"Students are our focus and we are known by their success"

**MERCED COMMUNITY
COLLEGE DISTRICT**

OBJECTIVE AND PURPOSE

California community college districts are required by regulations (*CCR* §58300 et seq.) to prepare financial reports and annual budgets that report all their actual and projected revenues and expenditures on forms as provided by the Chancellor's Office.

The objective of this document is to provide an overview of the District's fund structure, and revenue and expenditure classifications that feeds into the District's annual budget. The annual budget is an important element in communicating to the District's constituents and one of the most significant responsibilities and requirements for a community college district.

The community college district budget is a plan of proposed expenditures for operations and estimated revenue for a given period of time (fiscal year). The budget represents the operational plans of the district in terms of economic decisions. Budget requirements and processes are described in the California Code of Regulations, beginning with Section 58300.

Once the budget is adopted, the total amount designated as proposed expenditures for each major object of expenditure classification is the maximum allowed without additional governing board authorization for transfers between major classifications or from the reserve for contingencies, in accordance with California Code of Regulations Section 58307.

GENERAL FUND FINANCIAL DATA SUMMARY

REVENUE AND EXPENDITURE CLASSIFICATIONS

For reporting revenues and expenditures, uniform major account classifications are required of California community college districts. Revenue classification is primarily by source and purpose. Expenditure classification is by object and by activity.

The following is a summation of the revenue and expenditure reporting classifications:

Revenue Classifications

- A. Federal (8100)
- B. State (8600)
- C. Local (8800)
- D. Other Financing Sources (8900)

Expenditure Classifications

- A. Academic Salaries (1000)
- B. Classified Salaries (2000)
- C. Employee Benefits (3000)
- D. Supplies and Materials (4000)
- E. Other Operating Expenses (5000)
- F. Capital Outlay (6000)
- G. Other Outgo (7000)

UNRESTRICTED REVENUE SUMMARY

A. Federal Revenues

Unrestricted federal revenue represents a small percentage of the total General Fund revenue. The District's General Fund Federal revenues are for PELL administrative costs.

B. State Revenues

Unrestricted State revenues account for the major part of the total General Fund budget. These revenues include general state apportionment, accounted for in the Student-Centered Funding Formula (SCFF). The SCFF is used to calculate the District's primary operational revenue, also referred to as "Total Computational Revenue" (TCR). TCR is comprised of the following sources: state general apportionment, state Educational Protection Account (EPA), local property taxes (including revenues from Redevelopment Agencies (RDAs), and student enrollment fees. Other major revenues from the State in this classification are unrestricted lottery funds and mandated cost reimbursements.

C. Local Revenues

Local revenues account for a quarter of the total General Fund budget. Primary sources of local revenue include property taxes, enrollment fees, non-resident and international student tuition, interest income, community services fees, facility rentals, and student fees and fines. These sources also include other miscellaneous local revenue accounts.

D. Other Financing Sources

Other financing sources represent a small percent of total General Fund revenue and includes sale of assets and transfers into the General Fund from other District funding sources.

APPROPRIATIONS SUMMARY

A. Academic Salaries

The 1000 series object codes are used to record salary expenditures for employees in academic positions requiring minimum qualifications pursuant to Education Code §87356. A consideration in the budget process is the “50% Law” requiring at least 50% of the current expense of education be for salaries and benefits of classroom instructors.

B. Classified Salaries

Classified Salaries reflect appropriations for salaries of employees in positions that do not require minimum qualifications established by the Board of Governors. The 2000 series object codes are used to record classified salaries.

C. Employee Benefits

Employee benefits, object code series 3000, represent all expenditures for the employer’s share of contributions to retirement plans, as well as other benefit costs such as worker’s compensations, FICA, Health and Welfare, and State Unemployment Insurance.

D. Supplies and Materials

The Supplies and Materials classification 4000 is used to record all expenditures for instructional and non-instructional supplies and materials, including costs of freight, sales/use tax and handling charges. Supplies and materials are items that are expendable and quickly consumed or easily broken, damaged, or lost.

E. Other Operating Expenses

Object classification 5000 is used for expenditures for services, leases, rents, travel, and other operating expenses.

F. Capital Outlay

Capital Outlay classification 6000 is used to record amounts paid for the acquisition of fixed assets or additions to fixed assets including land and site improvements, building purchase, construction or improvement, and equipment.

G. Other Outgo

The Other Outgo classification 7000 is used to record other expenses and non-expenditure disbursements, including inter-fund transfers.

SUMMARY OF DISTRICT FUNDS

FUND ACCOUNTING

California's community colleges utilize governmental accounting and operate on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein. Funds are segregated for carrying on specific activities or obtaining certain objectives in accordance with special regulations, restrictions or limitations.

Fund accounting, therefore, is used as a control device to separate financial resources and ensure that they are used for their intended purposes with the fund as the basic recording entity for reporting specified assets and liabilities and related transactional movements of its resources. Generally, funds are established to account for revenues and expenditures with common purposes and activities.

The District's financial statement reporting is on a full accrual basis. The District will utilize the following funds to account for its various programs, revenues and expenditures:
