Chicana/o scholars, artists, and activists by using an intersectional decolonial lens to explore the effects of (neo)colonialism, imperialism, white supremacy, Eurocentrism, and racism.

MW 02:00p-02:50p Halpin, W ATHL-POOL

**KINE-24C
Swimming for Fitness**

1.0 units:
54.0 hours lab.

Prerequisite: *Advised* Previously taken KINE-24B is advised.

Begins Fall 2025 This course is designed for the swimmer who has mastered the basic skills and is ready for more advanced swimming techniques. Emphasis is placed on the competitive swimming strokes, turns, starts, and principles of training.

Merced Campus

01006
TTh 10:30a-11:55a Halpin, W ATHL-POOL

**KINE-30
Group Exercise**

1.0 units:
54.0 hours lab.
Begins Fall 2025 Limitation on Enrollment: Good general health; absence of medical conditions that would prevent planned physical activity. This course uses a variety of group exercise to improve cardiorespiratory fitness, muscular fitness, and flexibility. Strenuous physical activity is required. Good general health advised.

Merced Campus

01007
MW 12:35p-02:00p Cruz, O ATHL-FHA

**KINE-31
Aerobic Training**

1.0 units:
54.0 hours lab.
Begins Fall 2025 Limitation on Enrollment: Good general health; absence of medical conditions that would prevent planned physical activity. This class uses a variety of aerobic activities to improve cardio-respiratory endurance. Machines used include stair climber, treadmills, cycles, rowing, recumbent bikes and cross trainers. Emphasis will be placed on monitoring physiological response to exercise and teaching proper warm-up, training at target rate, and cool down. A pre-test and post-test will be administered to evaluate fitness level and monitor improvement.

Merced Campus

01008
MW 11:00a-12:25p GYM-4

01009
TTh 11:00a-12:25p Casey, J GYM-4

**KINE-32
Circuit Weight Training**

1.0 units:
54.0 hours lab.
Begins Fall 2025 Advisory: Good general health; absence of medical conditions that would prevent planned physical activity. The equipment provided for both cardiovascular endurance and strength training (single station exercise machines) in the fitness lab are designed to exercise all major muscle groups for a well-rounded fitness program with the non-athletic in mind. Circuit weight training has proven beneficial for people of all ages and genders, who are interested in weight training, with the emphasis on increasing muscle tone and cardiovascular fitness.

Merced Campus

01011

MW 11:00a-12:25p Borba, F GYM-5

**KINE-35
Flexibility and Cardiovascular Fitness**

2.0 units:
108.0 hours lab.
Begins Fall 2025 Limitation on Enrollment: Good general health; absence of medical conditions that would prevent planned physical activity. Practical applications of all aspects of flexibility and cardiovascular conditioning are presented and performed. A system of class presentation is used to insure a gradual, safe, and total physiological adaptation of the student to exercise. A gradual, progressive, safe, and eventually total body fitness experience is pursued. Geriatric fitness adaptations are emphasized.

Music: Applied
MUSA

MUSA-20
Applied Music

0.5 units:
27.0 hours lab.

Prerequisite: *Required* Take one course in each group below:
Group 1: Take MUSE-41, MUSE-42, MUSE-43, or MUSE-44; Group 2: Take MUST-01, MUST-02, MUST-03, or MUST-04; Group 3: Take MUST-05, MUST-06, MUST-07, or MUST-08;

Begins Fall 2025 Enrollment by audition and interview with the instructor. Instructor signature is required to enroll in the course. This course provides private individual instruction in voice, piano, wind, or string instruments at a level equivalent to that of a music major in the appropriate term of the their freshman or sophomore year of music studies. It requires one lesson per week with a private instructor approved by the music department faculty. A minimum of 14 weekly lessons must be verified. In addition, this course includes a weekly group workshop detailing various aspects of music performance. A jury examination by the music department faculty is required at the conclusion of the course. This course can be repeated three times and is intended for music majors only. Students enrolled in this course are required to be in at least one ensemble and one theory class concurrently.

Merced Campus

52710
Th 02:15p-03:05p Davidson, B MUS-2

Comments: This class meets in-person and may require online access. Students must audition before enrolling in this course. Students enrolling in MUSA-20 must also enroll in the following co-requisites: choose one course in each sub group: MUSE-41, MUSE-42, MUSE-43 or MUSE-44; and MUST-01, MUST-02, MUST-03, MUST-04; and MUST-05, MUST-06, MUST-07, MUST-08. MUSA-20 Applied Music: (18) semester hours will be fulfilled by weekly 1-hour meetings on Thursdays from 2:00-2:50pm. (9) semester hours will be fulfilled by individual lessons and juries, time TBA. For more information contact brandilyn.davidson@mccd.edu.

MUSA-21A
Voice I

3.0 units:
54.0 hours lec.

Begins Fall 2025 Limitation on Enrollment: Must demonstrate the ability to match pitch; see instructor. This is a course in elementary voice training. It emphasizes posture, diaphragmatic-intercostals breathing, breath support, breath control, tonal placement, articulation, stage presence, and overcoming performance anxiety. Critical evaluation, demonstration, and written reviews will be required. A basic understanding of music fundamentals and reading sheet music is not required, but highly desirable.

**Music: General
MUSG**

**MUSG-10
Music Fundamentals**

3.0 units:
54.0 hours lec.
Begins Fall 2025 This course is a study of music fundamentals throughout history, including principles and procedures of rhythm, pitch notation, musical symbols, scales, key signatures, intervals, and diatonic chords. Students will study the historical and cultural development of various music notation styles and fundamentals. Students will apply knowledge learned in class to interpret and critique music with regard to its historical and cultural context. The course applies to musicians who have learned to play/sing without training in fundamentals and to beginners in music. This course is open to all students.

**MUSG-13
Jazz Music History**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This course presents the history of jazz music from 1890 to the present, including an introduction and analysis of significant jazz artists and their contributions to this American art form. Particular emphasis is given to developing listening skills appropriate to the understanding and appreciation of jazz. In addition, the instructor will discuss international influences and the development of jazz as a world musical form. This course is a listener's guide to the appreciation of jazz and incorporates principles of structure, expression, instrumentation, cultural and social issues integral to jazz music.

REGN-44

Advanced Medical Surgical Nursing and Psychiatric Mental Health Nursing

9.0 units:

72.0 hours lec,
270.0 hours lab.
Prerequisite: *Required* Take REGN-34; Minimum grade C,P;
Begins Fall 2025 Limitation on Enrollment: Enrollment in the REGN program 4th semester. Registered Nursing 44 builds on REGN-34, focusing on complex medical/surgical conditions of the high acuity patient and the patient at various levels of mental health promotion and mental illness management. Builds on nursing theory, communication, collaboration, and critical thinking skills necessary for safe, patient-centered nursing care to developmentally and culturally diverse patient populations. Incorporates best practices, professional standards, and legal and ethical responsibilities of the professional nurse as applied in the acute care and mental health settings incorporating all aspects of the professional nurse. Application of knowledge and skills occurs in the acute care and community settings to facilitate an effective transition from student to registered nurse.

Sociology SOCI

SOCI-02 Contemporary Social Problems

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2026. Formerly SOC-02. SOC-02 introduces fundamental theories and methodologies employed in the study of contemporary social problems. An emphasis is placed on analysis of causes and possible solutions to such problems as poverty, discrimination, crime, delinquency, alcoholism, drug abuse, suicide, family, and politics. A global perspective focuses on the international influences and contributions to various contemporary social problems.

SOCI-04 Introduction to Gender

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2026. Formerly SOC-04. Sociological analysis of the social construction of gender, masculinity, and femininity historically and cross-culturally. This course examines the debates on sex and gender. It analyzes the impact of economic and political change on gender expectations and practices. It focuses on macro-analyses of how institutions shape gender and microanalysis of how individuals are socialized and how they "do" and practice gender.

Introduction to Sociology**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.
Begins Fall 2026. Effective Fall 2026, SOCI-C1000 replaces SOC-01 This course introduces students to Sociology: the study of people, groups, and institutions that shape people's lives. Through a mix of theory, research, and real-world examples, students explore key sociological concepts like culture, inequality, power, collective action, and social change. With content reflecting diverse histories and lived experiences, students make connections between their lives and the social forces that influence individual opportunities and choices. Students in this course will develop a critical lens that allows them to better understand and transform themselves and society.

**Vocational Nursing
VOCN**

**VOCN-40
Foundations of Nursing**

11.0 units:
90.0 hours lec,
324.0 hours lab.
Prerequisite: *Required* Take ALLH-67, NUTR-10, VOCN-46A and Take BIOL-16 or BIOL-50; and Take corequisite: VOCN-46B and VOCN-47A. Minimum grade C,P;
Advised Take VOCN-46B and VOCN-47A

Begins Fall 2025 Limitation on Enrollment: Enrollment in the Vocational Nursing Program; current CPR Card; physical; immunizations; a negative TB skin test or negative chest x-ray within the last 6 months; background check and urine drug screen. Proof of completion of an educational course of study through the 12th grade or evidence of completion of equivalency thereof (C2530-VN Practice Act). This course covers theory, principles, and practice of fundamental nursing skills needed to care for adult patients. Health and its preservation is stressed. Interpersonal relationships, community resources, and prevention and treatment of disease are studied. Clinical experience is integrated with classroom theory, and is provided at affiliating hospitals, under direct supervision of Merced College nursing instructors. This is the first semester of nursing theory of a three-semester sequence. Clinical experience is integrated.

Fall 2026 Honors Classes

HONORS

Communication Studies COMM

COMM-C1000H Introduction to Public Speaking-Honors

3.0 units:
54.0 hours lec,

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is recommended.

Begins Fall 2025. Effective Fall 2025, COMM-C1000H replaces COMM-01H In this course, students learn and apply foundational rhetorical theories and techniques of public speaking in a multicultural democratic society. Students discover, develop, and critically analyze ideas in public discourse through research, reasoning, organization, composition, delivery to a live audience, and evaluation of various types of speeches, including informative and persuasive speeches. This is an honors course. (Approved for C-IDCOMM 110) Students taking this class must be enrolled in the Honors Program. See the college catalog for a description of enrollment requirements.

Merced Campus

21221
TTh 09:20a-10:45a Bonstein, J IAC-108

Comments: This is an HNRS section and requires the HNRS Coordinator approval. Please contact HNRS Coordinator Prof. Jacqueline Alvarez @ jacqueline.alvare778@mccd.edu for instructor consent.

History HIST

HIST-C1001H United States History to 1877 - Honors United States Constitution

3.0 units:
54.0 hours lec,

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) and ENGL-C1001 (formerly ENGL-13, PHIL-10) or ENGL-C1001H (formerly ENGL-13H, PHIL-13) is advised.

Begins Fall 2026. Effective Fall 2026, HIST-C1001H replaces HIST-17AH Limitation on Enrollment: Enrollment in the Honors Program. (See the College Catalog for a description of enrollment requirements). This course is a historical survey of the United States, from Indigenous North America to the end of Reconstruction. The course also introduces students to historical reasoning skills. This is an honors course.

Merced Campus

51037
MW 12:35p-02:00p Lorenz, M IAC-108

Honors HNRS

HNRS-40B Honors Seminar: Native American Philosophy

2.0 units:
36.0 hours lec,

Begins Fall 2025 Limitation on Enrollment: Enrollment in the Honors Program. This course will focus on the in-depth discussion and analysis of Native American philosophy, politics, and music.

Merced Campus

21407
W 01:00p-03:05p Winters, A IAC-146

Comments: This is an Honors section that requires Honor's Coordinator approval @ jacqueline.alvare778@mccd.edu.

Humanities HUM

HUM-01H Honors Studies in Humanities: Ancient Through Renaissance

3.0 units:
54.0 hours lec,

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 The principal aim of this course is to examine human existence and cultural endeavor from the earliest ancient civilizations through the Renaissance. Students will examine developments in the fine arts, literature, philosophy, religion, and the sciences from a variety of cultures, both Western and non-Western. There will be an emphasis on collaborative learning, research, and writing.

Merced Campus

21408
TTh 09:20a-10:45a Winters, A B&E-125

Comments: This is an HNRS section that requires the HNRS Coordinator consent. Please contact Professor Jacqueline Alvarez @ jacqueline.alvare778@mccd.edu or (209)384-6363.

Political Science POLS

POLS-C1000H American Government and Politics-Honors

3.0 units:
54.0 hours lec,

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) or ENGL-C1001 (formerly ENGL/PHIL-13) is advised.

Begins Fall 2025. Effective Fall 2025, POLS-C1000H replaces POSC-01H This course is an introduction to government and politics in the United States and California. Students examine the constitutions, structure, and operation of governing institutions, civil liberties and civil rights, political behaviors, political issues, and public policy using political science theory and methodology. This is an honors course. Emphasis is placed upon various roles of the national and state government, constitutional rights and obligations of citizens, and the evolution and development of California state political Institutions.

**BIOL-06
Environmental Science**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This introductory course examines Earth as an ecosystem composed of biological, chemical and physical processes with emphasis on man's impact on the planet. Topics include the structure and function of ecosystems, biodiversity, the impact of industrialization and urbanization, energy, populations, resources, pollution, pesticides and risk/benefit assessment.

General Human Anatomy**

4.0 units:
36.0 hours lec,
108.0 hours lab.

Prerequisite: *Required* Complete one course from BIOL-01 or BIOL-02 or BIOL-04A and passed with a minimum grade of C or received an equivalent.

Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This course is an intensive study of the structure of the human body. Consideration is given to the skeletal, muscular, circulatory, respiratory, digestive, excretory, reproductive, and nervous systems. Special emphasis is placed on the needs of students majoring in biology, nursing, physical education, and medical sciences.

Microbiology**

4.0 units:
36.0 hours lec,
108.0 hours lab.

Prerequisite: *Required* Complete all groups: Group 1: Complete one course from BIOL-01 or BIOL-02 or BIOL-04A; and Group 2: Complete CHEM-02A;
 Advised Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This is an introductory course familiarizing students with basic laboratory techniques and fundamental topics of microbiology. Laboratory work includes aseptic techniques, staining procedures, biochemical characterization, serology, and DNA technology used in the identification of microorganisms. Lecture topics consist of a historical overview, genetics, metabolism, cell physiology, growth requirements, immunology, and host-parasite interactions between humans and bacteria, viruses, protozoa, and helminthes. The course is designed for students in any of the allied health professions.

**BIOL-C1000
Introduction to Biology With Lab**

4.0 units:
 54.0 hours lec,
 54.0 hours lab.

Begins Fall 2026. Effective Fall 2026, BIOL-C1000 replaces BIOL-01 This combined lecture and laboratory course provides the non-biology major with an introduction to living things and their environment. Students use experimentation and investigation to develop important critical thinking skills. Students learn about the process of science, the building blocks of life, the role and regulation of DNA, how populations change over time, the movement of energy within and between life forms, and how species interact with each other and their surroundings. By the end of the course, students will be able to apply an understanding of biological concepts to current issues and their impacts on society.

BUSN**

**BUSN-756
Introduction to Office Occupations**

0.0 units:

Begins Fall 2025 This entry-level course is designed for the adult student who desires vocational training in the field of Office Occupations. This course will introduce students to computers and the Windows software environment. Students will learn to identify the components of desktop screens and learn to execute basic computer commands. The class will also cover keyboarding, email, basic business skills and downloading files. The course is project-based to develop student entry-level skill proficiency in using Microsoft Office Word, Power Point, Excel and Access. Various simulations reflective of real life experiences will be a major part of the instructional units. The course is 384 to 480 hours in duration and is open entry format.

Communication Studies
COMM

COMM-14
Small Group Communication

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.
Begins Fall 2025. Effective Fall 2025, COMM-14 replaces COMM-04. This course emphasizes the principles of public speaking within a democratic society, focusing on the foundational knowledge and practice of delivering effective informative and persuasive messages in a small group context. Students develop speaking, participation, and leadership skills through faculty supervised and faculty-evaluated presentations. The course introduces rhetorical theory, small group theory, and methods of rhetorical analysis, enabling students to discover, develop, and critically analyze ideas and information in public discourse. Students also explore and evaluate group communication processes, including problem-solving, conflict management, decision-making, and leadership, while considering the historical roots and key rhetorical theories that ground the study of public speaking.

**Ethnic Studies
ETHN**

**ETHN-01
Introduction to Ethnic Studies**

3.0 units:
54.0 hours lec.
Begins Fall 2025 This course provides an introduction to the key concepts, theories, methodologies, and topics in the field of Ethnic Studies. It examines the socioeconomic, historical, cultural, and political conditions shaping the lived experiences and social struggles of Native American, African American, Asian American, and Chicana/Latinx communities in the United States, with an emphasis on self-determination, agency, and anti-racist and anti-colonial movements to build a more just and equitable society.

**ETHN-23
Chicana/O American History and Culture**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.
Begins Fall 2025 This interdisciplinary course examines the social, political, and cultural roots of Chicana/os, tracing history from their Indigenous, African, and Spanish beginnings to the present. It analyzes race, ethnicity, and culture, in relation to Chicana/o communities and

their social justice movements and struggles. The course provides a basis for a better understanding of the socio-economic, cultural, and political conditions among Chicana/os through historical consideration of the creation and development of Ethnic Studies programs in the United States. Special emphasis is also placed on the contributions of Chicana/o scholars, artists, and activists by using an intersectional decolonial lens to explore the effects of (neo)colonialism, imperialism, white supremacy, Eurocentrism, and racism.

FIRE-33

Fire Protection Equipment and Systems

3.0 units:

54.0 hours lec.

Begins Fall 2025 This course introduces students to the design, operation, inspection, and maintenance of fire protection equipment and systems used in modern fire protection and life safety. Topics include water supply systems, standpipes, sprinklers, fire pumps, special extinguishing systems, detection and alarm systems, and portable fire extinguishers. Students will examine how these systems function individually and as part of an integrated fire protection plan, with emphasis on their role in safeguarding life and property while supporting fire service operations. Using current fire protection standards and codes, students will learn the fundamentals of system testing, maintenance, and acceptance procedures. Fire 33 is a core requirement in the Merced College Fire Technology Program and prepares students for careers in suppression, inspection, prevention, and fire protection system management.

FIRE-34

Building Construction for Fire Protection

3.0 units:

54.0 hours lec.

Begins Fall 2025 This course examines the principles of building construction as they relate to fire protection and firefighter safety. Students will study construction methods, materials, and structural design features, with emphasis on how buildings respond under fire conditions. Topics include the five types of construction, fire resistance, occupancy classifications, structural collapse hazards, and the relationship between building design and fire behavior. Students will also analyze historic fires and case studies to understand the impact of construction on fire spread, suppression strategies, and firefighter survival. Fire 34 is a required course in the Merced College Fire Technology Program and provides students with the knowledge needed to evaluate building hazards, support fire prevention, and operate safely in fire suppression and rescue operations.

FIRE-43

Fire Investigator

3.0 units:

54.0 hours lec.

Fire Investigator is designed to equip students with the foundational knowledge and practical skills necessary to conduct thorough and legally sound fire origin and cause investigations. Upon successful completion of this course, students will be able to identify and analyze fire patterns, recognize indicators of incendiary and accidental fires, apply scientific methods in fire scene examination, and properly collect, preserve, and document physical evidence. Additionally, students will develop the ability to interpret burn indicators, conduct witness interviews, and prepare comprehensive investigative reports suitable for legal proceedings. This course aligns with nationally recognized standards and supports students

**Fire Technology
FIRE**

FIRE-30

Fire Protection Organization

3.0 units:

54.0 hours lec.

Begins Fall 2025 This course provides students with a comprehensive overview of the fire service, its history, traditions, and evolving role in modern society. Using Introduction to Fire Protection and Emergency Services, Seventh Edition as the primary text, students will explore the organization and function of fire departments at the local, state, and federal levels, as well as public and private fire protection systems. Topics include the chemistry and physics of fire, fire prevention, fire protection systems, emergency operations, incident command, firefighter safety, and career opportunities within the fire service. Emphasis is placed on understanding the interrelationship between fire prevention, suppression, investigation, and emergency services, preparing students for further study and future careers as fire service professionals.

FIRE-31

Fire Behavior and Combustion

3.0 units:

54.0 hours lec.

Begins Fall 2025 This course introduces students to the fundamental principles of fire behavior and combustion, providing a scientific foundation for understanding how and why fires start, spread, and are controlled. Students will study the physical and chemical properties of fire, the combustion process, ignition, heat transfer, flame spread, and the stages of fire development. The course also examines fire dynamics in different fuel types and building environments, as well as the influence of oxygen, fuel, heat, and chemical reactions on fire growth. Emphasis is placed on applying these concepts to firefighter safety, suppression strategies, and community risk reduction. Fire 31 is a core requirement in the Merced College

**AUTO-36
Automotive Manual Transmissions & Drive Trains**

4.0 units:
54.0 hours lec,
54.0 hours lab.

Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) is required.

Begins Fall 2025 This course is designed for the student without any prior experience in standard transmissions or drive axles. The class will provide technical information required for understanding and repairing of manual transmissions and drive trains. Laboratory exercise will provide the student with proper repair procedures and use of related tools and equipment. Standard transmissions, transaxles, differentials, drivelines, and related components will be covered.

Merced Campus

39403
MTWTh 01:00p-02:40p Weepers, M IT-4B

**AUTO-44
Automotive Air Conditioning, Heating System, Cooling Systems**

4.0 units:
54.0 hours lec,
54.0 hours lab.

Prerequisite: *Required* Previously taken AUTO-54 (formerly AUTO-63) is required.

Begins Fall 2025 This is a basic course in the principles of operation of automotive air conditioning, heating system, and cooling system. The course covers theory, system controls, troubleshooting, service, and repairs. Lab emphasis consists of system diagnosis servicing, repairs, and preventive maintenance on live vehicles.

**AUTO-76
Advanced Automotive Service and Document**

4.0 units:
54.0 hours lec,
54.0 hours lab.
Prerequisite: *Required* Previously taken AUTO-36, AUTO-58 (formerly AUTO-43), AUTO-61 (formerly AUTO-41), and AUTO-64 (formerly AUTO-46) is required.

This college-level course offers advanced training for aspiring automotive technicians, focusing on real-world applications in live vehicle work environments. Students will delve into the intricacies of automotive repair, with an emphasis on the flat rate payment system commonly utilized in the industry. Additionally, students will learn essential skills in documenting their work, ensuring accuracy, professionalism, and compliance with industry standards. Through a combination of hands-on experience and theoretical instruction, participants will develop the expertise needed to excel as proficient automotive technicians in today's dynamic automotive service industry.

 Puente Program

CRIM-42C
Reserve Officer Module Level 3

7.0 units:
108.0 hours lec,
54.0 hours lab.

Begins Fall 2025 Limitation on Enrollment: Students must be cleared by the California Department of Justice (DOJ) to participate. DOJ clearance is evaluated through the LiveScan fingerprint process. This clearance will reveal a qualifying/disqualifying criminal history background. In addition, there must be an absence of medical conditions that would prevent strenuous physical training during arrest and control methods training, use of force, and crimes in progress. A physician's clearance indicating good physical health must be presented to the instructor at the first class meeting. Students must possess a California Driver's License. This course meets the requirements of the State of California Commission on Peace Officer Standards and Training (POST). It covers topics such as: ethics, professionalism, the criminal justice system, criminal law, property crimes, crime against persons, laws of arrest, laws of search and seizure, investigative report writing, vehicle operations, use of force, crimes in progress, traffic enforcement, preliminary investigation, custodial issues, arrest and control methods including baton, first aid, CPR, chemical agents, information systems, and cultural diversity. In accordance with POST regulations, students missing more than 5% of class time will not be certified in this course. Students will participate in one or more learning activities from the POST-developed Instructor's Guide to Learning Activities for Leadership, Ethics and Community Policing (December 2005) or other comparable sources regarding leadership to consist of 3 hours per week.

**CTIS-19
Cyber Ops**

3.0 units:
27.0 hours lec,
81.0 hours lab.

Prerequisite: *Advised* Previously taken CTIS-15 and CTIS-20 is advised.

Begins Fall 2025 This course introduces the core security concepts and skills needed to monitor, detect, analyze, and respond to cybercrime, cyberespionage, insider threats, advanced persistent threats, regulatory requirements, and other cybersecurity issues facing organizations. It also covers how to monitor, detect, and respond to cybersecurity threats, as outlined in the National Institute of Standards and Technology (NIST) Cybersecurity Framework. You will learn security concepts, security monitoring, host-based analysis, network intrusion analysis, and security policies procedures. This course also aligns with the National Initiative for Cybersecurity Education (NICE) Cybersecurity Workforce Framework to support consistent communication language for cybersecurity education, training, and workforce development.

CTIS-21
Introduction to Cyber Security: Ethical Hacking

3.0 units:
36.0 hours lec,
54.0 hours lab.

Prerequisite: *Advised* Previously taken CTIS-15 and CTIS-20 is advised.

Begins Fall 2025 This course that introduces students to the concepts, principles, and techniques, supplemented by hands-on exercises, for attacking and disabling a network within the context of properly securing a network. The course emphasizes network attack methods with the emphasis on student use of network attack techniques and tools and appropriate defenses and countermeasures. Students receive course content information through a variety of methods: lecture and demonstration of hacking tools will be used in addition to a virtual environment. Students experience a hands-on practical approach to penetration testing measures and ethical hacking.

Comments: This 5-week course is held 11/02/26 to 12/11/26.

**Sociology
SOCI**

**SOCI-C1000
Introduction to Sociology**

3.0 units:
54.0 hours lec,

Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.
Begins Fall 2026. Effective Fall 2026, SOCI-C1000 replaces SOC-01 This course introduces students to Sociology: the study of people, groups, and institutions that shape people's lives. Through a mix of theory, research, and real-world examples, students explore key sociological concepts like culture, inequality, power, collective action, and social change. With content reflecting diverse histories and lived experiences, students make connections between their lives and the social forces that influence individual opportunities and choices. Students in this course will develop a critical lens that allows them to better understand and transform themselves and society.

108.0 hours lab.

MTWThF

08:00a-05:00p Blount, R

OFML-MISC

Begins Fall 2025 Limitation on Enrollment: Limitation on enrollment: Enrollment by interview. Instructor signature required. This course covers the interview, rehearsal, and performance period of a production. Students will participate in a show as a stage manager, assistant stage manager, or part of the running crew. They will focus on learning and applying skills in one of the following areas: stage management, scenery, properties, costumes, lighting, sound, or makeup. Understanding the basic concepts, processes, and techniques of technical theatre will deepen students' appreciation of theatre as a collaborative endeavor. Production team members practice leadership and problem-solving skills by role-playing common scenarios encountered during shows. Additionally, students develop textual analysis, research, and notation skills through completing beginning documentation and collection practices.

Comments: Students must be at least 18 years old to enroll in this class. This 14-week class is held from 09/08/26 to 12/11/26. Due to the high demand for this tuition-free program we require all prospective students to attend a mandatory orientation and participate in a lottery system to select the final participants. Please refer to this link to our website <https://www.mccd.edu/schools-programs/adult-education-non-credit/truck-driving/> for a list of future orientation details (dates, times, modalities).

**BIOL-C1000
Introduction to Biology With Lab**

4.0 units:
54.0 hours lec,
54.0 hours lab.

Begins Fall 2026. Effective Fall 2026, BIOL-C1000 replaces BIOL-01 This combined lecture and laboratory course provides the non-biology major with an introduction to living things and their environment. Students use experimentation and investigation to develop important critical thinking skills. Students learn about the process of science, the building blocks of life, the role and regulation of DNA, how populations change over time, the movement of energy within and between life forms, and how species interact with each other and their surroundings. By the end of the course, students will be able to apply an understanding of biological concepts to current issues and their impacts on society.

Introduction to Office Occupations**

0.0 units:

Begins Fall 2025 This entry-level course is designed for the adult student who desires vocational training in the field of Office Occupations. This course will introduce students to computers and the Windows software environment. Students will learn to identify the components of desktop screens and learn to execute basic computer commands. The class will also cover keyboarding, email, basic business skills and downloading files. The course is project-based to develop student entry-level skill proficiency in using Microsoft Office Word, Power Point, Excel and Access. Various simulations reflective of real life experiences will be a major part of the instructional units. The course is 384 to 480 hours in duration and is open entry format.

Comments: Students must be at least 18 years old to enroll in this class. All prospective students are required to attend a mandatory orientation to participate in this tuition-free program. Please refer to this link to our website <https://www.mccd.edu/schools-programs/adult-education-non-credit/medical-assistant/> for orientation details (dates, times, modalities). Managed enrollment - instructor approval required.

**Chemistry
CHEM**

**CHEM-02A
Introductory Chemistry**

4.0 units:
54.0 hours lec,
54.0 hours lab.

Prerequisite: *Advised* Placement as determined by the college's multiple measures assessment process or completion of a course taught at or above the level of intermediate algebra is advised.

Begins Fall 2025 This is an introduction to the general principles of inorganic chemistry, atomic and molecular structure, states of matter, solutions, and radioactivity. The class is designed for students majoring in liberal studies; nursing or agriculture.

Child Development
CLDV

CLDV-01
Child Growth and Development

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.
Begins Fall 2025 Examines the progression of development in the physical, cognitive, social, and emotional domains and identifies developmental milestones for children from conception through adolescence. Emphasis on interactions between biological processes and environmental factors. Students will observe children, evaluate individual differences, and analyze characteristics of development at various stages according to developmental theories. (Approved C-ID CDEV 100)

CLDV-02
Child, Family and Community

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.
Begins Fall 2025 The processes of socialization focusing on the inter-relationship of family, school, and community. Examines the influence of multiple societal contexts. Explores the role of collaboration between family, community, and schools in supporting children's development, birth through adolescence. (Approved C-ID CDEV 110)

Los Banos Campus

CLDV-03
Principles and Practices of Teaching Young Children

3.0 units:
54.0 hours lec.
Prerequisite: *Required* Take CLDV-01
Begins Fall 2025 Historical contexts and theoretical perspectives of developmentally and culturally appropriate practice in early care and education for children birth through age eight. Explores the typical roles and expectations of early childhood educators. Identifies professional ethics, career pathways, and professional standards. Introduces best practices for developmentally and culturally appropriate learning environments, curriculum, and effective pedagogy for young children including how play contributes to children's learning, growth, and development. (Approved for C-ID EVE 110)

Communication Studies
COMM

COMM-14
Small Group Communication

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.
Begins Fall 2025. Effective Fall 2025, COMM-14 replaces COMM-04. This course emphasizes the principles of public speaking within a democratic society, focusing on the foundational knowledge and practice of delivering effective informative and persuasive messages in a small group context. Students develop speaking, participation, and leadership skills through faculty supervised and faculty-evaluated presentations. The course introduces rhetorical theory, small group theory, and methods of rhetorical analysis, enabling students to discover, develop, and critically analyze ideas and information in public discourse. Students also explore and evaluate group communication processes, including problem-solving, conflict management, decision-making, and leadership, while considering the historical roots and key rhetorical theories that ground the study of public speaking.

CRIM-04
Criminal Law

3.0 units:
54.0 hours lec.
Prerequisite: *Required* Previously taken CRIM-02 and passed with a minimum grade of C ---OR--- Concurrently enrolled in CRIM-02
Begins Fall 2025 This course offers an analysis of the doctrines of criminal liability in the United States and the classification of crimes against persons, property, morals, and public welfare. Special emphasis is placed on the classification of crime, the general elements of crime, the definitions of common and statutory law, and the nature of acceptable evidence. This course utilizes case law and case studies to introduce students to criminal law. The completion of this course offers a foundation upon which upper-division criminal justice courses will build. The course will also include some limited discussion of prosecution and defense decision making, criminal culpability, and defenses to crime.

**ETHN-23
Chicana/O American History and Culture**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This interdisciplinary course examines the social, political, and cultural roots of Chicana/os, tracing history from their

Indigenous, African, and Spanish beginnings to the present. It analyzes race, ethnicity, and culture, in relation to Chicana/o communities and their social justice movements and struggles. The course provides a basis for a better understanding of the socio-economic, cultural, and political conditions among Chicana/os through historical consideration of the creation and development of Ethnic Studies programs in the United States. Special emphasis is also placed on the contributions of Chicana/o scholars, artists, and activists by using an intersectional decolonial lens to explore the effects of (neo)colonialism, imperialism, white supremacy, Eurocentrism, and racism.

0.0 units:

Begins Fall 2025 This 204-288 hours course is designed to build the basic academic skills of adult learners in the areas of reading comprehension, language and evidence-based writing, mathematical reasoning, life, physical, and earth sciences, and social science. Special emphasis is placed on analytical reading skills, problem solving, and test preparation. The content of this course is reflective all new modifications to the GED exam. Subject matter included are the areas covered by the GED exam such as science, social studies, literature, mathematics and writing.

Comments: Students must be at least 18 years old to enroll.

**Geography
GEOG**

**GEOG-01
Physical Geography**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This course is a spatial study of the Earth's dynamic physical systems and processes. Topics include: Earth-sun geometry, weather, climate, water, landforms, soil, and the biosphere. Emphasis is on the interrelationships among environmental and human systems and processes and their resulting patterns and distributions. Tools of geographic inquiry are also briefly covered; they may include: maps, remote sensing, Geographic Information Systems (GIS) and Global Positioning Systems (GPS).

TTh 07:45a-09:10a Mendez, J LB-B-107

**HIST-23
Chicana/O American History and Culture in the South-west US**

3.0 units:
54.0 hours lec.
Prerequisite: *Advised* Previously taken ENGL-C1000 (formerly ENGL-01A) is advised.

Begins Fall 2025 This interdisciplinary course examines the social, political, and cultural roots of Chicana/os, tracing history from their Indigenous, African, and Spanish beginnings to the present. It analyzes race, ethnicity, and culture, in relation to Chicana/o communities and their social justice movements and struggles. The course provides a basis for a better understanding of the socio-economic, cultural, and political conditions among Chicana/os through historical consideration of the creation and development of Ethnic Studies programs in the United States. Special emphasis is also placed on the contributions of Chicana/o scholars, artists, and activists by using an intersectional decolonial lens to explore the effects of (neo)colonialism, imperialism, white supremacy, Eurocentrism, and racism.

MW 09:20a-10:45a McNally, T LB-B-106

**History - Non-Credit
HST**

**HST-900
American Citizenship**

0.0 units:

Begins Fall 2025 This course is best suited for non-U.S. citizens. It will provide non-U.S. citizens with a study of the federal and state system of government and the U.S. Constitution, preparing them for the naturalization citizenship interview with United States Citizenship and Immigration

Services (USCIS). The course will include civil rights, voting, historical development of the U.S., types of government, the electoral process, political parties, the executive, legislative, and judicial branches of government, and the relationship between the state and federal systems of government. The student can practice reading, writing, speaking, listening, and pronunciation in English.
